

nonpoint program for approval by the federal agencies. State coastal nonpoint programs were to be submitted to the federal agencies for approval by July 1995, and Oregon submitted its program by that date. The federal agencies provided public notice of, and invited public comment on, their proposal to approve, with conditions, the Oregon program (62 FR 6216). The federal agencies approved the program by letter dated January 13, 1998, subject to the conditions specified in the letter (63 FR 11655). All of the conditions identified at that time must be met for Oregon to have a fully approvable coastal nonpoint program. The federal agencies' finding announced in this notice addresses only the additional management measures related to forestry, which were conditioned in the 1998 approval.

Prior to making this finding, the federal agencies invited public input on the federal agencies' proposed decision and the reasoning for such a decision and provided a 90-day public comment period on the proposed decision (see December 20, 2013, **Federal Register** Notice 78 FR 77104). The federal agencies also announce their publication of a response to the comments received regarding the proposed decision.

Over time, Oregon has made considerable progress in its coastal nonpoint program in order to satisfy the conditions the federal agencies identified. As explained in the decision document containing the rationale for the federal agencies' decision, however, the federal agencies find that Oregon has not yet submitted a fully approvable program that meets the condition set for developing additional management measures for forestry, and consequently, the federal agencies find that Oregon has not submitted a program that is approvable under CZARA. The decision document describes why Oregon's program has not yet satisfied the remaining conditions that relate to reducing the adverse effects of certain forestry-related activities on Oregon's coastal water quality.
