**Agency Forms Undergoing Paperwork Reduction Act Review**

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to omb@cdc.gov. Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395–5806. Written comments should be received within 30 days of this notice.

**Proposed Project**

The National Survey of Family Growth (NSFG)—(0920–0314, Expiration 04/30/2015—Revision—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

**Background and Brief Description**

Section 306 of the Public Health Service (PHS) Act (42 U.S.C. 242k), as amended, authorizes that the Secretary of Health and Human Services (DHHS), acting through NCHS, shall collect statistics on “family formation, growth, and dissolution,” as well as “determinants of health” and “utilization of health care” in the United States. This three-year clearance request includes the data collection in 2015–2018 for the continuous NSFG.

The National Survey of Family Growth (NSFG) was conducted periodically between 1973 and 2002, and continuously since 2006, by the National Center for Health Statistics, CDC. Each year, about 15,000 households are screened, with about 5,000 participants interviewed annually. Participation in the NSFG is completely voluntary and confidential. Interviews average 60 minutes for males and 80 minutes for females. The response rate since 2011 has been about 73 percent.

The NSFG program produces descriptive statistics which measure factors associated with birth and pregnancy rates, including contraception, infertility, marriage, divorce, and sexual activity, in the U.S. population 15–49; and behaviors that affect the risk of sexually transmitted diseases (STD), including HIV, and the medical care associated with contraception, infertility, and pregnancy and childbirth.

NSFG data users include the DHHS programs that fund it, including CDC/NCHS and nine others (The Eunice Kennedy Shriver National Institute of Child Health and Human Development (NIH/NICHD); the Office of Population Affairs (DHHS/OPA); the Children’s Bureau within the Administration for Children and Families (DHHS/ACF/CFB); the ACF’s Office of Planning, Research, and Evaluation (DHHS/ACF/OPRE); the CDC’s Division of HIV/AIDS Prevention (CDC/DHAP); the CDC’s Division of STD Prevention (CDC/DSTDP); the CDC’s Division of Cancer Prevention and Control (CDC/DCPC); the CDC’s Division of Birth Defects and Developmental Disabilities (CDC/DBDDD); and the CDC’s Division of Reproductive Health (CDC/DRH). The NSFG is also used by state and local governments; private research and action organizations focused on men’s and women’s health, child well-being, and marriage and the family; academic researchers in the social and public health sciences; journalists, and many others.

No questionnaire changes are requested in the first 6 months of this clearance; limited changes including (1) the expansion of the age range from 15–44 years of age to 15–49, (2) some revision of the female and male questionnaires to incorporate new and modified items related to contraceptive use, reproductive health, preventive service screening/counseling, sexual orientation, health insurance, cigarette smoking, cancer risk, military service
and sheltered homelessness, and (3) the request to add or modify a small number of questions in 2017 using a non-substantive change request, to be responsive to emerging public policy issues. There is no cost to respondents other than their time. The total estimated annualized burden hours are 7,318.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

[CFDA Number: 93.508]

Announcing the Award of Six Single-Source Expansion Supplement Grants Under the Tribal Maternal, Infant, and Early Childhood Home Visiting (Tribal MIECHV) Program

AGENCY: Office of Child Care, ACF, HHS.

ACTION: Notice of the award of six single-source program expansion supplement grants to Tribal Maternal, Infant, and Early Childhood Home Visiting (Tribal MIECHV) grantees.

SUMMARY: The Administration for Children and Families (ACF), Office of Child Care (OCC), Tribal Maternal, Infant, and Early Childhood Home Visiting (Tribal MIECHV) Program, announces the award of single-source program expansion supplement grants to the Confederated Salish and Kootenai Tribes in Pablo, MT, Confederated Tribes of Siletz Indians in Siletz, OR, Inter-Tribal Council of Michigan in Sault Ste. Marie, MI, Native American Health Center, Inc. in Oakland, CA, Red Cliff Band of Lake Superior Chippewa in Bayfield, WI, and Riverside-San Bernardino County Indian Health, Inc. in Banning, CA.

The Fiscal Year 2015 single-source program expansion supplement grants will support the grantees' project activities as they continue to implement their Tribal MIECHV programs and will allow for opportunities for enhanced, or expanded, service delivery.

DATES: The period of support is July 1, 2015 through June 30, 2016 for the Native American Health Center, Inc. and the Riverside-San Bernardino County Indian Health, Inc., and, September 30, 2015 through September 29, 2016 for the Confederated Salish and Kootenai Tribes, the Confederated Tribes of Siletz Indians, the Inter-Tribal Council of Michigan, and the Red Cliff Band of Lake Superior Chippewa.

FOR FURTHER INFORMATION CONTACT: Rachel Schumacher, Director, Office of Child Care, 901 D Street SW., Washington, DC 20447, Telephone: (202) 401–6984; Email: rachel.schumacher@acf.hhs.gov.

SUPPLEMENTARY INFORMATION: The Tribal Maternal, Infant and Early Childhood Home Visiting (MIECHV) Program, funded from a 3 percent set-aside to the Maternal, Infant, and Early Childhood Home Visiting Program, is designed to strengthen tribal capacity to support and promote the health and well-being of American Indian and Alaska Native (AIAN) families; expand the evidence base around home visiting in tribal communities; and support and strengthen cooperation and linkages between programs that service AIAN children and their families. Funds under the Tribal MIECHV Program support Indian tribes, consortia of tribes, urban and Indian organizations to provide high-quality, culturally relevant, voluntary, evidence-based home visiting services to families in at-risk communities; conduct a needs and readiness assessment of the at-risk community; conduct rigorous local evaluations to answer questions of importance to tribal communities and examine the effectiveness of home visiting programs with AIAN populations.

A single-source supplemental grant of $45,000 was awarded to the Confederated Salish and Kootenai Tribes in Pablo, MT, to support the hire of an additional home visitor. A single-source supplemental grant of $25,000 was awarded to Confederated Tribes of Siletz Indians in Siletz, OR, to support their goal of providing needed services to families with children aged 3 to 5 years old. A single-source supplemental grant of $120,000 was awarded to Inter-Tribal Council of Michigan in Sault Ste. Marie, MI, to support appropriate reflective supervision for its home visitors and to expand services at a high performing site where there is a waiting list. A single-source supplemental grant of $50,000 was awarded to the Native American Health Center, Inc. in Oakland, CA, to provide enhanced mental health support to high-risk families and home visitors. A single-source supplemental grant of $50,000 was awarded to the Red Cliff Band of Lake Superior Chippewa in Bayfield, WI, to support provision of reflective supervision for program staff, including the development of culturally appropriate strategies, and to support enhanced dissemination of information about the community’s home visiting program and its early childhood system (e.g., digital storytelling). A single-source supplemental grant of $45,000 was awarded to Riverside-San Bernardino County Indian Health, Inc. in Banning, CA, to support the hire of an additional home visitor.

Statutory Authority: Section 511(h)(2)(A) of Title V of the Social Security Act, as added by Section 2951 of the Patient Protection and Affordable Care Act, Pub. L. 111–148, and
