

II. Background

The National Appliance Energy Conservation Act of 1987 (NAECA; Pub. L. 100–12) amended EPCA to, among other things, establish energy conservation standards for residential water heaters. (42 U.S.C. 6295(e)(1); 42 U.S.C. 6295(e)(4)) DOE initially amended the statutorily prescribed standards for water heaters in a final rule published on January 17, 2001. 66 FR 4474 (Jan. 17, 2001). Subsequently, DOE amended the residential water heater standards a second time in another final rule published on April 16, 2010 (hereinafter known as the April 2010 final rule). 73 FR 20112 (April 16, 2010).

The energy conservation standards for residential water heaters adopted in the April 2010 final rule will apply to products manufactured on or after April 16, 2015. 75 FR 20234 (April 16, 2010). The amended energy conservation standards consist of minimum energy factors³ (EF) that vary based on the rated storage volume of the water heater, the type of energy it uses (*i.e.*, gas, oil, or electricity), and whether it is a storage, instantaneous, or tabletop model. 10 CFR 430.32(d) Of particular relevance to this notice, electric water heaters with a rated storage volume above 55 gallons (referred to hereinafter as “large-volume” electric storage water heaters) will be required to have an energy factor of at least 2.057 – (0.00113 × Rated Storage Volume in gallons). *Id.* Such a level is currently achievable only by using heat pump water heater technology and cannot be achieved in electric water heaters that rely solely on electric resistance elements.

Subsequent to the publication of the April 2010 final rule, several stakeholders indicated to DOE their concerns about the interaction of the amended standards in the April 2010 final rule and the use of large-volume electric storage water heaters in utility ETS programs. To gather additional information on the impact of the amended standard established in the April 2010 final rule on ETS programs that use large-volume electric storage water heaters, DOE issued a request for information (RFI) and received numerous additional comments on these topics. 77 FR 35299 (June 13, 2012). After considering comments submitted by interested parties, DOE published a notice of proposed rulemaking (NPR) proposing to establish a waiver process to allow any

manufacturer, utility, or a combination of the two to request a waiver granting an exemption from the amended energy conservation standards established in the April 2010 final rule for certain large-volume electric storage water heaters used in an ETS program. 78 FR 12969 (Feb. 26, 2013). As proposed, each waiver would have allowed manufacturers to produce, for a 1-year period, a limited number of large-volume electric storage water heaters that would not otherwise meet the April 2010 amended standard levels, provided that a specific set of features are included and conditions are met to ensure their use exclusively in utility ETS programs. More information on DOE’s waiver proposal and stakeholder feedback can be found in the rulemaking docket.⁴

III. Discussion

By this document, DOE withdraws its February 26, 2013 NOPR. DOE commissioned a study to examine the capability of large-capacity water heaters, both resistance and heat pump, to support ETS programs and found both water heater types worked for such programs. For additional discussion of the capability of using large-volume electric storage water heaters that meet the April 2010 amended standard levels to support utility ETS programs, see the following reports: http://www.pnnl.gov/main/publications/external/technical_reports/PNNL-23527.pdf and http://www.pnnl.gov/main/publications/external/technical_reports/PNNL-23697.pdf.

IV. Approval of the Office of the Secretary

The Secretary of Energy has approved publication of this withdrawal.

Issued in Washington, DC, on March 26, 2015.

Roland Risser,

Acting Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 193

[Docket No.: FAA–2014–0142]

RIN 2120–AA66

Federal Contract Tower Safety Action Program (SAFER–FCT and Air Traffic Safety Action Program for Engineers & Architects, Staff Support Specialists, Aviation Technical System Specialists (Series 2186) and Flight Procedures Team (ATSAP–X)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Order Designating Safety Information as Protected from Disclosure

