BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-407]

Application To Export Electric Energy; Vitol Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: Vitol Inc. (Vitol or Applicant) has applied for authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before April 3, 2015.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On February 10, 2015, DOE received an application from Vitol for authority to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. The Applicant is also requesting an expedited review of the

Application and for DOE to issue the requested authorization within 60 days.

In its application, Vitol states that it does not own or control any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that Vitol proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning the Vitol application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-407. An additional copy is to be provided directly to both Robert F. Viola and Kolby Kettler, Vitol Inc., 1100 Louisiana Street, Suite 5500, Houston, TX 77002.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on February 25, 2015.

DEPARTMENT OF ENERGY

Notice of Procedure Requiring Designation of U.S. Resident Agent for Applicants and Authorization Holders That Neither Reside in Nor Have a Place of Business or Other Corporate Presence in the United States

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of procedure.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) is hereby notifying both applicants for authorizations to import or export natural gas, including liquefied natural gas (LNG), and the current holders of such authorizations that neither reside in nor have a place of business or other corporate presence in the United States that they must identify an agent resident within the United States to receive service of legal process. This notice applies to any such applicant and/or authorization holder that has not already identified a U.S. agent in its existing proceeding in a filing or other correspondence with DOE/FE.

DATES: This procedural change is effective March 4, 2015. Those affected by the change must comply by April 3, 2015.

ADDRESSES: Submissions of information required by this procedure can be made using one of the following:

SUPPLEMENTARY INFORMATION: DOE is authorized under the Natural Gas Act, 15 U.S.C. 717b(a), (c), to regulate the import and export of natural gas to or from the United States.¹ As the number of applicants and authorization holders regulated under these statutory provisions continues to increase, DOE/FE is aware that many such applicants and authorization holders neither reside in nor have a place of business or other corporate presence in the United States. Applications to import or export natural gas are informal adjudications conducted in accordance with DOE regulations, 10 CFR part 590, and the Administrative Procedure Act, 5 U.S.C. 551, *et seq.* Applicants therefore must be available to receive and respond to timely service of process of DOE/FE orders and other filings, including pleadings submitted by parties in application proceedings. Additionally, authorization holders are subject to continuing agency jurisdiction and to terms, conditions, and reporting and recordkeeping requirements set forth in each authorization. To monitor and enforce compliance with its authorizations, DOE/FE must have the means to serve legal process on authorization holders within the United States.

Accordingly, DOE/FE has determined that applicants and authorization holders that neither reside in nor have a place of business or other corporate presence in the United States must identify an agent within the jurisdiction of the United States to receive service of process regarding their pending application or existing authorization, respectively. As noted above, this action will help to ensure that all applicants and authorization holders are notified promptly of any agency or party filing in their proceeding, and that DOE/FE has the means to monitor and enforce compliance with the terms, conditions, and other requirements of its authorizations.

Compliance with this procedural change shall be accomplished in the following manner: Within 30 days of the date of publication of this Notice in the **Federal Register**, all applicants and authorization holders that do not reside in the United States and do not have a place of business or other corporate presence in the United States must provide DOE/FE with the name, address, and telephone number of an agent in the United States designated to receive service of legal process in connection with their pending application(s) and/or existing authorization(s). This requirement does not apply to any such applicant and/or authorization holder that has already identified a U.S. agent in its existing proceeding in a filing or other correspondence with DOE/FE.

For purposes of complying with this procedural requirement, the U.S. agent may be a natural person residing in the United States, a U.S. corporation, or a foreign corporation registered to conduct business in the United States (including the applicant or authorization holder itself), provided that the domestic or foreign corporation has a business address in the United States and is authorized by its articles of incorporation to act as agent.

Submissions shall include the docket number and the order number(s) (if appropriate), the agent's name and complete U.S. address, and the consent of the applicant or authorization holder to service of process on the designated agent as long as the authority of the agent continues. This requirement shall be a continuing obligation of applicants and authorization holders. Accordingly, it shall be incumbent upon applicants and authorization holders to designate a new agent in the event an agent discontinues its service as agent.

Issued in Washington, DC, on February 26, 2015.

John A. Anderson,

Director, Office of Oil and Gas Global Security and Supply, Office of Oil and Natural Gas.
