Title: Supplemental Nutrition Assistance Program Forms: Applications, Periodic Reporting, and Notices.

Form Number: N/A.

OMB Control Number: 0584–0064.

Expiration Date: 6/30/2027.

Type of Request: Revision of a currently approved collection.

Abstract: The information collection addresses the burden estimates associated with applications, which are designed at the State level; client reporting; and notices sent to SNAP participants or applicants (Individuals/Households). Following Federal requirements, State agencies are responsible for determining the eligibility of SNAP households and issuing benefits to those households entitled to benefits under the Food and Nutrition Act of 2008 (the Act). State agencies obtain demographics such as names, social security numbers, and dates of birth of all household members; addresses; and individual or household income information from households through the initial application and recertification processes as well as through various reports to determine program eligibility and benefit levels. SNAP notices sent to individuals or households addresses are the primary method State agencies communicate with SNAP applicants and current participants. This information must be collected from households to ensure that they are eligible for the program and that they receive the correct amount of SNAP benefits.

State agencies are limited in the use or disclosure of information obtained from SNAP application forms or contained in case files of participating SNAP households to certain persons, specifically those directly connected with: the administration of SNAP; the administration of other Federal or Federally assisted means-tested programs; the verification of immigration status of aliens; the Office of the Comptroller General of the U.S. for audit and examination authorized by any other provisions of law; local, State, or Federal law enforcement for the purpose of investigating an alleged violation of the Act or SNAP regulations; local, State, or Federal law enforcement for the purpose of investigating if a household member is a fleeing felon or a parole violator; and agencies of the Federal Government for the purposes of collecting the amount of an over issuance from Federal pay.

Additionally, State agencies must provide USDA with certain records through the system of records USDA/FNS–15, ''National Supplemental Nutrition Assistance Program (SNAP) Information Database.'' This system includes information on individuals who have received, are currently receiving, or are applying to receive SNAP benefits, including SNAP participant name; Social Security Number (SSN); date of birth; residential address; case record identifier number or other identifiers or data elements used to identify SNAP participants. This system will also include information used to issue SNAP benefits and make them available to participants, including Electronic Benefit Transfer (EBT) card number; issuance amounts; and benefit available dates for each participating household. These data elements are developed and held as records by either SNAP State agencies or by EBT processers for the certification and issuance processes. USDA and FNA use the SNAP data in this system to ensure the integrity of Government programs, including by verifying SNAP recipient eligibility against federally maintained databases, identifying and eliminating duplicate enrollments, and performing additional eligibility and program integrity checks.

The Federal procedures for implementing the application and certification procedures, as well as third-party disclosure requests, in the Act are in Parts 271, 272, and 273 of Title 7 of the Code of Federal

Regulations (CFR). Part 271 contains general information and definitions, Part 272 contains requirements for participating State agencies, and Part 273 contains procedures for the certification of eligible households. Part 274 of Title 7 of the CFR also contains requirements for benefit issuance, which relates to the SNAP data submission requirements.

In the process of renewing this information collection, FNA modified the burden of some of its reporting and recordkeeping requirements to reflect current SNAP caseload levels and more recent data sources, where possible. FNA is also removing all line items related to work requirements from this information collection and moving them to OMB Control Number 0584–0479, ''Supplemental Nutrition Assistance Program: Work Requirements and Screening'' (Expiration Date: 7/31/2028). FNA detailed this change in the December 17, 2024, final rule, ''Supplemental Nutrition Assistance Program: Program Purpose and Work Requirement Provisions of the Fiscal Responsibility Act of 2023'' (RIN 0584–AF01).

In total, these adjustments and changes represent a decrease of 74,172,143.62 total annual responses and 9,969,342 total annual burden hours for 53 State agencies, 2,724 Local agencies, and 22,438,348 Individuals/Households compared to the last to the burden in the currently approved information collection.