SUMMARY: The FAA is proposing that safety information provided to it by Federal Contract Tower employees (hereinafter “Vendor”) under the SAFER–FCT Program or by Air Traffic Organization Engineers & Architects, Staff Support Specialists, Aviation Technical System Specialists (Series 2186) and Flight Procedures Team (hereinafter “Region X”) under the ATSAP–X program be designated by an FAA Order as protected from public disclosure in accordance with the provisions of 14 CFR part 193. The designation is intended to encourage persons to voluntarily provide information to the FAA under the SAFER–FCT or the ATSAP–X safety reporting programs, so the FAA can learn about and address aviation safety hazards of which it was unaware or more fully understand and implement corrective measures for events known by it through other means. Under 49 U.S.C. 40123, the FAA is required to protect information from disclosure to the public, including disclosure under the Freedom of Information Act (5 U.S.C. 552) or other laws, following the issuance of such Order.

DATES: Comments must be received on or before May 4, 2015.

ADDRESSES: You may send comments identified by docket number FAA–2014–0142 using any of the following methods: via mail to U.S. Department of Transportation, Docket Operations, M–30, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington DC 20590–0339; telephone (202) 366–9826. You must identify the FAA Docket No. FAA–2014–0142 at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>.

³ Energy factor is a measure of overall water heater efficiency that accounts for efficiency during active, standby, and cyclical operation.

⁴ <http://www.regulations.gov/#/docketDetail;D=EERE-2012-BT-STD-0022>.

FOR FURTHER INFORMATION CONTACT:

Coleen Hawrysko—Group Manager, ATO Safety Programs, Federal Aviation Administration, 490 L'Enfant Plaza, Suite 7200, Washington, DC 20024 or via email at coleen.hawrysko@faa.gov or phone at 202-267-8807.

SUPPLEMENTARY INFORMATION:**Comments Invited**

Interested parties are invited to participate in this proposed designation by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should clearly identify docket number FAA-2014-0142 and be submitted in triplicate to the Docket Management System (see **ADDRESSES** section for address and phone number). Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made:

“Comments to FAA-2014-0142. The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this proposed designation will be filed in the docket.

Availability of This Proposed Designation

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at http://www.gov/airports_airtraffic/air_traffic/publications.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal

docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue SW., Renton, WA 98057.

You can get an electronic copy using the Internet by:

1. Searching the Department of Transportation's electronic Docket Management System (DMS) Web page); <http://www.regulations.gov>;

2. Visiting the FAA's Regulations and Policies Web page at http://www.faa.gov/regulations_policies; or

3. Accessing the Government Publishing Office's Web page at <http://www.gpo.gov/fdsys/browse/collection.action?collectionCode=FR>.

Privacy Act: Using the search function of our docket Web site, anyone can find and read the comments received into any of our dockets, including the name of the individual sending the comment (or signing the comment on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477) or you may visit <http://www.regulations.gov>.

Background

Under Title 49 of the United States Code (49 U.S.C.), section 40123, certain voluntarily provided safety and security information is protected from disclosure in order to encourage persons to provide the information. The FAA must first issue an Order that specifies why the agency finds that the information should be protected in accordance with 49 U.S.C., section 40123. The FAA's rules for implementing that section are in 14 CFR part 193. If the Administrator issues an Order designating information as protected under 49 U.S.C., section 40123, that information will not be disclosed under the Freedom of Information Act (Title 5 of the United States Code (5 U.S.C.), section 552) or other laws, except as provided in 49 U.S.C. 40123, 14 CFR part 193, and the Order designating the information as protected. This Order is issued under part 193, section 193.11, which sets out the notice procedure for designating information as protected.

2. Applicability

This proposed designation is applicable to any FAA office that receives information covered under this designation from the SAFER-FCT Program or the ATSAP-X Program, both of which will be incorporated in FAA Order 7200.20, Voluntary Safety Reporting Programs. The proposed

designation would also apply to any other government agency that receives such information from the FAA. For any other government agency to receive SAFER-FCT or ATSAP-X information covered under the proposed designation from the FAA, each such agency must first stipulate, in writing, that it will abide by the provisions of part 193 and the Order designating the SAFER-FCT and ATSAP-X information as protected from public disclosure under 14 CFR part 193.

