**DEPARTMENT OF HOMELAND SECURITY**

**Federal Emergency Management Agency**

**44 CFR Part 64**

[Docket ID FEMA–2015–0001; Internal Agency Docket No. FEMA–8375]

**Suspension of Community Eligibility**

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Final rule.

**SUMMARY:** This rule identifies communities where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP) that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this
rule, the suspension will not occur and
a notice of this will be provided by
publication in the Federal Register on
a subsequent date. Also, information
identifying the current participation
status of a community can be obtained
from FEMA’s Community Status Book
(CSB). The CSB is available at http://
www.fema.gov/fema/csb.shtm.
DATES: The effective date of each
community’s scheduled suspension is
the third date (“Susp.”) listed in the
column of the following tables.
FOR FURTHER INFORMATION CONTACT: If
you want to determine whether a
particular community was suspended
on the suspension date or for further
information, contact Bret Gates, Federal
Insurance and Mitigation
Administration, Federal Emergency
Management Agency, 500 C Street SW.,
SUPPLEMENTARY INFORMATION: The NFIP
enables property owners to purchase
Federal flood insurance that is not
otherwise generally available from
private insurers. In return, communities
agree to adopt and administer local
floodplain management measures aimed
at protecting lives and new construction
from future flooding. Section 1315 of
the National Flood Insurance Act of
1968, as amended, 42 U.S.C. 4022,
prohibits the sale of NFIP flood
insurance unless an appropriate public
body adopts adequate floodplain
management measures with effective
enforcement measures. The
communities listed in this document no
longer meet that statutory requirement
for compliance with program
regulations, 44 CFR part 59.
Accordingly, the communities will be
suspended on the effective date in
the third column. As of that date, flood
insurance will no longer be available in
the community. We recognize that some
of these communities may adopt and
submit the required documentation of
legally enforceable floodplain
management measures after this rule is
published but prior to the actual
suspension date. These communities
will not be suspended and will continue
to be eligible for the sale of NFIP flood
insurance. A notice withdrawing the
suspension of such communities will be
published in the Federal Register.
In addition, FEMA publishes a Flood
Insurance Rate Map (FIRM) that
identifies the Special Flood Hazard
Areas (SFHAs) in these communities.
The date of the FIRM, if one has been
published, is indicated in the fourth
column of the table. No direct Federal
financial assistance (except assistance
pursuant to the Robert T. Stafford
Disaster Relief and Emergency
Assistance Act not in connection with a
flood) may be provided for construction
or acquisition of buildings in identified
SFHAs for communities not
participating in the NFIP and identified
for more than a year on FEMA’s initial
FIRM for the community as having
flood-prone areas (section 202(a) of the
Flood Disaster Protection Act of 1973,
42 U.S.C. 4106(a), as amended). This
prohibition against certain types of
Federal assistance becomes effective for
the communities listed on the date
shown in the last column. The
Administrator finds that notice and
public comment procedures under 5
U.S.C. 553(b), are impracticable and
unnecessary because communities listed
in this final rule have been adequately
notified.
Each community receives 6-month,
90-day, and 30-day notification letters
addressed to the Chief Executive Officer
statting that the community will be
suspended unless the required
floodplain management measures are
met prior to the effective suspension
date. Since these notifications were
made, this final rule may take effect
within less than 30 days.
National Environmental Policy Act.
This rule is categorically excluded from
the requirements of 44 CFR part 10,
Environmental Considerations. No
environmental impact assessment has
been prepared.
Regulatory Flexibility Act. The
Administrator has determined that this
rule is exempt from the requirements of
the Regulatory Flexibility Act because
the National Flood Insurance Act of
1968, as amended, Section 1315, 42
U.S.C. 4022, prohibits flood insurance
coverage unless an appropriate public
body adopts adequate floodplain
management measures with effective
enforcement measures. The
communities listed no longer comply
with the statutory requirements, and
after the effective date, flood insurance
will no longer be available in the
communities unless remedial action
takes place.
Regulatory Classification. This final
rule is not a significant regulatory action
under the criteria of section 3(f) of
Executive Order 12866 of September 30,
1993, Regulatory Planning and Review,
58 FR 51735.
Executive Order 13132, Federalism.
This rule involves no policies that have
federalism implications under Executive
Order 13132.
Executive Order 12988, Civil Justice
Reform. This rule meets the applicable
standards of Executive Order 12988.
Paperwork Reduction Act. This rule
does not involve any collection of
information for purposes of the
Paperwork Reduction Act, 44 U.S.C.
3501 et seq.

