evaluated the crash and violation data for the 5 drivers, some of whom
currently drive a CMV in intrastate commerce. The CDLIS and MCMIS were
searched for crash and violation data on the 5 applicants. For non-CDL holders,
the Agency reviewed the driving records from the State licensing agency.

These exemptions are contingent on
the driver maintaining a stable
treatment regimen and remaining
seizure-free during the 2-year exemption
period. The exempted drivers must submit annual reports from their
treating physicians attesting to the
stability of treatment and that the driver
has remained seizure-free. The driver
must undergo an annual medical
examination by a medical examiner, as
defined by 49 CFR 390.5, following the
FCMSA’s regulations for the physical
qualifications for CMV drivers.

FMCSA published a notice of receipt
of application and requested public
comment during a 30-day public
comment period in a Federal Register
notice for each of the applicants. A short
summary of the applicants’
qualifications and a discussion of the
comments received, if any, follows this
section. For applicants who were denied
an exemption, a notice will be published at a later date.

D. Comments

Docket # FMCSA–2014–0214

On September 18, 2014, FMCSA published a notice of receipt of
exemption applications and requested public comment on six individuals (79
FR 56098; Docket number FMCSA–
2014–22138). The comment period ended on October 20, 2014. No
commenters responded to this Federal Register
notice. Of the six applicants,
one was denied. The Agency has
determined that the following five
applicants should be granted an
exemption.

Michael G. Alimacco

Mr. Alimacco is a 58 year-old driver
in Pennsylvania. He has a history of
seizures and has remained seizure-free
since 1974. He takes anti-seizure
medication with the dosage and
frequency remaining the same since
2002. He has never taken
anti-seizure medication. If granted the exemption, he
would like to drive a CMV. His
physician states that he is supportive of
Mr. Alimacco receiving an exemption.

Michael L. Grant

Mr. Grant is a 52 year-old driver
in South Carolina. He has a history of
seizures and has remained seizure free
since 1995. He takes anti-seizure
medication with the dosage and
physician states that he is supportive of
Mr. Grant receiving an exemption.

Jeffrey M. Phillips

Mr. Phillips is a 45 year-old driver
in South Carolina. He has a history of
epilepsy and has remained seizure free
since 1989. He takes anti-seizure
medication with the dosage and
frequency remaining the same since
1994. If granted the exemption, he
would like to drive a CMV. His
physician states he is supportive of
Mr. Phillips receiving an exemption.

William L. Swann

Mr. Swann is a 76 year-old driver
in Maryland. He has a history of a seizure
disorder and has remained seizure free
since 2002. He takes anti-seizure
medication with the dosage and
frequency remaining the same since that
time. If granted the exemption, he
would like to drive a CMV. His
physician states that he is supportive of
Mr. Swann receiving an exemption.

James M. Zihlke

Mr. Zihlke is a 31 year-old driver
in Iowa. He has a history of a single seizure
in December 2010. He has never taken
anti-seizure medication. If granted the exemption, he
would like to drive a CMV. His
physician states that he is supportive of
Mr. Zihlke receiving an exemption.

E. Basis for Exemption

Under 49 U.S.C. 31136(e) and
31315(b), FMCSA may grant an
exemption from the epilepsy/seizure
standard in 49 CFR 391.41(b)(8) if the
exemption is likely to achieve an
equivalent or greater level of safety than
would be achieved without the
exemption. Without the exemption,
applicants will continue to be restricted
to intrastate driving. With the
exemption, applicants can drive in
interstate commerce. Thus, the Agency’s
analysis focuses on whether an equal or
greater level of safety is likely to be
achieved by permitting each of these
drivers to drive in interstate commerce
as opposed to restricting the driver to
driving in intrastate commerce.

Conclusion

The Agency is granting exemptions from the epilepsy standard, 49 CFR
391.41(b)(8), to 5 individuals based on
a thorough evaluation of each driver’s
safety experience, and medical
condition. Safety analysis of
information relating to these 5
applicants meets the burden of showing
that granting the exemptions would
achieve a level of safety that is
equivalent to or greater than the level
that would be achieved without the
exemption. By granting the exemptions,
the interstate CMV industry will gain 5
highly trained and experienced drivers.
In accordance with 49 U.S.C.
31315(b)(1), each exemption will be
valid for 2 years, with annual
recertification required unless revoked
earlier by FMCSA. The exemption will
be revoked if the following occurs: (1)
The person fails to comply with the
terms and conditions of the exemption;
(2) the exemption has resulted in a
lower level of safety than was
maintained prior to being granted; or (3)
continuation of the exemption would
not be consistent with the goals and

FMCSA exempts the following 5
drivers for a period of 2 years with
annual medical certification required:
Michael Alimacco (PA); Michael Grant
(SC); Jeffrey Phillips (SC); Michael
Swann (MD); and James Zihlke (IA)
from the prohibition of CMV operations
by persons with a clinical diagnosis of
epilepsy or seizures. If the exemption is
still in effect at the end of the 2-year
period, the person may apply to FMCSA
for a renewal under procedures in effect
at that time.

Issued on: March 20, 2015.

BILLING CODE 4910–EX–P
III. Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 3 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (78 FR 14405; 78 FR 24296). Each of these 3 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the requirement specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption requirements.

These factors provide an adequate basis for predicting each driver’s ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

IV. Public Participation and Request for Comments

FMCSA encourages you to participate by submitting comments and related materials.

Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA–2013–0023), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so the Agency can contact you if it has questions regarding your submission.

To submit your comment online, go to http://www.regulations.gov and put the docket number, “FMCSA–2013–0023” in the “Keyword” box, and click “Search.” When the new screen appears, click on “Comment Now!” button and type your comment into the text box in the following screen. Choose whether you are submitting your...
Federal Register / Vol. 80, No. 59 / Friday, March 27, 2015 / Notices 16511

comment as an individual or on behalf of a third party and then submit. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period and may change this notice based on your comments.

Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble as being available in the docket, go to http://www.regulations.gov and in the search box insert the docket number, “FMCSA–2013–0023” in the “Keyword” box and click “Search.” Next, click “Open Docket Folder” button, choose the document listed to review. If you do not have access to the Internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m and 5 p.m., E.T., Monday through Friday, except Federal holidays.

Issued on: March 19, 2015.

Larry W. Minor,
Associate Administrator for Policy.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration
[Docket No. FMCSA–2012–0032]

Commercial Driver’s License Standards: Application for Exemption; Daimler Trucks North America (Daimler)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition; grant of application for exemption.

SUMMARY: FMCSA announces its decision to grant Daimler Trucks North America’s (Daimler) application for an exemption to allow a Daimler employee to drive commercial motor vehicles (CMV) in the United States without having a commercial driver’s license (CDL) issued by one of the States. The driver, Martin Zeilinger, will test-drive Daimler vehicles on U.S. roads to better understand product requirements for these vehicles in “real world” environments and verify results. He holds a valid German CDL but lacks the U.S. residency necessary to obtain a CDL issued by one of the States. FMCSA believes that the process for obtaining a German CDL is comparable to or as effective as the U.S. CDL requirements and ensures that this driver will likely achieve a level of safety that is equivalent to or greater than the level of safety that would be obtained in the absence of the exemption.

DATES: This exemption is effective March 27, 2015 and expires March 27, 2017.

SUPPLEMENTARY INFORMATION:

Legal Basis

The Secretary of Transportation (the Secretary) has the authority to grant exemptions from any of the Federal Motor Carrier Safety Regulations (FMCSRrs) issued under chapter 313 or § 31136 of title 49, United States Code, to a person(s) seeking regulatory relief (49 U.S.C. 31136(e), and 31315(b)). Prior to granting an exemption, the Secretary must request public comment and make a determination that the exemption is likely to achieve a level of safety that is equivalent to, or greater than, the level of safety that would be obtained in the absence of the exemption. Exemptions may be granted for a period of up to 2 years and may be renewed.

The FMCSA Administrator has been delegated authority under 49 CFR 1.87(e)(1) and (f) to carry out the functions vested in the Secretary by 49 U.S.C. chapter 313 and subchapters I and III of chapter 311, relating, respectively, to the commercial driver’s license program and to commercial motor vehicle (CMV) programs and safety regulation.

Background

On July 22 and August 29, 2014, FMCSA granted similar exemptions for Daimler test drivers (79 FR 42626, 51641). These individuals each held a valid German CDL but lacked the U.S. residency necessary to obtain a CDL in the United States. FMCSA concluded that the process for obtaining a German CDL is comparable to or as effective as the U.S. CDL requirements and ensures that these drivers will likely achieve a level of safety equivalent to or greater than the level that would be obtained in the absence of the exemption. These two drivers were not involved in any crashes or other safety-related incidents.

Daimler Application for Exemption

Daimler applied for the same CDL exemption for Martin Zeilinger. Notice of the application was published on December 17, 2014 (79 FR 75229). One comment was received in opposition to the application for exemption, but it was not substantive. A copy of the Daimler request is in the docket identified at the beginning of this notice. The exemption allows Martin Zeilinger to operate CMVs to support Daimler field tests to meet future vehicle safety and environmental requirements and to promote the development of technology and advancements in vehicle safety systems and emissions reductions. He will typically drive for no more than 6 hours per day for 2 consecutive days, and 10 percent of the test driving will be on two-lane state highways, while 90 percent will be on interstate highways. The driving will consist of no more than 200 miles per day, for a total of 400 miles during a two-day period on a quarterly basis.

Section 383.21 requires CMV drivers in the United States to have a CDL issued by a State. Mr. Zeilinger is a citizen and resident of Germany. Only residents of a State can apply for a CDL. Without the exemption, Mr. Zeilinger would not be able to test-drive prototype CMVs on U.S. roads. Mr. Zeilinger holds a valid German CDL and is an experienced operator of CMVs. In the application for exemption, Daimler also submitted documentation showing his safe German driving record.

Method To Ensure an Equivalent or Greater Level of Safety

According to Daimler, the requirements for a German-issued CDL ensure that the same level of safety is met or exceeded as if these drivers had a CDL issued by one of the States. Mr. Zeilinger is familiar with the operation of CMVs worldwide and will be accompanied at all times by a driver who holds a U.S.-issued CDL and is familiar with the routes to be traveled. FMCSA has determined that the process for obtaining a CDL in Germany is comparable to that for obtaining a CDL issued by one of the States and adequately assesses the driver’s ability to safely operate CMVs in the United States.

FMCSA Decision

Based upon the merits of this application, including Mr. Zeilinger’s extensive driving experience and safety record, and the fact that he has
