to support the issuance of the product license, and would determine that an environmental impact statement need not be prepared. APHIS intends to issue a veterinary biological product license for this vaccine following completion of the field test provided no adverse impacts on the human environment are identified and provided the product meets all other requirements for licensing.

Done in Washington, DC, this 8th day of April 2015.

Kevin Shea,
Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2015–0025]

Secretary’s Advisory Committee on Animal Health; Meeting

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of meeting.

SUMMARY: This is a notice to inform the public of an upcoming meeting of the Secretary’s Advisory Committee on Animal Health. The meeting is being organized by the Animal and Plant Health Inspection Service to discuss matters of animal health.

DATES: The meeting will be held on April 28 and 29, 2015, from 9 a.m. to 5 p.m. each day.

ADDRESSES: The meeting will be held at the Bethesda Marriott, 5151 Pooks Hill Road, Bethesda, MD 20814.

FOR FURTHER INFORMATION CONTACT: Mrs. R.J. Cabrera, Designated Federal Officer, VS, APHIS, 4700 River Road Unit 34, Riverdale, MD 20737; phone (301) 851–3478, email SACAH.Management@aphis.usda.gov.

SUPPLEMENTARY INFORMATION:

The Secretary’s Advisory Committee on Animal Health (the Committee) advises the Secretary of Agriculture on matters of animal health, including means to prevent, conduct surveillance on, monitor, control, or eradicate animal diseases of national importance. In doing so, the Committee will consider public health, conservation of natural resources, and the stability of livestock economies.

Tentative topics for discussion at the meeting include:

• Follow-on discussion of antimicrobial resistance, mitigations, and the U.S. Department of Agriculture (USDA) action plan,
• Comprehensive discussion on porcine epidemic diarrhea,
• Follow-on discussion on foot-and-mouth disease,
• USDA draft framework for emerging diseases,
• Proposed national list of reportable animal diseases,
• Avian influenza, and
• Bovine tuberculosis program—understanding the disease.

A final agenda will be posted on the Committee Web site by April 13, 2015.

Those wishing to attend the meeting in person must complete a brief registration form by clicking on the “SACAH Meeting Sign-Up” button on the Committee’s Web site (http://www.aphis.usda.gov/animalhealth/sacah). Members of the public may also join the meeting via teleconference in “listen-only” mode. Participants who wish to listen in on the teleconference may do so by dialing 1–888–469–3079 and then entering the public passcode, 2061888#.

Due to time constraints, members of the public will not have an opportunity to participate in the Committee’s discussions. However, questions and written statements for the Committee’s consideration may be submitted up to 5 working days before the meeting. They may be sent to SACAH.Management@aphis.usda.gov or mailed to the person listed on the notice under FOR FURTHER INFORMATION CONTACT. Statements filed with the Committee should specify that they pertain to the April 2015 Committee meeting.

This notice of meeting is given pursuant to section 10 of the Federal Advisory Committee Act (5 U.S.C. App. 2).

Done in Washington, DC, this 8th day of April 2015.

Kevin Shea,
Administrator, Animal and Plant Health Inspection Service.

Availability of an Environmental Assessment for Field Testing a Marek’s Disease Vaccine, Serotype 1, Live Virus

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an environmental assessment concerning authorization to ship for the purpose of field testing, and then to field test, an unlicensed Marek’s disease vaccine, serotype 1, live virus. The environmental assessment, which is based on a risk analysis prepared to assess the risks associated with the field testing of this vaccine, examines the potential effects that field testing this veterinary vaccine could have on the quality of the human environment. Based on the risk analysis and other relevant data, we have reached a preliminary determination that field testing this veterinary vaccine will not have a significant impact on the quality of the human environment, and that an environmental impact statement need not be prepared. We intend to authorize shipment of this vaccine for field testing following the close of the comment period for this notice unless new substantial issues bearing on the effects of this action are brought to our attention. We also intend to issue a U.S. Veterinary Biological Product license for this vaccine, provided the field test data support the conclusions of the environmental assessment and the issuance of a finding of no significant impact and the product meets all other requirements for licensing.

DATES: We will consider all comments that we receive on or before May 14, 2015.

ADDRESSES: You may submit comments by either of the following methods:

• Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS–2015–0003, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238.
