I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2015–0098 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- **NRC’s Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-ru/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdraresource@nrc.gov. The draft RIS, “Seismic Stability Analysis Methodologies for Spent Fuel Dry Cask Loading Stack-up Configuration,” is available in ADAMS under Accession No. ML13353A710.
- **NRC’s PDR:** You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2015–0098 in your comment submission. The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at http://www.regulations.gov as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Background

The NRC is requesting public comments on the draft RIS. The NRC issues RISs to communicate with stakeholders on a broad range of regulatory matters. This may include communicating and restating staff technical positions on regulatory matters.

The NRC staff has developed draft RIS 2015–XX, “Seismic Stability Analysis Methodologies for Spent Fuel Dry Cask Loading Stack-up Configuration,” to share information regarding acceptable seismic stability analysis methodologies to determine if a spent fuel dry cask loading stack-up configuration needs to be laterally supported. The draft RIS is available electronically under ADAMS Accession No. ML13353A710.

Dated at Rockville, Maryland, this 14th day of April, 2015.

For the Nuclear Regulatory Commission.
Sheldon Stuchell,
Chief, Generic Communications Branch,
Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is issuing Revision 1 of RG 5.74 directly as a final RG because the changes between Revision 0 and Revision 1 are non-substantive. Revision 1 of RG 5.74 incorporated editorial changes and updated the guide to the current format for RGs and is administrative in nature. These changes were intended to improve clarity and did not substantially alter the staff's regulatory guidance. These changes included additional questions to assist the user in the screening of planned and emergent activities or changes, and clarification to the requirement that the safety-security interface must be maintained at all times.

II. Backfitting and Issue Finality

Issuance of this final RG does not constitute backfitting as defined in section 50.109 of title 10 of the Code of Federal Regulations (10 CFR), (the Backfit Rule), and is not otherwise inconsistent with the issue finality provisions in 10 CFR part 52. The changes in Revision 1 of RG 5.74 are limited to editorial changes to improve clarity and the correction of a title. These changes do not fall within the kinds of agency actions that constitute backfitting or are subject to limitations in the issue finality provisions of part 52. Accordingly, the NRC did not address the Backfit Rule or issue finality provisions of part 52.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Submitting Suggestions for Improvement of Regulatory Guides

Revision 1 of RG 5.74 is being issued without public comment. However, you may at any time submit suggestions to the NRC for improvement of existing RGs or for the development of new RGs to address new issues. Suggestions can be submitted by the form available online at http://www.nrc.gov/reading-rm/doc-collections/reg-guides/contactus.html. Suggestions will be considered in future updates and enhancements of the RG.

Dated at Rockville, Maryland, this 14th day of April, 2015.

For the Nuclear Regulatory Commission.

Harriet Karagiannis,
Acting Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.
