that could be expected to emerge in response to such new requirements.

DOE is seeking public input on the appropriateness of assessing the first cost where a new or changed requirement can be met by multiple construction approaches with varying cost implications (Topic GO1).

B. Economic Parameters and Inputs

The data sources and procedures for establishing economic parameters required for calculating the metrics described above are described in detail in the established residential methodology and established commercial methodology (see Analysis for Residential Buildings and Analysis for Commercial Buildings sections of this notice). DOE will use the most recent values of these parameters available at the time an analysis is begun. DOE is seeking public input on whether this approach can be improved through use of data sources not included in the established commercial and residential methodologies (Topic G02).

V. Public Participation

A. Submission of Information

DOE will accept information in response to this notice under the timeline provided in the DATES section of this notice. Comments should be submitted by one of the methods listed in the ADDRESSES section of this notice. Comments should include the topic identifier (e.g., GO1, GO2, RO1, RO2, CO1, CO2, etc.) in the subject line and throughout the submission, as applicable, to aid in associating comments with the requested topics. In summary, DOE is particularly interested in receiving information on the following issues/topics:

B. General Issues on Which DOE Seeks Information

GO1. The appropriateness of assessing the first cost where a new or changed requirement can be met by multiple construction approaches with varying cost implications

GO2. Suggestions for preferred cost and economic parameter data sources

C. Residential Issues on Which DOE Seeks Information

RO1. The appropriateness of revisions to the prototypes used for residential analysis

RO2. The appropriateness of using fewer weather stations for national and preliminary analysis

RO3. Other comments on DOE’s residential cost-effectiveness methodology for code change analysis

D. Commercial Issues on Which DOE Seeks Information

CO1. The appropriateness of the addition of property tax impact analysis to the Scenario 2 cost-effectiveness methodology

CO2. Other comments on DOE’s commercial cost-effectiveness methodology for code change analysis

Issued in Washington, DC, on April 7, 2015.