3. Summary

a. Qualified Participants. Region X employees who are covered under the Consolidated Collective Bargaining agreement (CBA) between NATCA and the FAA effective May 22, 2013, or its successor, and other employees identified in FAA Order 7200.22 which will be incorporated in FAA Order 7200.20, are eligible to complete a ATSAP-X report for events that occur while acting in that capacity. Vendor employees Union or Non-Union who are covered under the FAA and the Federal Contract Tower September 2011 contract, or its successor, and other employees identified in FAA Order 7200.20 are eligible to complete a SAFER-FCT report for events that occur while acting in that capacity.

b. Voluntarily-Provided Information Protected From Disclosure Under the Proposed Designation

Except for SAFER-FCT or ATSAP-X reports that involve possible criminal conduct, substance abuse, controlled substances, alcohol, or intentional falsification, the following information would be protected from disclosure:

(1) the content of any report concerning an aviation safety or security matter that is submitted by a qualified participant under the SAFER-FCT or ATSAP-X that is accepted into either program, including the SAFER-FCT or ATSAP-X report, and the name of the submitter of the report. Notwithstanding the foregoing, mandatory information about occurrences that are required to be reported under FAA Orders or ATO guidance is not protected under this designation, unless the same information has also been submitted or reported under other procedures prescribed by the Agency. The exclusion is necessary to assure that the information protected under this designation has been voluntarily submitted. It also permits changes to ATO Orders and guidance without requiring a change to this designation.

(2) Any evidence gathered by the Event Review Committee during its investigation of a safety- or security-

related event reported under SAFER-FCT or ATSAP-X, including the SAFER-FCT or ATSAP-X investigative file.

Note: The type of information or circumstances under which the information listed above would not be protected from disclosure is discussed in paragraph 3.b of this Order.

c. *Ways to Participate.* FAA employees who are qualified participants register for, and submit a report into, the system.

d. *Duration of This Information-Sharing Program.* This program continues as long as it is provided for by Order or a collective bargaining agreement.

4. Findings

The FAA designates information received from a SAFER-FCT or ATSAP-X submission as protected under 49 U.S.C. 40123 and 14 CFR 193.7, based on the following findings:

a. *Summary of why the FAA finds that the information will be provided voluntarily.* The FAA finds that the information will be provided voluntarily. This finding is supported by the significant increase in reports of safety-related matters since the implementation of voluntary safety reporting programs. No FAA or Vendor employee is required to participate in the SAFER-FCT or ATSAP-X.

b. *Description of the type of information that may be voluntarily provided under the program and a summary of why the FAA finds that the information is safety-related.*

(1) The following types of reports are ordinarily submitted under the SAFER-FCT or ATSAP-X:

i. *Noncompliance reports.* Noncompliance reports identify specific instances of a failure to follow FAA directives.

ii. *Aviation safety concern reports.* Aviation safety concerns that do not involve specific noncompliance with FAA directives. These may include, but are not limited to potential safety events or perceived problems with policies, procedures, and equipment.

(2) Region X employees support the design, delivery and efficiency of flight services throughout the National Airspace System (NAS) facilities, systems and equipment. Reports submitted by these employees under ATSAP-X ordinarily involve matters or observations occurring during the performance of their job responsibilities, and therefore the information submitted is inherently safety related. Vendor employees provide and support the provision of air traffic services at

Federal Contract Tower facilities throughout the NAS. Reports submitted by these employees under SAFER-FCT ordinarily involve occurrences or problems identified or experienced during the performance of their job responsibilities which directly affect safety.

c. *Summary of why the FAA finds that the disclosure of the information would inhibit persons from voluntarily providing that type of information.*

The FAA finds that disclosure of the information would inhibit the voluntary provision of that type of information. Employees are unwilling to voluntarily provide detailed information about safety events and concerns, including those that might involve their own failures to follow Agency directives and policies, if such information could be released publicly. If information is publicly disclosed, there is a strong likelihood that the information could be misused for purposes other than to address and resolve the reported safety concern. Unless the FAA can provide assurance that safety-related reports will be withheld from public disclosure, employees will not participate in the programs.

