Abstract: In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. The purpose of the application is to enable the EPA to properly determine whether the State's program meets the requirements of the Resource Conservation and Recovery Act (RCRA) § 3006. A State with an approved program may voluntarily transfer program responsibilities to EPA by notifying the EPA of the proposed transfer, as required by section 40 CFR 271.23. Further, the EPA may withdraw a State's authorized program under section 271.23.

The State shall inform the EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with section 271.21. If a State is proposing to transfer all or any part of a program from the approved State agency to any other agency, it must notify the EPA in accordance with section 271.21 and submit revised organizational charts as required under section 271.6. These paperwork requirements are mandatory under RCRA § 3006(a). The EPA will use the information submitted by the State in order to determine whether the State's

program meets the statutory and regulatory requirements for authorization.

Form Numbers: None.

Respondents/affected entities: State governments.

Respondent's obligation to respond: Mandatory (RCRA § 3006(a)).

Estimated number of respondents: 50 (total).

Frequency of response: Annual.

Total estimated burden: 13,860 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$499,001 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 6,108 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This change is due to a decrease of 8 respondents submitting a program change to EPA.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitter of the PMNs addressed in this action.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

II. What action is the Agency taking?

This document provides receipt and status reports, which cover the period from February 2, 2015 to February 27, 2015, and consists of the PMNs and TMEs both pending and/or expired, and the NOCs to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

III. What is the Agency's authority for taking this action?

Section 5 of TSCA requires that EPA periodical publish in the **Federal Register** receipt and status reports, which cover the following EPA activities required by provisions of TSCA section 5.

EPA classifies a chemical substance as either an "existing" chemical or a "new" chemical. Any chemical

substance that is not on EPA's TSCA Inventory is classified as a "new chemical," while those that are on the TSCA Inventory are classified as an "existing chemical." For more information about the TSCA Inventory go to: <http://www.epa.gov/opptintr/newchems/pubs/inventory.htm>. Anyone who plans to manufacture or import a new chemical substance for a non-exempt commercial purpose is required by TSCA section 5 to provide EPA with a PMN, before initiating the activity. Section 5(h)(1) of TSCA authorizes EPA to allow persons, upon application, to manufacture (includes import) or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a), for "test marketing" purposes, which is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to: <http://www.epa.gov/oppt/newchems>.

Under TSCA sections 5(d)(2) and 5(d)(3), EPA is required to publish in the **Federal Register** a notice of receipt of a PMN or an application for a TME and to publish in the **Federal Register** periodic status reports on the new chemicals under review and the receipt of NOCs to manufacture those chemicals.

Spatial Aquatic Model Development; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A Spatial Aquatic Model (SAM) workshop will be held on April 29, 2015. This Notice announces the location and time for the meeting and provides a tentative list of topics to be covered in the meeting. With the development of SAM, EPA will be able to estimate the magnitude, frequency, and duration of exposure to a chemical as well as where the exposure may occur.

DATES: The meeting will be held on April 29, 2015 from 9 a.m. to 4:00 p.m. Requests to participate in the meeting must be received on or before April 13, 2015. To request accommodation of a disability, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

ADDRESSES: The meeting will be held at the Environmental Protection Agency, Office of Pesticide Programs (OPP), One Potomac Yard (South Building), Fourth Floor Conference Center (S4370/80), 2777 S. Crystal Drive, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Nelson Thurman, Environmental Fate

and Effects Division, Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone numbers: (703) 308-0465; fax number: (703) 347-8011; email address: thurman.nelson@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are required to conduct testing of chemical substances under the Toxic Substances Control Act (TSCA), the Federal Food, Drug, and Cosmetic Act (FFDCA), or the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Agriculture, Forestry, Fishing and Hunting (NAICS code 11).
- Utilities (NAICS code 22).
- Professional, Scientific and Technical (NAICS code 54).

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2014-0686, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. Background

EPA is developing the SAM to provide more spatial and temporal context for pesticide aquatic exposure assessments. The model addresses the likelihood of pesticide exposure by estimating how often, how long, and where aquatic exposures occur. Following the SAM workshop in October 2014, a second SAM workshop is being held for discussion of the model and planned updates.

III. How can I request to participate in this meeting?

You may submit a request to participate in this meeting to the person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered CBI. Requests to participate in the meeting, identified by docket ID number EPA-HQ-OPP-2014-0686, must be received on or before April 13, 2015.

IV. Tentative Topics for the Meeting

The workshop will provide updates for SAM since the October 2014 workshop, including data inputs and public interface. The workshop will also include feedback and discussion from the pilot testing and planned improvements to the model, including identifying pesticide application windows and accounting for time of travel.