[Docket No. 140218151–5171–02]

RIN 0648–BD98

Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish of the Gulf of Alaska; Groundfish of the Bering Sea and Aleutian Islands Off Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues regulations to implement Amendment 100 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAI FMP) and Amendment 91 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (GOA FMP). This final rule adds regulations to improve reporting of grenadiers, limit retention of grenadiers, and prevent direct fishing for grenadiers by federally permitted groundfish fishermen. This final rule is necessary to limit and monitor the incidental catch of grenadiers in the groundfish fisheries. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act, the FMPs, and other applicable law.

DATES: Effective April 6, 2015.

Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in this rule may be submitted by mail to NMFS, Alaska Region, P.O. Box 21668, Juneau, AK 99802–1668. Attn: Ellen Sebastian, Records Officer; in person at NMFS, Alaska Region, 709 West 9th Street, Room 420A, Juneau, AK; by email to OIRA Submission@omb.eop.gov; or fax to (202) 395–5806.

FOR FURTHER INFORMATION CONTACT: Gretchen Harrington, 907–586–7228.

SUPPLEMENTARY INFORMATION: This final rule implements Amendment 100 to the BSAI FMP and Amendment 91 to the GOA FMP, collectively Amendments 100/91. NMFS published a notice of availability for Amendments 100/91 on May 5, 2014 (79 FR 25558). The comment period on Amendments 100/91 ended on July 7, 2014. NMFS published a proposed rule to implement Amendments 100/91 on May 14, 2014 (79 FR 27557). The comment period on the proposed rule ended on June 13, 2014. NMFS approved Amendments 100/91 on August 4, 2014. Additional detail on this action is provided in the notice of availability for Amendment 100/91 (79 FR 25558, May 5, 2014) and the proposed rule (79 FR 27557, May 14, 2014). NMFS received three comment letters on Amendments 100/91 and the proposed rule.

NMFS manages groundfish fisheries in the exclusive economic zone off Alaska under the BSAI FMP and GOA FMP. The North Pacific Fishery Management Council (Council) prepared the FMPs under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801, et seq. Regulations governing U.S. fisheries and implementing the FMPs appear at 50 CFR parts 600 and 679.

Background
The groundfish fisheries in the BSAI and GOA incidentally catch grenadiers (family Macrouridae) while harvesting other groundfish species. Grenadiers caught off Alaska are comprised of three species: Giant grenadiers (Albatrossia pectoralis), Pacific grenadiers (Coryphaenoides acrolepis), and popeye grenadiers (Coryphaenoides cinereus). More than 90 percent of all grenadiers incidentally caught or obtained in surveys are giant grenadiers. Pacific grenadiers and popeye grenadiers typically occur at depths greater than most commercial fisheries or surveys and are rarely encountered (see Section 3.2 of the Analysis for additional detail).

For many years, the Council has considered how best to classify grenadiers in the FMPs. As explained in Section 1.2 of the Analysis (see ADDRESSES), from 1980 to 2010, grenadiers were included in the FMPs in the nonspecified species category. Nonspecified species were defined as a residual category of species and species groups which had no current or foreseeable economic value or ecological importance, which were taken in the groundfish fishery as incidental catch and were in no apparent danger of depletion, and for which virtually no data existed that would allow population assessments. In 2010, the Council recommended and NMFS removed the nonspecified species category from the FMPs when the FMPs were revised to meet the requirements of the Magnuson-Stevens Act as amended by the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2007 (Pub. L. 109–479). The amended Magnuson-Stevens Act required NMFS and the Council to establish annual catch limits (ACLs) and accountability measures (AMs) for fisheries in the FMP. The Council recommended and NMFS implemented Amendment 96 to the BSAI FMP and Amendment 87 to the GOA FMP to meet these requirements (Amendments 96/87, 75 FR 61639, October 6, 2010). The nonspecified species, including grenadiers, were removed from the FMPs because these species were too poorly understood to set ACLs and AMs or to develop a management regime.

Amendments 96/87 also amended the FMPs to organize the species remaining in the FMPs according to the National Standard 1 guidelines (§ 600.310). In the National Standard 1 guidelines, NMFS recommends two categories for species in an FMP: “Stocks in the fishery” and “ecosystem component (EC) species.” “Stocks in the fishery” are defined in the National Standard 1 guidelines (§ 600.310(d)(2)). “Stocks in the fishery” include (1) stocks that are targeted, and retained for sale or personal use; (2) stocks that are not directly targeted but are taken incidentally in other directed fisheries, and are retained for sale or personal use; and (3) stocks not targeted or retained but are taken as incidental