d. *Summary of why the receipt of that type of information aids in fulfilling the FAA's safety responsibilities.*

The FAA finds that receipt of information in SAFER-FCT or ATSAP-X reports aids in fulfilling the FAA's safety responsibilities. Because of its capacity to provide early identification of needed safety improvements, this information offers significant potential for addressing hazards that could lead to incidents or accidents. In particular, one of the benefits of both the SAFER-FCT and ATSAP-X is that they encourage the submission of narrative descriptions of occurrences that provide more detailed information than is otherwise available. The SAFER-FCT and ATSAP-X have produced safety-related data that is not available from any other source. Receipt of this previously unavailable information has provided the FAA with an improved basis for modifying procedures, policies, and regulations to improve safety and efficiency.

e. *Consistencies and inconsistencies with FAA safety responsibilities.*

The FAA finds that withholding SAFER-FCT and ATSAP-X information from public release is consistent with the FAA's safety responsibilities, because it encourages individuals to provide important safety information that it otherwise might not receive.

(1) Withholding SAFER-FCT and ATSAP-X information from disclosure, as described in this designation, is

consistent with the FAA's safety responsibilities. Without the Agency's ability to assure that the detailed information reported under these programs, which often explains why the event occurred or describes underlying problems, will not be disclosed, the information will not be provided to the FAA. Employees are concerned that public release of the information could result in potential misuses of the information that could affect them negatively. If the FAA does not receive the information, the FAA and the public will be deprived of the opportunity to make the safety improvements that receipt of the information otherwise enables. Corrective action under SAFER-FCT and ATSAP-X can be accomplished without disclosure of protected information. For example, for acceptance under both programs, the reporting employee must comply with Event Review Committee recommendations for corrective action, such as additional training for an employee. If the employee fails to complete corrective action in a manner satisfactory to all members of the Event Review Committee, the event may be referred to an appropriate office within the FAA for any additional investigation, reexamination, and/or action, as appropriate.

(2) The FAA may release SAFER-FCT or ATSAP-X information submitted to the agency, as specified in Part 193 and this Order. For example, to explain the need for changes in FAA policies, procedures, and regulations, the FAA may disclose de-identified, summarized information that has been derived from SAFER-FCT or ATSAP-X reports or extracted from the protected information listed under paragraph 5b. The FAA may disclose de-identified, summarized SAFER-FCT or ATSAP-X information that identifies a systemic problem in the NAS, when a party needs to be advised of the problem in order to take corrective action. Under the current version of FAA Order N JO 7200.20, reported events and possible violations may be subject to investigation, reexamination, and/or action. Although the report itself and the content of the report are not used as evidence, the FAA may use the knowledge of the event or possible violation to generate an investigation, and, in that regard, the information is not protected from disclosure. To withhold information from such limited release would be inconsistent with the FAA's safety responsibilities. In addition, reports that appear to involve possible criminal activity, substance abuse, controlled substances, alcohol, or

intentional falsification will be referred to an appropriate FAA office for further handling. The FAA may use such reports for enforcement purposes, and will refer such reports to law enforcement agencies, if appropriate. To withhold information in these circumstances would be inconsistent with the agency's safety responsibilities because it could prevent, or at least diminish the FAA's ability to effectively address egregious misconduct.

f. *Summary of how the FAA will distinguish information protected under part 193 from information the FAA receives from other sources.*

All employee SAFER-FCT and ATSAP-X reports are clearly labeled as such. Each employee must submit their own report.

5. Designation

The FAA designates the information described in paragraph 5b to be protected from disclosure in accordance with 49 U.S.C., section 40123 and 14 CFR part 193.

Issued in Washington, DC on March 27, 2015.

Michael P. Huerta,

Administrator, Federal Aviation Administration.

