The government intends to accomplish the following as a result of this data collection: (a) Identify high priority opportunities for public health and healthcare collaboration, (b) inform a public health-healthcare strategic agenda, (c) improve the use of clinical preventive services, and (d) improve capacity of healthcare systems to incorporate public health practices and principles. At the conclusion of this study, a formal report, two issue briefs, and potentially a manuscript for publication will be produced.

There are no costs to respondents other than their time. The total estimated annualized burden hours are 234.
