### A. Purpose

Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 1517) (Fly America Act) requires that all Federal agencies and Government contractors and subcontractors at FAR 47.402, use U.S.-flag air carriers for U.S. Government-financed international air transportation of personnel (and their personal effects) or property, to the extent that service by those carriers is available. It requires the Comptroller General of the United States, in the absence of satisfactory proof of the necessity for foreign-flag air transportation, to disallow expenditures from funds, appropriated or otherwise established for the account of the United States, for international air transportation secured aboard a foreignflag air carrier if a U.S.-flag air carrier is available to provide such services. In the event that the contractor selects a carrier other than a U.S.-flag air carrier for international air transportation during performance of the contract, the contractor shall include per FAR clause 52.247–64 a statement on vouchers involving such transportation. The contracting officer uses the information furnished in the statement to determine whether adequate justification exists for the contractor's use of other than a U.S.flag air carrier.
