

This project is a database module and web interface allowing the public and Alaska Volcano Observatory (AVO) staff to enter reports of ashfall in their local area in real time and retrospectively following an eruptive event. Users browsing the AVO website during eruptions will be directed towards a web form allowing them to fill in ashfall information and submit the information to AVO.

Compiled ashfall reports are available in real-time to AVO staff through the AVO internal website. A pre-formatted summary report or table that distills information received online will show ashfall reports in chronological order with key fields including (1) date and time of ashfall, (2) location, (3) positive or negative ashfall (4) name of observer, and (5) contact information is easily viewable internally on the report so that calls for clarification can be made by AVO staff quickly and Operations room staff can visualize ashfall information quickly.

Ashfall report data will also be displayed on a dynamic map interface and show positive (yes ash) and negative (no ash) ashfall reports by location. Ashfall reports (icons) will be publicly displayed for a period of 24 hours and shaded differently as they age so that the age of reports is obvious.

The ashfall report database will help AVO track eruption clouds and associated fallout downwind. These reports from the public will also give scientists a more complete record of the amount and duration and other conditions of ashfall. Getting first-hand accounts of ashfall will support model ashfall development and interpretation of satellite imagery. AVO scientists will—as time allows—be able to contact the individuals using their entered contact information for clarification and details. Knowing the locations from which ashfall reports have been filed will improve ashfall warning messages, AVO Volcanic Activity Notifications, and make fieldwork more efficient. AVO staff will be able to condense and summarize the various ashfall reports and forward that information on to emergency management agencies and the wider public. The online form will also free up resources during exceedingly busy times during an eruption, as most individuals currently phone AVO with their reports.

Title of Collection: USGS Ashfall Report.

OMB Control Number: 1028–0106.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: General Public, local governments and emergency managers.

Total Estimated Number of Annual Respondents: We are likely to ask individuals to respond 1–6 times year which is the number of past eruptions we have during any one year in Alaska.

Total Estimated Number of Annual Responses: Approximately 250 individuals affected by a volcanic ashfall event each year.

Estimated Completion Time per Response: We estimate the public reporting burden will average 5 minutes per response. This includes the time for reviewing instructions, and answering a web-based questionnaire.

Total Estimated Number of Annual Burden Hours: 21 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion, after each ashfall event.

Total Estimated Annual Nonhour Burden Cost: We have not identified any “non-hour cost” burdens associated with this collection of information.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Thomas Murray,

Director, Volcano Science Center.

Agency Information Collection Activities; Submitted for Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before July 8, 2019.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey,

Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–0094 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Joseph East, Eastern Energy Resources Science Center, U.S. Geological Survey by email at jeast@usgs.gov, or by telephone at (703) 648–6450.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The primary objective of the National Coal Resources Data System (NCRDS) is to advance the understanding of the energy endowment of the United States (U.S.) by gathering and organizing digital geologic information related to coal, coal bed gas, shale gas, conventional and

unconventional oil and gas, geothermal, and other energy resources and related information regarding these resources, along with environmental impacts from using these resources. These data are needed to support regional or national assessments concerning energy resources. Requesting external cooperation is a way for NCRDS to collect energy data and perform research and analyses on the characterization of geologic material, and obtain other information (including geophysical or seismic data, sample collection for generation of thermal maturity data) that can be used in energy resource assessments and related studies.

The USGS will issue a call for proposals to support researchers from State Geological Surveys and associated accredited universities that can provide geologic data to support NCRDS and other energy assessment projects being conducted by the USGS.

Data submitted to NCRDS by external cooperators constitute more than two-thirds of the USGS point-source stratigraphic database (USTRAT) on coal occurrence. This program is conducted under various authorities, including 30 U.S.C. 208–1, 42 U.S.C. 15801, and 43 U.S.C. 31 *et seq.* This collection will consist of applications, proposals and reports (annual and final).

Title of Collection: National Coal Resources Data System (NCRDS).

