BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP): Initial Review

The meeting announced below concerns Comprehensive High-Impact HIV Prevention Projects for Community-Based Organizations, Funding Opportunity Announcement (FOA) PS15-1502, Initial Review.

SUMMARY: This document corrects a notice that was published in the **Federal Register** on February 9, 2015, Volume 80, Number 26, pages 6971 and 6972. The times and dates should read as follows:

DATES: *Times and Dates:*

9 a.m.–4 p.m., Panels 1–5; March 3, 2015 (Closed).

9 a.m.–4 p.m., Panels 6–12; March 6, 2015 (Closed).

Status: The meeting will be closed to the public in accordance with provisions set forth in Section 552b(c) (4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, CDC, pursuant to Public Law 92-463.

FOR FURTHER INFORMATION CONTACT: Elizabeth Wolfe, Public Health Advisor, CDC, 1600 Clifton Road NE., Mailstop E07, Atlanta, Georgia 30333, Telephone: (404) 639-8135.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Catherine Ramadei,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[CDC-2015-0005, Docket Number NIOSH-281]

Future Directions for the Surveillance of Agricultural Injuries; Public Meeting; Request for Comments

AGENCY: National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of public meeting and request for comment.

SUMMARY: The National Institute for Occupational Safety and Health of the Centers for Disease Control and Prevention announces a public meeting and an opportunity to comment on future directions for the surveillance of injuries within the agricultural production industry. To view the notice and related materials visit <http://www.regulations.gov> and enter CDC-2015-0005 in the search field and click "Search."

Public comment period: Comments must be received May 27, 2015.

 - II. Public Meeting
 - III. Written Comments

DATES: A public meeting will be held on March 30, 2015, 1:00 p.m.–5:00 p.m. Eastern Time, or after the last public commenter has spoken, whichever occurs first. The public meeting will be held as a web-based conference only available by remote access.

FOR FURTHER INFORMATION CONTACT: Kitty Hendricks, Division of Safety Research, 1095 Willowdale Road, MS 1808, Morgantown, West Virginia 26505-2888, (304) 285-5916 (not a toll free number) or khendricks@cdc.gov.

SUPPLEMENTARY INFORMATION:

I. *Background:* NIOSH began a coordinated program in 1990 to address safety and health issues for workers and families in the US agricultural production industry. In support of this program, NIOSH established an ongoing, national-level surveillance system to monitor injuries to hired farm workers, farmers, and farm family members. Data for the injury surveillance system are primarily

collected through surveys funded by NIOSH and conducted by the US Department of Agriculture's National Agricultural Statistics Service (USDA-NASS) and the US Department of Labor (DOL). These surveillance data are used by NIOSH and others to estimate injuries and injury rates and identify safety hazards that increase injury risk.

Surveillance data have also been used to show that the US agricultural production industry has changed. Over the past quarter century, both the size of the workforce and the number of injuries have declined. To maintain statistically stable injury estimates with the current approach of national-level surveys, sample sizes would need to be increased. As a result, this approach has become more resource-intensive and is no longer tenable for NIOSH.

Beginning in 2015, NIOSH will not reestablish interagency agreements with USDA-NASS and DOL to collect survey data for the agricultural injury surveillance system. This change in surveillance approach presents an opportunity for NIOSH to receive stakeholder input and rigorously examine future options for agricultural injury surveillance.

To identify and assess different options, NIOSH plans the following activities: Hold the public meeting announced in this notice to initiate a national conversation regarding future agricultural injury surveillance; seek additional public comments through this docket on the most urgent priorities for injury surveillance in production agriculture; examine what NIOSH and agricultural injury stakeholders can do to meet the overall need for agricultural injury surveillance; support a comprehensive, independent assessment of recommendations resulting from a 2007 National Academy of Sciences (NAS) review and a 2012 follow-up independent panel review; continue to engage with interested parties as NIOSH plans its own future directions for agricultural injury surveillance; and seek input on the need for a follow-up public meeting in Fall 2015 to discuss NIOSH's future plans after having considered input received through the public meeting and public comment period.

NIOSH is especially interested in comments related to finding new ways of doing surveillance using smarter, more cost-effective approaches; shifting surveillance from national to regional or local approaches, in recognition of the diversity of agricultural types in different parts of the country; and examining roles that partners can take to address the need for smarter agricultural injury surveillance.
