

dam to provide instream flow releases to the bypassed reach; (7) a 5,688-foot-long steel penstock varying in diameter from 24 to 16 inches and consisting of buried sections or above-ground sections supported on timber crib trestles; (8) a powerhouse containing one impulse turbine-generator unit with an installed capacity of 1,100 kilowatts; (9) a 40-foot-long concrete-lined tailrace which conveys powerhouse flows to a 1,000-foot-long unlined and braided tailrace channel discharging into the West Fork Wallowa River (West Fork); (10) a 20-foot-long, 7.2-kilovolt transmission line which connects to the Wallowa Falls substation; and (11) appurtenant facilities.

The project currently generates an average of 7 million kilowatt-hours annually. The dams and existing project facilities are owned by PacifiCorp. The project is operated run-of-river. Up to 1 cubic feet per second (cfs) of flow is diverted from Royal Purple Creek and discharged into the impoundment. Up to 16 cfs of water (*i.e.*, 15 cfs maximum from East Fork and 1 cfs from Royal Purple Creek) is diverted through the intake structure at the East Fork dam into the steel penstock and conveyed to the powerhouse where it flows through the single impulse turbine and discharges through the tailrace into the West Fork. The project's current license requires a minimum instream flow release of 0.5 cfs or inflow, whichever is less, in the bypassed reach. The current license also mandates that PacifiCorp restrict sediment flushing from the impoundment to the period from May 1 to August 30 to protect kokanee salmon.

PacifiCorp proposes to modify the existing facilities by: (1) Extending the existing 8-inch Royal Purple Creek diversion pipe approximately 20 feet to discharge directly into the East Fork upstream of the project impoundment to reduce erosion, (2) realigning the existing tailrace channel and constructing a permanent fish passage barrier and concrete outfall at its confluence with the West Fork to prevent fish from entering the tailrace channel, (3) improving existing and constructing new recreational facilities to enhance recreation in the project area, and (4) installing and operating flow monitoring equipment at the historic U.S. Geological Survey gage in the East Fork bypassed reach to monitor compliance with minimum flows. PacifiCorp also proposes to: Increase the minimum flow release in the bypassed reach to 4 cfs from November through April and 5 cfs from May through October, and modify the sediment management program to only enable

sediment flushing during the high-flow month of June.

PacifiCorp proposes to modify the project boundary by adding about 8.4 acres to encompass a total of 26.4 acres of land necessary for project purposes and for operation and maintenance.

[FE Docket No. 14-173-LNG]

**Downeast LNG, Inc.; Application for Long-Term Authorization To Export Liquefied Natural Gas Produced From Domestic Natural Gas Resources to Non-Free Trade Agreement Countries for a 20-Year Period**

**AGENCY:** Office of Fossil Energy, DOE.

**ACTION:** Notice of application.

**SUMMARY:** The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on October 15, 2014, by Downeast LNG, Inc. (DELNG), requesting long-term, multi-contract authorization to export domestically produced natural gas in a volume equivalent to approximately 168 billion cubic feet (Bcf) per year, or approximately 0.46 Bcf per day. DELNG seeks authorization to export the natural gas as liquefied natural gas (LNG) by vessel from its proposed LNG terminal to be located in Robbinston, Maine, referred to as the Downeast LNG Import-Export Project.

DELNG requests authorization to export LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (non-FTA countries). DELNG requests this non-FTA export authorization for a 20-year term to commence on the earlier of the date of first export or eight years from the date the authorization is

granted. DELNG requests this authorization both on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in DELNG's Application, posted on the DOE/FE Web site at: [http://energy.gov/sites/prod/files/2014/10/f18/14\\_173\\_lng\\_nfta\\_talbert.pdf](http://energy.gov/sites/prod/files/2014/10/f18/14_173_lng_nfta_talbert.pdf). Protests, motions to intervene, notices of intervention, and written comments are invited.

**DATES:** Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, May 15, 2015.

**SUPPLEMENTARY INFORMATION:**

**DOE/FE Evaluation**

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic

natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade, and international considerations; and whether the authorization is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);<sup>1</sup> and
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014).<sup>2</sup>

Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

**Public Comment Procedures**

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Due to the complexity of the issues raised by the Applicant, interested parties will be provided 60 days from the date of publication of this Notice in which to submit their comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although

protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.