[FR Doc. 2015-07743 Filed 4-2-15; 8:45 am]

BILLING CODE 4910-13-P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[REG-133489-13]

RIN 1545-BL76

Allocation of Controlled Group Research Credit

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations and notice of public hearing.

SUMMARY: This document contains proposed regulations relating to the allocation of the group credit. The proposed regulations will affect certain taxpayers claiming the credit. In the Rules and Regulations section of this issue of the **Federal Register**, the IRS is issuing temporary regulations providing guidance relating to the allocation of the credit for increasing research activities (research credit) to corporations and trades or businesses under common control (controlled groups). The temporary regulations also contain rules relating to the allocation of the railroad

track maintenance credit (RTMC) and the election for a reduced research credit. The text of the temporary regulations also serves as the text of these proposed regulations.

DATES: Comments and requests for a public hearing must be received by July 2, 2015.

ADDRESSES: Send submissions to: CC:PA:LPD:PR (REG-133489-13), Room 5203, Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Washington, DC 20044. Submissions may be hand delivered Monday through Friday between the hours of 8 a.m. and 4 p.m. to: CC:PA:LPD:PR (REG-133489-13), Courier's Desk, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC. Submissions may also be sent electronically via the Federal eRulemaking Portal at www.regulations.gov (IRS REG-133489-13). The public hearing will be held in the IRS Auditorium, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Concerning the regulations, James A. Holmes, (202) 317-4137; concerning submission of comments, the hearing, and/or to be placed on the building access list to attend the hearing, Oluwafunmilayo (Funmi) Taylor at (202) 317-6901 (not toll-free numbers).

SUPPLEMENTARY INFORMATION:

Background

Temporary regulations in the Rules and Regulations section of this issue of the **Federal Register** amend the Income Tax Regulations (26 CFR part 1) relating to section 41. The temporary regulations amend §§ 1.41-6, 1.45G-1, and 1.280C-4. The regulations are being prescribed to update the regulations in a manner that is consistent with the amendments made to sections 41(f)(1)(A)(ii) and 41(f)(1)(B)(ii) in Section 301(c) of the Act. The text of the temporary regulations also serves as the text of these proposed regulations. The preamble to those regulations explains the amendments.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because the regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to

section 7805(f) of the Internal Revenue Code, this notice of proposed rulemaking will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Comments and Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any comments that are submitted timely to the IRS. The Treasury Department and the IRS request comments on all aspects of the proposed rules. All comments will be available at www.regulations.gov or upon request.

A public hearing will be scheduled if requested in writing by any person that timely submits written comments. If a public hearing is scheduled, notice of the date, time, and place for the public hearing will be published in the **Federal Register**.

Drafting Information

The principal author of these regulations is James A. Holmes, Office of Associate Chief Counsel (Passthroughs and Special Industries), IRS. However, other personnel from the IRS and Treasury Department participated in their development.

List of Subjects in 26 CFR Part 1

Income taxes, Reporting and recordkeeping requirements.

Proposed Amendments to the Regulations

Accordingly, 26 CFR part 1 is proposed to be amended as follows:

PART 1—INCOME TAXES

■ **Paragraph 1.** The authority citation for part 1 continues to read, in part as follows:

Authority: 26 U.S.C. 7805 * * *

Section 1.41-6 also issued under 26 U.S.C. 41(f)(1) * * *

Section 1.45G-1 also issued under 26 U.S.C. 45G(e)(2) * * *

Section 1.280C-4 also issued under 26 U.S.C. 280C(c)(4) * * *

■ **Par. 2.** Section 1.41-6 is amended to read as follows:

§ 1.41-6. Aggregation of expenditures.

[The text of the amendments to this proposed section is the same as the text of § 1.41-6T published elsewhere in this issue of the **Federal Register**.]

■ **Par. 3.** Section 1.45G-1 is amended to read as follows:

§ 1.45G-1. Railroad track maintenance credit.

[The text of the amendments to this proposed section is the same as the text
