BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15–102–000]

Rockies Express Pipeline LLC: Notice of Application

Take notice that on March 2, 2015, Rockies Express Pipeline LLC, (Rockies Express) filed an application with the Federal Energy Regulatory Commission pursuant to section 7(c) of the Natural Gas Act (NGA) requesting a certificate of public convenience and necessity authorizing the operation as section 7(c) jurisdictional facilities certain pipeline assets, located in Noble and Monroe Counties, Ohio, that heretofore have been constructed and operated solely for the purpose of providing transportation services permitted under section 311 of the Natural Gas Policy Act, all as more completely described in the Application. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659.

Any questions regarding the application should be directed to David Haag, Vice President, Regulatory, Rockies Express Pipeline LLC, 370 Van Gordon Street, Lakewood, Colorado 80228–8304, phone (303) 763–3258.

Specifically, the facilities for which Rockies Express is requesting NGA section 7(c) authority were the subject of two advance notification filings made by Rockies Express on August 26, 2013 in Docket No. CP13–539–000 (Seneca Lateral Project) and on April 18, 2014 in Docket No. CP14–194–000 (Seneca Compressor Expansion Project). The facilities consist of: (1) Approximately 14.7 miles of 24-inch lateral pipeline extending from an interconnect with MarkWest Energy Partners, L.P. Seneca Processing Plant to Rockies Express' mainline; (2) measurement facilities; and (3) 15,980 horsepower of booster compression. Rockies Express proposes incremental firm and interruptible transportation recourse rates based on the cost of the facilities of \$135,950,429.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public

record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be