OMB Control Number: 1028–0094.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Individuals; State, local and tribal governments; State Geological Surveys, universities, and businesses.

Total Estimated Number of Annual Respondents: 21.

Total Estimated Number of Annual Responses: 21.

Estimated Completion Time per Response: 25 hours.

Total Estimated Number of Annual Burden Hours: 525 hours.

Respondent's Obligation: Required to Obtain or Retain a Benefit.

Frequency of Collection: One time every 5 years for applications and final reports; annually for progress reports.

Total Estimated Annual Non-hour Burden Cost: There are no “non-hour cost” burdens associated with this IC.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Margo Corum,

Associate Program Coordinator.

Indian Gaming; Approval of Tribal-State Class III Gaming Compact Amendment in the State of Oklahoma

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: The State of Oklahoma entered into a compact amendment with the Shawnee Tribe governing certain forms of class III gaming; this notice announces the approval of the Non-House-Banked Table Games Supplement to the compact between the Shawnee Tribe and the State of Oklahoma.

DATES: The compact amendment takes effect on May 8, 2019.

FOR FURTHER INFORMATION CONTACT: Ms. Paula L. Hart, Director, Office of Indian Gaming, Office of the Deputy Assistant Secretary—Policy and Economic Development, Washington, DC 20240, (202) 219–4066.

SUPPLEMENTARY INFORMATION: Under section 11 of the Indian Gaming Regulatory Act (IGRA) Public Law 100–497, 25 U.S.C. 2701 *et seq.*, the Secretary of the Interior shall publish in the **Federal Register** notice of approved Tribal-State compacts for the purpose of engaging in class III gaming activities on Indian lands. As required by IGRA and 25 CFR 293.4, all compacts and amendments are subject to review and approval by the Secretary. The compact amendment authorizes the Tribe to engage in certain additional class III gaming activities, and provides for the application of existing revenue sharing agreements to the additional forms of class III gaming.

Dated: April 16, 2019.

John Tahsuda,

Principal Deputy Assistant Secretary—Indian Affairs.

Major Portion Prices and Due Date for Additional Royalty Payments on Indian Gas Production in Designated Areas Not Associated With an Index Zone

AGENCY: Office of Natural Resources Revenue, Interior.

ACTION: Notice.

SUMMARY: Final regulations for valuing gas produced from Indian leases, published August 10, 1999, require the Office of Natural Resources Revenue (ONRR) to determine major portion prices and notify industry by publishing the prices in the **Federal Register**. The regulations also require ONRR to publish a due date for industry to pay additional royalties based on the major portion prices. Consistent with these requirements, this notice provides major portion prices for the 12 months of calendar year 2017.

DATES: The due date to pay additional royalties based on the major portion prices is July 8, 2019.

FOR FURTHER INFORMATION CONTACT:

Calculation of Prices Information: Robert Sudar, Manager, Market & Spatial Analytics, ONRR, at (303) 231–3511, or email to Robert.Sudar@onrr.gov; mailing address—Office of Natural Resources Revenue, P.O. Box 25165, MS 64310B, Denver, Colorado 80225–0165.

Reporting Information: Lee-Ann Martin, Program Manager, Reference & Reporting Management, ONRR, at (303) 231–3313, or email to Leeann.Martin@onrr.gov; mailing address—Office of Natural Resources Revenue, P.O. Box 25165, MS 63300B, Denver, Colorado 80225–0165.

SUPPLEMENTARY INFORMATION: On August 10, 1999, ONRR's predecessor, the Minerals Management Service, published a final rule titled “Amendments to Gas Valuation Regulations for Indian Leases” effective January 1, 2000 (64 FR 43506). The gas valuation regulations apply to all gas production from Indian (Tribal or allotted) oil and gas leases, except leases on the Osage Indian Reservation.

The regulations require ONRR to publish major portion prices for each designated area not associated with an index zone for each production month beginning January 2000, as well as the due date for additional royalty payments. See 30 CFR 1206.174(a)(4)(ii). If you owe additional royalties based on
