Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2008–0224]

Parts and Accessories Necessary for Safe Operation; Exemption Renewal for Greyhound Lines, Inc.

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemption; request for comments.

SUMMARY: FMCSA renews Greyhound Lines, Inc.’s (Greyhound) exemption which allows the placement of video event recorders at the top of the windshield on its busses, and within the swept area of the windshield wipers. Greyhound may continue to use the video event recorders to increase safety through identification and remediation of risky driving behaviors such as distracted driving and drowsiness; enhanced monitoring of passenger behavior; and enhanced collision review and analysis. The Agency has concluded that granting this exemption renewal will maintain a level of safety that is equivalent to or greater than the level of safety achieved without the exemption. However, the Agency requests comments and information on the exemption, especially from anyone who believes this standard will not be maintained.

DATES: This decision is effective April 2, 2015. Comments must be received on or before May 4, 2015.

SUPPLEMENTARY INFORMATION:

Background

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the Federal Register (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305).
The decision of the Agency must be published in the Federal Register (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption, and the regulatory provision from which the exemption is granted. The notice must also specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

Basis for Renewing Exemption

FMCSA is not aware of any evidence showing that the installation of video event recorders on Greyhound’s buses, in accordance with the conditions of the original and subsequent exemptions, has resulted in any degradation in safety. FMCSA continues to believe that the potential safety gains from the use of video event recorders to improve driver behavior will enhance the overall level of safety to the motoring public.

The exemption is renewed subject to the requirements that video event recorders installed in Greyhound’s buses be mounted not more than 50 mm (2 inches) below the upper edge of the area swept by the windshield wipers, and located outside the driver’s sight lines to the road and highway signs and signals. The exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) Greyhound fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

The Agency believes that extending the exemption for another two years will likely achieve a level of safety that is equivalent to, or greater than, the level of safety achieved without the exemption because (1) the video event recorders will not obstruct drivers’ views of the roadway, highway signs and surrounding traffic due to the fact that the panoramic windshields installed on Greyhound’s buses encompass a large percentage of the front of buses and extend well above the driver’s sight lines; (2) larger windshield wipers installed on Greyhound’s buses increase the swept area well beyond that which is recommended by SAE International’s guidelines for commercial vehicles; and (3) placement of video event recorders just below the larger swept area of the wipers will be well outside of the driver’s useable sight lines. In addition, the Agency believes that the use of video event recorders by fleets to deter unsafe driving behavior is likely to improve the overall level of safety to the motoring public.

Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

Request for Comments

FMCSA requests comments from parties with data concerning the safety record of buses operated by Greyhound and equipped with video event recorders by May 4, 2015. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the Greyhound exemption. Issued on: March 26, 2015.

T. F. Scott Darling, III, Chief Counsel.
