The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain variable valve actuation devices and automobiles containing the same. The complaint names as respondents FCA US LLC of Auburn Hills, MI; FCA México, S.A. de C.V. of México D.F.; Sata-Societá Automobilistica Technologie Avanzate S.p.A. of Italy; Fiat Automobili Srbija Doo of Serbia; and Fiat Chrysler Automobiles N.V. of United Kingdom. Proposed respondents, other interested parties, and members of the public are invited to file comments, not to exceed five (5) pages in length, inclusive of attachments, on any public interest issues raised by the complaint or section 210.8(b) filing. In particular, the Commission is interested in comments that:

(i) explain how the articles potentially subject to the requested remedial orders are used in the United States;

(ii) identify any public health, safety, or welfare concerns in the United States relating to the requested remedial orders;

(iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the

subject articles if they were to be excluded;

(iv) indicate whether complainant, complainant's licensees, and/or third party suppliers have the capacity to replace the volume of articles potentially subject to the requested exclusion order and/or a cease and desist order within a commercially reasonable time; and

(v) explain how the requested remedial orders would impact United States consumers.

Written submissions must be filed no later than by close of business, eight calendar days after the date of publication of this notice in the **Federal Register**. There will be further opportunities for comment on the public interest after the issuance of any final initial determination in this investigation.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above and submit 8 true paper copies to the Office of the Secretary by noon the next day pursuant to section 210.4(f) of the Commission's Rules of Practice and Procedure (19 CFR 210.4(f)). Documents for which confidential treatment by the Commission is properly sought will be treated accordingly. All nonconfidential written submissions will be available for public inspection at the Office of the Secretary and on EDIS.⁵

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and of sections 201.10 and 210.8(c) of the Commission's Rules of Practice and Procedure (19 CFR 201.10, 210.8(c)).

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Resource Conservation and Recovery Act

On March 9, 2015, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of Puerto Rico in the lawsuit *United States v. Total Petroleum Puerto Rico Corp.*, Civil Action No. 3:15-cv-01201.

This settlement resolves the United States' allegations that Defendant Total Petroleum Puerto Rico Corp. ("Total Puerto Rico") violated the Resource Conservation and Recovery ("Act") and the Puerto Rico Underground Storage Tank Control Regulations ("PRUSTR") at thirty-one facilities in Puerto Rico, and the Act and its implementing regulations set forth at 40 CFR part 280 at four facilities in the U.S. Virgin Islands, all of which contain underground storage tanks ("USTs") owned by Total Puerto Rico. The United States' claims against Total Puerto Rico stem from the company's alleged failure to report and investigate suspected releases; to monitor for releases; to provide adequate overfill prevention and corrosion protection equipment; to secure dispensers and lines when facilities are temporarily closed; to secure monitoring wells; and to maintain records of release detection monitoring.

The proposed Consent Decree resolves these allegations by requiring that Total Puerto Rico pay a \$426,000 penalty, implement injunctive relief valued at approximately \$1,000,000, and undertake a Supplemental Environmental Project ("SEP") valued at approximately \$600,000. As part of the injunctive relief, Total Puerto Rico will install, or upgrade to, fully automated electronic release detection monitoring equipment at 137 facilities with Total-owned USTs in active operation. This obligation to install automated release detection monitoring equipment, which provide the best available method of release detection, will extend to any additional facilities with actively operating USTs acquired by Total Puerto Rico after the date of lodging of the Consent Decree. As part of the SEP, Total Puerto Rico will install a centralized monitoring system (CMS) for at least 125 of its facilities with actively

operating USTs. The CMS technology will enable Total Puerto Rico to rapidly respond to potential releases because it transmits to and collects at one central location the information gathered from each facility equipped with electronic release detection monitoring equipment.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Total Petroleum Puerto Rico Corp.*, D.O.J. Ref. No. 90–7–1–10435. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
