#### **Prestressed Concrete Steel Rail Tie Wire From Mexico and the People's Republic of China: Final Results of Sunset Reviews and Revocation of Antidumping Duty Orders**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** On May 1, 2019, the Department of Commerce (Commerce) initiated the sunset reviews of the antidumping duty orders on prestressed concrete steel rail tie wire (PC tie wire) from Mexico and the People's Republic of China (China). Because the domestic interested parties did not participate in these sunset reviews, Commerce is revoking these antidumping duty orders.

**DATES:** Applicable June 10, 2019.

**FOR FURTHER INFORMATION CONTACT:** Samantha Kinney, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: 202-482-2285.

#### **SUPPLEMENTARY INFORMATION:**

#### **Background**

On June 24, 2014, Commerce issued antidumping duty orders on PC tie wire from Mexico and China.<sup>1</sup> On May 1, 2019, Commerce initiated the first sunset reviews on these orders pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.218.<sup>2</sup>

<sup>1</sup> See *Prestressed Concrete Steel Rail Tie Wire from Mexico and the People's Republic of China: Antidumping Duty Orders*, 79 FR 35727 (June 24, 2014) (*PC Tie Wire from Mexico and PRC Orders*).

<sup>2</sup> See *Initiation of Five-Year (Sunset) Reviews*, 84 FR 18477 (May 1, 2019).

We did not receive a notice of intent to participate from domestic interested parties in either sunset review by the deadline date.<sup>3</sup> As a result, Commerce determined that no domestic interested party intends to participate in the sunset reviews.<sup>4</sup> Pursuant to 19 CFR 351.218(d)(1)(iii)(B)(2), on May 21, 2019, we notified the International Trade Commission in writing that we intended to issue a final determination revoking the antidumping duty orders on PC tie wire from Mexico and China.<sup>5</sup>

#### **Scope of the Orders**

The products covered by these orders are high carbon steel wire; stress relieved or low relaxation; indented or otherwise deformed; meeting at a minimum the physical, mechanical, and chemical requirements of the American Society of Testing Materials (ASTM) A881/A881M specification; regardless of shape, size, or other alloy element levels; suitable for use as prestressed tendons in concrete railroad ties ("PC tie wire"). High carbon steel is defined as steel that contains 0.6 percent or more of carbon by weight.

PC tie wire is classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheading 7217.10.8045, but may also be classified under subheadings 7217.10.7000, 7217.10.8025, 7217.10.8030, 7217.10.8090, 7217.10.9000, 7229.90.1000, 7229.90.5016, 7229.90.5031, 7229.90.5051, 7229.90.9000 and 7312.10.3012. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the orders is dispositive.

#### **Revocation**

Pursuant to section 751(c)(3)(A) of the Act, and 19 CFR 351.218(d)(1)(iii)(B)(3), if no domestic interested parties respond to a notice of initiation, Commerce shall, within 90 days after the date of publication of the notice of initiation of the review, revoke the order. Because no domestic interested party filed a notice of intent to participate in these sunset reviews, we are revoking these antidumping duty orders on PC tie wire from Mexico and China.

#### **Effective Date of Revocation**

Pursuant to sections 751(c)(3)(A) and 751(c)(6)(A)(iii) of the Act and 19 CFR 351.222(i)(2)(i), Commerce intends to instruct U.S. Customs and Border

Protection to terminate the suspension of liquidation of, and discontinue the collection of AD cash deposits on, the merchandise subject to the antidumping duty orders on PC tie wire from Mexico and China entered, or withdrawn from warehouse, on or after June 24, 2019, the fifth anniversary of the date on which Commerce published in the **Federal Register** notice of these antidumping duty orders.<sup>6</sup> Entries of subject merchandise prior to the effective date of revocation will continue to be subject to suspension of liquidation and antidumping duty deposit requirements. Commerce will complete any pending administrative reviews of these orders and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

These five-year (sunset) reviews and this notice are issued and published in accordance with sections 751(c) and 777(i)(1) of the Act, and 19 CFR 351.218(f)(4).

