

industry to lower remove barriers inhibiting the implementation of technologies and practices that reduce refrigerant emissions. The Program effectively promotes the adoption of emission reduction practices and technologies by engaging GreenChill partners to set an annual refrigerant emission reduction goal and develop a Refrigerant Management Plan reflecting the company's implementation objectives. Implementation of the partners' Refrigeration Management Plan to reduce refrigerant emissions enhances the protection of the environment and may save Partners money and improve operational efficiency. The GreenChill Program offers the opportunity for any individual store to be GreenChill certified at the silver-, gold- or platinum-level when it demonstrates that the amount of refrigerant used is below a specified limit, based on the store's MBTU/hour cooling load, and that the refrigerant emitted from the store in the prior 12 months is below a specified percentage depending on each GreenChill store certification level. Information submitted for the certification of individual stores is compared to these set criteria for each certification level. The certification of a store provides the opportunity for broad recognition within the supermarket industry and with the store's customers. All information submitted to EPA is treated in accordance with the EPA regulations at 40 CFR part 2, that include provisions on protecting confidential business information (CBI).

Form Numbers: 5900–213, 5900–214.

Respondents/affected entities:

Supermarkets, NAICS code: 445110.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 232 (per year).

Frequency of response: Annual, and when desired.

Total estimated burden: 2,608 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$110,940 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: Due to the inclusion of voluntary submissions by individual supermarkets to become GreenChill certified, and recognizing these submissions are increasing annually, the total number of hours increases by 920 per year compared with the ICR currently approved by OMB. In addition, the number of companies submitting information voluntarily under the Corporate Emission Reduction Program (the Partnership) is reduced due to industry

consolidation, acquisitions, and bankruptcy, as well as a reduction in the number of companies joining the partnership each year. The costs associated with labor categories reflect generally higher salaries across Respondents and the Agency.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OAR–2003–0073; FRL–9993–78–OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Distribution of Offsite Consequence Analysis Information Under Section 112(r)(7)(H) of the Clean Air Act (CAA), as Amended (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Distribution of Offsite Consequence Analysis Information under Section 112(r)(7)(H) of the Clean Air Act (CAA), as amended, (EPA ICR Number 1981.07, OMB Control Number 2050–0172), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 19, 2019. Public comments were previously requested via the **Federal Register** on November 23, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before July 1, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2003–0073 to (1) EPA online using www.regulations.gov (our preferred method), by email to superfund.docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via

email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Wendy Hoffman, Office of Emergency Management, Mail Code 5104A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564–8794; fax number: (202) 564–2620; email address: hoffman.wendy@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR renewal is for the collection developed to support the final rule, *Accidental Release Prevention Requirements; Risk Management Programs Under the Clean Air Act Section 112(r)(7); Distribution of Off-Site Consequence Analysis Information*, published on August 4, 2000 (65 FR 48108), defines the Federal Government's responsibilities with respect to the dissemination of offsite consequence analyses (OCA) information to the public. OCA information is received by the EPA within risk management plans (RMPs) collected in service to the Agency's mandate to promulgate reasonable regulations and appropriate guidance to provide for the prevention and detection of accidental releases and for responses to such releases under CAA section 112(r)(7).

In accordance with the final rule, the government established 55 reading rooms at federal facilities geographically distributed across the United States and its territories. At these reading rooms, members of the public are able to read OCA information for stationary sources (up to 10 per month), for the Local Emergency Planning Committees (LEPCs) in whose jurisdiction they live or work, and for any other stationary sources with vulnerability zones

extending into their LEPC's jurisdiction. Individuals anywhere may use the Vulnerable Zone Indicator System (VZIS) to find out whether a specified address is within the vulnerable zone of one or more stationary sources.

The final rule also authorizes and encourages state and local government officials to have access to OCA information relevant to their jurisdiction, both for their own official use and to appropriately disseminate to the local public population.

This ICR is intended to renew EPA's approval to carry out the recordkeeping and reporting requirements created by the final rule as it defines the practices that state and local officials need to follow in order to share the data they have and the specific procedures that different categories of individuals need to follow in order to request information, certify their identity, and receive OCA data.

Form Numbers: None.

Respondents/affected entities: State and local agencies and the public.

Respondent's obligation to respond: Required to obtain or retain a benefit (40 CFR 1400).

Estimated number of respondents: 315 (total).

Frequency of response: As necessary.

Total estimated burden: 367 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$16,252 (per year), includes \$23 annualized capital or operation & maintenance costs.

Changes in the Estimates: This ICR renewal includes a significant decrease in the estimated burden compared to the previous ICR renewal. The burden reduction is attributable to the reduced number of reading room visits by the public, the reduced number of letters of request for OCA from state and local governments and LEPCs, and a reduced number of public meetings assumed to be held by LEPCs resulting from the lower of letters of request submitted by LEPCs. To a large extent, the reductions are the result of the respondents increasingly obtaining the OCA data through electronic methods, for example, through *rtk.net*, RMP*Info and RMP Data Download.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2019-0075; FRL-9994-01]

Certain New Chemicals; Receipt and Status Information for January 2019; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; correction.

SUMMARY: EPA is hereby correcting information presented in a notice that published in the **Federal Register** of April 10, 2019. That notice provided information concerning submissions to EPA under TSCA Section 5, but inadvertently duplicated test submission information from the previous month. EPA is providing the test information received in January 2019, and providing an opportunity for public comment on this information.

DATES: Comments identified by the specific case number provided in this document must be received on or before July 1, 2019.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2019-0075, and the specific case number for the chemical substance related to your comment, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For technical information contact: Jim Rahai, Information Management

Division (7407M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 564-8593; email address: rahai.jim@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What action is the Agency taking?

In the **Federal Register** of April 10, 2019 (84 FR 14365) (FRL-9991-20), EPA published information pertaining to submissions in January 2019 under TSCA Section 5, including notice of receipt of a Premanufacture notice (PMN), Significant New Use Notice (SNUN) or Microbial Commercial Activity Notice (MCAN), including an amended notice or test information; an exemption application (Biotech exemption); an application for a test marketing exemption (TME), both pending and/or concluded; a notice of commencement (NOC) of manufacture (including import) for new chemical substances; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review. Subsequent to that publication, a stakeholder noticed that the information in Table II of Unit III. appeared to be identical to the information provided for December 2018 (see 84 FR 14368, April 10, 2019) (FRL-9990-59). EPA is hereby publishing the corrected information for January 2019 and providing an opportunity for public comments on this new information.

II. What is this correction?

In Unit I.A., the first sentence incorrectly identified the period covered by the notice as “from 01/01/2019 to 12/31/2019,” rather than just the month of January. Instead, it should have identified the period covered by the notice as “from 01/01/2019 to 01/31/2019.”

In addition, the information in Table II of Unit III., which appears on page 14367, is corrected to read as follows:
