**DEPARTMENT OF HEALTH AND
HUMAN SERVICES**

National Institutes of Health

**Submission for OMB Review; 30-Day
Comment Request; Generic Clearance
for the Collection of Qualitative
Feedback on Agency Service Delivery
(NINR)**

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on December 30, 2014 page 43609 and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institute of Nursing Research, National Institutes of Health, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, *OIRA_submission@omb.eop.gov* or by fax to 202-395-6974, Attention: NIH Desk Officer.

Comment Due Date: Comments regarding this information collection are best assured of having their full effect if received within 30-days of the date of this publication.

FOR FURTHER INFORMATION CONTACT: To obtain a copy of the data collection plans and instruments or request more information on the proposed project contact: Dr. Rebecca Hawes, Division of Science Policy and Public Liaison, NINR, NIH, Democracy One, 6701 Democracy Blvd., Suite 710, Bethesda, MD 20892, by phone at (301) 594-0791 or email your request, including your address to: *hawesr@mail.nih.gov*. Formal requests for additional plans and instruments must be requested in writing.

Proposed Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery, 0925-0653, Extension, National Institute of Nursing Research, National Institutes of Health (NIH).

Need and Use of Information Collection: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into

customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholder. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 1,025.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Type of respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hours

Coast Guard

[Docket No. USCG-2014-1074]

Imposition of Conditions of Entry for Certain Vessels Arriving to the United States From Yemen—Additional Ports

AGENCY: Coast Guard, DHS.

ACTION: Notice.

SUMMARY: Conditions of entry are imposed on vessels arriving in U.S. waters from foreign ports that do not maintain effective anti-terrorism measures. In 2012, the Coast Guard announced the imposition of conditions of entry on vessels arriving from all ports in Yemen, except for the Ash Shihir Terminal, the Port of Hodeidah, and the Balhaf LNG Terminal. Today, the Coast Guard announces that conditions of entry will be imposed on vessels arriving from the Ash Shihir Terminal and the Port of Hodeidah. The 2012 exception remains in place for vessels arriving from the Balhaf LNG Terminal.

DATES: The policy announced in this notice will become effective April 8, 2015.
