Tetrahydrofurfuryl Alcohol From the People's Republic of China: Final Results of the Second Expedited Sunset Review of the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this sunset review, the Department of Commerce ("Department") finds that revocation of the antidumping duty order on tetrahydrofurfuryl alcohol ("THFA") from the People's Republic of China ("PRC") would be likely to lead to

continuation or recurrence of dumping. The magnitude of the dumping margins likely to prevail is indicated in the "Final Results of the Sunset Review" section of this notice.

DATES: *Effective Date:* March 12, 2015.

FOR FURTHER INFORMATION CONTACT: Paul Stolz; AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: 202–482–4474.

SUPPLEMENTARY INFORMATION:

Background

On November 3, 2014, the Department initiated a sunset review of the antidumping duty order on THFA from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended ("Act").¹ On November 6, 2014, Penn A Kem LLC ("PAK"), the petitioner in the THFA investigation, timely notified the Department that it intended to participate in the sunset review claiming domestic interested party status under 19 CFR 351.102(b)(29)(v) and section 771(9)(C) of the Act, as a domestic producer of THFA.² The Department then received a complete substantive response filed by PAK on December 2, 2014, within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).³ The Department did not receive any responses from any respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), we conducted an expedited (120-day) sunset review of the Order. As a result of this sunset review, the Department finds that revocation of the Order would likely lead to continuation or recurrence of dumping, at the levels indicated in the "Final Results of the Sunset Review" section of this notice, *infra*.

Scope of the Order

The product covered by this order is THFA (C5H10O2). THFA, a primary

alcohol, is a clear, water white to pale yellow liquid. THFA is a member of the heterocyclic compounds known as furans and is miscible with water and soluble in many common organic solvents. THFA is currently classifiable in the Harmonized Tariff Schedules of the United States (“HTSUS”) under subheading 2932.13.00.00. Although the HTSUS subheadings are provided for convenience and for customs purposes, the Department’s written description of the merchandise subject to the order is dispositive.

Analysis of Comments Received

A complete discussion of all issues raised in this sunset review is provided in the accompanying Issues and Decision Memorandum, which is hereby adopted by this notice.⁴ The issues discussed in the Issues and Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins of dumping likely to prevail if the order were revoked. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (“ACCESS”).⁵ ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Central Records Unit, Room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed at <http://enforcement.trade.gov/frn/>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of the Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, the Department determines that revocation of the *Order* would be likely to lead to continuation or recurrence of dumping

at weighted-average dumping margins up to 136.86 percent.

Notification Regarding Administrative Protective Orders

This notice also serves as the only reminder to parties subject to administrative protective orders (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act and 19 CFR 351.218.

United States Patent and Trademark Office

[Docket No. PTO–P–2015–0009]

Grant of Interim Extension of the Term of U.S. Patent No. 5,610,059; Monovalent *Lawsonia Intracellularis* Bacterin Vaccine

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Notice of Interim Patent Term Extension.

SUMMARY: The United States Patent and Trademark Office has issued an order granting interim extension under 35 U.S.C. 156(d)(5) for a one-year interim extension of the term of U.S. Patent No. 5,610,059.

FOR FURTHER INFORMATION CONTACT:

Mary C. Till by telephone at (571) 272–7755; by mail marked to her attention and addressed to the Commissioner for Patents, Mail Stop Hatch-Waxman PTE, P.O. Box 1450, Alexandria, VA 22313–1450; by fax marked to her attention at (571) 273–7755; or by email to Mary.Till@uspto.gov.

SUPPLEMENTARY INFORMATION: Section 156 of Title 35, United States Code, generally provides that the term of a patent may be extended for a period of up to five years if the patent claims a product, or a method of making or using

a product, that has been subject to certain defined regulatory review, and that the patent may be extended for interim periods of up to one year if the regulatory review is anticipated to extend beyond the expiration date of the patent.

On January 15, 2015, the Arizona Board of Regents, on behalf of the University of Arizona, the patent owner of record, timely filed a second application under 35 U.S.C. 156(d)(5) for an interim extension of the term of U.S. Patent No. 5,610,059. The patent claims the veterinary biological product monovalent *Lawsonia intracellularis* bacterin vaccine. The original application indicates that Intervet, a licensee of the patent owner, submitted two Product License Applications (PLA) to the United States Department of Agriculture (USDA). In a letter dated April 12, 2011, USDA acknowledged receipt of the PLA for a multi-valent vaccine and assigned the vaccine product code 49L5.RO. In a letter dated December 22, 2011, USDA acknowledged receipt of a PLA for a monovalent vaccine of *Lawsonia intracellularis* bacterin and assigned the vaccine product code 2799.20.

Review of the application indicates that, except for permission to market or use the product commercially, the subject patent would be eligible for an extension of the patent term under 35 U.S.C. 156, and that the patent should be extended for one year as required by 35 U.S.C. 156(d)(5)(B). Because the regulatory review period will continue beyond the extended expiration date of the patent, March 11, 2015, interim extension of the patent term under 35 U.S.C. 156(d)(5) is appropriate.

An interim extension under 35 U.S.C. 156(d)(5) of the term of U.S. Patent No. 5,610,059 is granted for a period of one year from the extended expiration date of the patent.

Dated: March 2, 2015.

Andrew Hirshfeld,

Deputy Commissioner for Patent Examination Policy, United States Patent and Trademark Office.