#### **Certain Crystalline Silicon Photovoltaic Products From Taiwan: Notice of Preliminary Results of Antidumping Duty Changed Circumstances Review**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) preliminarily determines that United Renewable Energy Co., Ltd. (URE) is the successor-in-interest to Gintech Energy Corporation (Gintech), Neo Solar Power Corporation (Neo Solar), and Solartech Energy Corporation (Solartech). If these preliminary results are adopted in our final results, we will assign URE the cash deposit rate assigned to Gintech, Neo Solar, and Solartech. We invite parties to comment on these preliminary results.

**DATES:** Applicable June 10, 2019.

#### SUPPLEMENTARY INFORMATION:

##### Background

On February 18, 2015, Commerce published in the **Federal Register** an antidumping duty order on certain crystalline silicon photovoltaic products (solar products) from Taiwan.<sup>1</sup> On February 1, 2019, Commerce received a request on behalf of URE for an expedited changed circumstances review (CCR) to determine whether URE is the successor-in-interest to Gintech, Neo Solar, and Solartech.<sup>2</sup> On March 26, 2019, we initiated a CCR and published notice in the **Federal Register**.<sup>3</sup>

On April 10, 2019, SunPower Manufacturing Oregon LLC, a domestic producer of subject merchandise and successor to SolarWorld Americas (the petitioner), filed a letter in support of an affirmative successor-in-interest determination.<sup>4</sup> We received no additional comments on URE's CCR request.

##### Scope of the Order

The merchandise covered by this order is crystalline silicon photovoltaic cells, and modules, laminates and/or panels consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including building integrated materials.

Merchandise covered by the order is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 8501.61.0000, 8507.20.8030, 8507.20.8040, 8507.20.8060, 8507.20.8090, 8541.40.6020, 8541.40.6030 and 8501.31.8000. These HTSUS subheadings are provided for convenience and customs purposes; the written description of the scope of the order is dispositive. For a full description of the scope of the order,

<sup>1</sup> See *Certain Crystalline Silicon Photovoltaic Products from Taiwan: Antidumping Duty Order*, 80 FR 8596 (February 18, 2015).

<sup>2</sup> See URE's Letter, "Certain Crystalline Silicon Photovoltaic Products from Taiwan: Request for Changed Circumstances Review and Successor-in-Interest Determination," dated February 1, 2019 (CCR Request).

##### Methodology

We are conducting this CCR in accordance with section 751(b)(1) of the Tariff Act of 1930, as amended (the Act). For a full description of the methodology underlying our analysis, please refer to the accompanying Preliminary Decision Memorandum. For a list of topics addressed in the Preliminary Decision Memorandum, please see the Appendix to this notice.

##### Preliminary Results of Changed Circumstances Review

In accordance with 19 CFR 351.216, we preliminarily determine that URE is the successor-in-interest to Gintech, Neo Solar, and Solartech. Record evidence indicates that URE's management, board of directors and ownership are materially similar to those of Gintech, Neo Solar, and Solartech prior to their merger. Moreover, we preliminarily find that URE assumed the production facilities of Gintech, Neo Solar, and Solartech, and substantially assumed the supplier relationships and customer base of the predecessor companies. For the complete successor-in-interest analysis, please refer to the accompanying Preliminary Decision Memorandum.

Furthermore, we preliminarily determine that, as the successor-in-interest to Gintech, Neo Solar, and Solartech, URE should receive the same antidumping duty treatment with respect to the subject merchandise as Gintech, Neo Solar, and Solartech. If we continue to reach the same determination for the final results of this CCR, we will assign URE the cash deposit rate assigned to Gintech, Neo Solar, and Solartech, effective on the publication date of the final results in the **Federal Register**. At that time, we will instruct U.S. Customs and Border Protection (CBP) to collect the cash deposits accordingly.
