DEPARTMENT OF STATE

[Public Notice: 9096]

30-Day Notice of Proposed Information Collection: Repatriation/Emergency Medical and Dietary Assistance Loan Application

ACTION: Notice of request for public comment and submission to OMB of proposed collection of information.

SUMMARY: The Department of State has submitted the information collection described below to the Office of Management and Budget (OMB) for approval. In accordance with the Paperwork Reduction Act of 1995 we are requesting comments on this collection from all interested individuals and organizations. The purpose of this Notice is to allow 30 days for public comment.

DATES: Submit comments directly to the Office of Management and Budget (OMB) up to May 14, 2015.

ADDRESSES: Direct comments to the Department of State Desk Officer in the Office of Information and Regulatory Affairs at the Office of Management and Budget (OMB). You may submit comments by the following methods:

- Email: oira_submission@omb.eop.gov. You must include the DS form number, information collection title, and the OMB control number in the subject line of your message.
- Fax: 202–395–5806. Attention: Desk Officer for Department of State.

FOR FURTHER INFORMATION CONTACT: Direct requests for additional information regarding the collection listed in this notice, including requests for copies of the proposed collection instrument and supporting documents, to Derek Rivers, Bureau of Consular Affairs, Overseas Citizens Services (CA/OCS/PMO), U.S. Department of State, SA–17, 10th Floor, Washington, DC 20036 or at RiversDA@state.gov.

SUPPLEMENTARY INFORMATION:

- Title of Information Collection: Repatriation/Emergency Medical and Dietary Assistance Loan Application.
- OMB Control Number: 1405–0150.
- Type of Request: Extension of a currently approved collection.
- Originating Office: Bureau of Consular Affairs, Overseas Citizens Services (CA/OCS).
- Form Number: DS–3072.
- Respondents: U.S. Citizens applying for emergency loan assistance.
- Estimated Number of Respondents: 1,446.
- Estimated Number of Responses: 1,446.
- Average Time per Response: 20 minutes.
- Total Estimated Burden Time: 482 hours.
- Frequency: On Occasion.
- Obligation to Respond: Required to obtain benefits.

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.
- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of proposed collection: The purpose of the DS–5528 is to document the evacuation of persons from abroad when their lives are endangered by war, civil unrest, or natural disaster, document issuance of a crisis evacuation loan, obtain a Privacy Act waiver to share information about the welfare of a U.S. citizen or lawful permanent resident consistent with the Privacy Act of 1974, and to facilitate debt collection.

Methodology: An electronic version of the Evacuee Manifest and Promissory Note was created, allowing applicants to type their information into the form, print it, and present it to a consular officer at the evacuation point. Continued software development will provide the capability to electronically submit loan applications for adjudication. The final-stage of software development will not only allow the applicant to enter his/her information and submit the form, the information will also be made available for all stages of financial processing including the Department of State’s debt collection process. Due to the potential for serious conditions during crisis events that often affect electronic and internet infrastructure systems, the electronic form will not replace the paper form. Rather, the paper form will still be maintained and used in the event that applicants are unable to submit forms electronically.

Dated: March 30, 2015.

Michelle Bernier-Toth,
Manager, Bureau of Consular Affairs, Overseas Citizen Services, Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration
[Docket No. FHWA–2015–0006]

Agency Information Collection Activities: Request for the Update of an Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: FHWA invites public comments about our intention to request the Office of Management and Budget’s (OMB) approval for a new information collection, which is summarized below.
Moving Ahead for Progress in the 21st Century Act (MAP–21). The regulation allows States flexibility in determining how to meet the manual requirement. This flexibility allows States to prepare manuals in the format of their choosing, to the level of detail necessitated by State complexities. Each State decides how it will provide service to individuals and businesses affected by Federal or federally-assisted projects, while at the same time reducing the burden of government regulation. States are required to update manuals to reflect changes in Federal requirements for programs administered under Title 23 U.S.C. The State manuals may be submitted to FHWA electronically or made available by posting on the State Web site.

Respondents: 52 State Departments of Transportation, including the District of Columbia and Puerto Rico.

Frequency: A one-time collection due to regulatory revisions. Then States update their manuals on an annually basis and certify every 5 years.

Estimated Average Burden per Respondent: 225 hours per respondent.

Estimated Total Annual Burden Hours: 225 hours for each of the 52 State Departments of Transportation.

The total is 11,700 burden hours.

Dated: April 8, 2015.

Michael Howell, Information Collection Officer.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Petition for Exemption From the Vehicle Theft Prevention Standard; Mercedes-Benz USA, LLC

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Grant of petition for exemption.

SUMMARY: This document grants in full the Mercedes-Benz USA, LLC’s (MBUSA) petition for an exemption of the smart Line Chassis vehicle line in accordance with 49 CFR part 543, Exemption from Vehicle Theft Prevention Standard. This petition is granted because the agency has determined that the antitheft device to be placed on the line as standard equipment is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the parts-marking requirements of 49 CFR part 541, Federal Motor Vehicle Theft Prevention Standard (Theft Prevention Standard).

DATES: The exemption granted by this notice is effective beginning with the 2016 model year (MY).

SUPPLEMENTARY INFORMATION: In a petition dated December 17, 2014, MBUSA requested an exemption from the parts-marking requirements of the Theft Prevention Standard for the Mercedes-Benz smart line Chassis vehicle line beginning with MY 2016. The petition requested an exemption from parts-marking pursuant to 49 CFR part 543, Exemption from Vehicle Theft Prevention Standard, based on the installation of an antitheft device as standard equipment for the entire vehicle line.

Under 49 CFR 543.5(a), a manufacturer may petition NHTSA to grant an exemption for one vehicle line per model year. In its petition, MBUSA provided a detailed description and diagram of the identity, design, and location of the components of the antitheft device for the smart Line Chassis vehicle line which includes the smart fortwo vehicle. MBUSA stated that its MY 2016 smart Line Chassis vehicle line will be equipped with its passive, transponder-based ignition immobilizer (FBS III/FBS IV) antitheft device and an access code-protected locking system as standard equipment. Key components of the immobilizer antitheft device will include the immobilizer, transmitter key, electronic ignition starter switch control unit (EIS), the body control module (ECM), and the engine control module (ECU). MBUSA stated that its immobilizer device is an interlinked system of control units which collectively perform the immobilizer function. The interlinked system includes the engine, EIS, transmitter key, ECU and ECM (including the fuel injection system) which independently calculates and matches a unique code. MBUSA stated that it is impossible to read the code from the vehicle in order to defeat the system. If a relevant query from the vehicle to the transmitter key is valid, operation of the vehicle will be authorized. MBUSA further stated that it will offer an audible and visible alarm
