BILLING CODE 6450–01–P
Federal Power Act to Issue Securities and Request for Shortened Comment Period of NorthWestern Corporation. Filed Date: 3/19/15.

American LNG Marketing LLC: Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy, DOE.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on December 31, 2014, by American LNG Marketing LLC (American LNG), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to approximately 3.02 billion cubic feet per year (Bcf/yr) of natural gas (0.008 Bcf/day). American LNG seeks to export the LNG from a proposed natural gas liquefaction project under construction in Florida, on the northern portion of the Hialeah Railyard (Hialeah Facility). According to American LNG, the LNG typically will be delivered into approved ISO IM07/TVAC–ASME LNG (ISO) containers (truck or rail mounted), then loaded onto container ships or roll-on/roll-off ocean-going carriers for export at the nearby Port of Miami or other ports in Florida capable of handling ISO containers without modification (including Port Everglades, Port Canaveral, Port of Palm Beach, and Port of Jacksonville). American LNG requests authorization to export this LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (non-FTA countries). American LNG requests the authorization for a 20-year term to commence on the earlier of the date of first export or seven years from the date the authorization is granted. American LNG seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in American LNG’s Application, posted on the DOE/FE Web site at: http://energy.gov/eje/downloads/american-lng-marketing-llc-fe-dkt-no-14-209-lng. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, May 26, 2015.

purchase some or all of the output of the Hialeah Facility. American LNG also requests authorization to export LNG to any nation that currently has, or in the future may enter into, a FTA requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (FTA countries). DOE/FE will review the request for a FTA export authorization separately pursuant to NGA § 3(c), 15 U.S.C. 717d(c).
