1. The Commission is proposing to amend Rule 508 of the Commission's Rules of Practice and Procedure 1 to eliminate the requirement that participants in Commission trial-type evidentiary hearings must provide paper copies of all exhibits introduced as evidence. The Commission proposes to amend section 385.508 of the Commission's regulations by removing paragraph (a)(2) and redesignating paragraph (a)(3) as paragraph (a)(2). While still retaining the option to provide exhibits in paper form, the proposed rule will facilitate a shift toward electronic hearing procedures which should improve the efficiency and administrative convenience of the Commission hearing process, reduce the burden and expense associated with paper exhibits, and facilitate the compilation and transmittal of the hearing record to the Commission in electronic format.

I. Background

2. The Federal government has set a goal to substitute electronic means of communication and information storage for paper. For example, the Government Paperwork Elimination Act directed

agencies to provide for the optional use and acceptance of electronic documents and signatures, and electronic record-keeping, where practical.2 Similarly, the Office of Management and Budget (OMB) Circular A-130 required agencies to use electronic information collection techniques, where such means will reduce the burden on the public, increase efficiency, reduce costs, and help provide better service.

3. On September 21, 2000, the Commission issued Order No. 619, which implemented the use of the Internet for submission of certain documents to the Commission for filing.3 The eFiling system plays an important role in the Commission's efforts to comply with the Government Paperwork Elimination Act's requirement that agencies provide the option to submit information electronically, when practicable, as a substitute for paper.4 Filing via the Internet is optional for eligible documents.5 Since issuing Order No. 619, the Commission has greatly

expanded its ability to accept electronically filed material, including interventions, protests, rehearings, complaints, and applications for certificates and licenses.6 In 2008, the Commission further implemented a system for electronic tariff filing.7 Consistent with these prior efforts to provide electronic filing options, the Commission is proposing to eliminate the requirement that all exhibits introduced at Commission hearings must be provided in paper form.

II. Discussion

4. Section 385.508 of the Commission's regulations currently requires that "[a]ny participant who seeks to have an exhibit admitted into evidence must provide one copy of the

exhibit to the presiding officer and two copies to the reporter, not later than the time that the exhibit is marked for identification.”⁸ Under current practice, the court reporter assigns Exhibit Numbers to the paper copies and provides the paper copies to the Commission’s Docket Branch to be scanned into the Commission’s eLibrary system. Copies of all exhibits and motions that are not pre-filed must also be provided to all participants at the hearing.⁹

5. The administrative law judges recently adopted a revised practice for handling exhibits and creating the Exhibit List that removes the need for providing paper copies at the hearing. Under this policy, within seven days of the end of the hearing, participants must file (via eFiling) a “Joint Exhibit List” and each sponsoring party must file (via eFiling) the “Official Copies” of each exhibit that was offered into evidence and admitted or rejected.¹⁰ Thus, it is no longer necessary or efficient to require all participants to provide the presiding judge and court reporter with paper copies of each exhibit introduced at the hearing.

6. The Commission therefore proposes to eliminate the requirement that participants provide one paper copy of each exhibit to the presiding officer and two paper copies to the court reporter.¹¹ The proposed rule represents a continuation of the Commission’s efforts to implement the goal of substituting electronic means of communication and information storage for paper means. The proposed rule should save resources because participants will no longer be required to make multiple paper copies of all exhibits that they intend to submit into evidence. The proposed rule also will facilitate the presiding judge’s compilation and transmittal of the hearing record to the Commission in electronic format.

All electronically-filed exhibits must comply with eFiling file format requirements. See *Filing Via the Internet*, Order No. 703, FERC Stats. & Regs. ¶ 31,259 at P 33.

For exhibits that have not previously been provided to the participants, such exhibits must still be provided to the participants at the hearing. See 18 CFR 385.510(d).

¹¹ Most participants file pre-filed testimony and exhibits electronically via the eFiling system before the hearing. The presiding judge in each case will continue to determine how participants exchange exhibits brought to the hearing. See 18 CFR 385.504(b)(1), (4).

III. Information Collection Statement

7. Certain collections of information are subject to review by the Office of Management and Budget (OMB) under section 3507(d) of the Paperwork Reduction Act of 1995 (PRA).¹² OMB’s regulations require OMB to approve certain information collection requirements imposed by agency rule.¹³ This Proposed Rule does not contain any information collection requirements, as defined under section 3502(3) of the PRA, and compliance with the OMB regulations is thus not required.

IV. Environmental Analysis

8. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.¹⁴ This action has been categorically excluded under section 380.4(a)(2)(ii), addressing procedural rules.¹⁵

V. Regulatory Flexibility Act

9. The Regulatory Flexibility Act of 1980 (RFA)¹⁶ generally requires a description and analysis of proposed rules that will have significant economic impact on a substantial number of small entities. This Notice of Proposed Rulemaking (NOPR) concerns procedural matters and, if adopted, is expected to reduce the burden and expense associated with paper exhibits and improve the efficiency and administrative convenience of the Commission hearing process.

10. Accordingly, the Commission certifies that this NOPR, if adopted, will not have a significant economic impact on a substantial number of small entities. An analysis under the RFA is not required.

VI. Comment Procedures

11. The Commission invites interested persons to submit comments on the matters and issues proposed in this notice to be adopted, including any related matters or alternative proposals that commenters may wish to discuss. Comments are due May 26, 2015. Comments must refer to Docket No. RM15–5–000, and must include the commenter’s name, the organization they represent, if applicable, and their address in their comments.
