SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the National Longitudinal Survey of Youth 1997 information collection. The National Longitudinal Survey of Youth 1997 (NLSY97) includes respondents born from 1980 through 1984 and lived in the United States when the survey began in 1997. The primary objective of the survey is to study the transition from full-time schooling to the establishment of careers and families. The longitudinal focus of the survey requires information to be collected about the same individuals over many years in order to trace their education, training, work experience, fertility, income, and program participation. Research based on the NLSY97 contributes to the formation of national policy in the areas of education, training, employment programs, and school-to-work transitions. This information collection has been classified as a revision, because there have been a few modifications to the existing NLSY97 questionnaire. The BLS Authorizing Statute authorizes this information collection. *See* 29 U.S.C. 1, 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220–0157. The current approval is scheduled to expire on June 30, 2015; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 8, 2014 (79 FR 72704).

Interested parties are encouraged to send comments to the OMB, Office of

Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0157. The OMB is particularly interested in comments that:

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
