The Partnerships to Improve Community Health (PICH) program (Funding Opportunity Announcement (FOA) DP14–1417) will promote the use of evidence- and practice-based strategies to create or strengthen healthy environments that make it easier for people to make healthy choices and take charge of their health. The 39 PICH awardees include both state and local governmental agencies and nongovernmental organizations. Awardees will work through multi-sector community coalitions of businesses, schools, nonprofit organizations, and other community organizations. Projects will serve three types of geographic areas: Large cities and urban counties, small cities and counties, and American Indian tribes.

The new Racial and Ethnic Approaches to Community Health (REACH) cooperative agreement (FOA DP14–1419PPHF14) builds on previous REACH program activities that began in 1999 with a focus on racial and ethnic disparities. The 49 new REACH communities experiencing health disparities. The 88 DCH awardees. Information will be requested from four individuals affiliated with each award: The principal investigator or program manager, the lead evaluation staff member, the lead media/communications staff member, and a coalition member. The maximum number of respondents is 352 (88 awardees × 4 respondents/awardee). Because the REACH and PICH awards aim to promote collaborative, multi-sector efforts, respondents will be associated with both private sector entities and state, local, and tribal government entities.

The same survey instrument will be administered to all respondents, however the estimated burden per response varies according to the respondent’s project role and responsibilities. Information will be collected using a Web-based platform. Data collection and management will be conducted by a contractor on behalf of CDC. A telephone interview option is available for respondents who prefer this mode of participation.

Findings will enable DCH to develop appropriate training activities that best support awardees’ community efforts to fulfill their funded objectives.

OMB approval is requested for two years. Participation is voluntary and there are no costs to respondents other than their time. The total estimated annualized burden hours are 237.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP): Initial Review

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces a meeting for the initial review of applications in response to Special Interest Project (SIP) 15–004. Utilizing a Targeted Media Campaign and Community Health Workers to Increase Breast and Cervical Cancer Screening Among Muslim Women.

Time and Date: 11:00 a.m.–5:00 p.m., May 14, 2015 (Closed).

Place: Teleconference.
DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day—15–15ZT; Docket No. CDC–2015–0023]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing efforts to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on the proposed information collection request for the Performance Measurement and Program Evaluation of the Autism and Developmental Disabilities Monitoring Network (ADDM). CDC seeks to collect performance monitoring and program evaluation data from all sites participating in the ADDM network.

DATES: Written comments must be received on or before June 22, 2015.

ADDRESSES: You may submit comments, identified by Docket No. CDC–2015–0023 by any of the following methods:
• Federal eRulemaking Portal: Regulations.gov. Follow the instructions for submitting comments.
• Mail: Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road, NE., MS–D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to Regulations.gov, including any personal information provided. For access to the docket to read background documents or comments received, go to Regulations.gov.

Please note: All public comment should be submitted through the Federal eRulemaking portal (Regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact the Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road, NE., MS–D74, Atlanta, Georgia 30329; phone: 404–639–7570; Email:omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60–day notice in the Federal Register concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

Proposed Project

Background and Brief Description

In January 2015, CDC launched a new phase of funding for its autism spectrum disorder (ASD) surveillance program through a new cooperative agreement: “Enhancing Public Health Surveillance of Autism Spectrum Disorder and Other Developmental Disabilities through the Autism and Developmental Disabilities Monitoring Network (ADDM) Network” under the Funding Opportunity Announcement (FOA) DA15–1501. Through this cooperative agreement, funding is provided to enhance tracking at eight existing sites and to launch two new sites. Awards were made to state/local health departments and/or their designated representatives, including Colorado Department of Public Health and Environment, Johns Hopkins University, Rutgers University, University of Arizona, University of...
