#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, the State Plans) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and cost) is minimized, collection instruments are understandable, and OSHA's estimate of the information collection burden is accurate. Currently, OSHA is soliciting comments concerning the extension of the information collection requirements contained in the series of regulations establishing requirements for the submission, initial approval, continuing approval, final approval, monitoring and evaluation of OSHA-approved State Plans:

- 29 CFR part 1902, State Plans for the Development and Enforcement of State Standards;

- 29 CFR part 1952, Approved State Plans for Enforcement of State Standards;

- 29 CFR part 1953, Changes to State Plans for the Development and Enforcement of State Standards;

- 29 CFR part 1954, Procedures for the Evaluation and Monitoring of Approved State Plans;

- 29 CFR part 1955, Procedures for Withdrawal of Approval of State Plans; and

- 29 CFR part 1956, State Plans for the Development and Enforcement of State Standards Applicable to State and Local Government Employees in States without Approved Private Employee Plans.

Section 18 of the Occupational Safety and Health Act (29 U.S.C. 667) offers an opportunity to the states to assume responsibility for the development and enforcement of state standards through the mechanism of an OSHA-approved State Plan. Absent an approved plan, states are precluded from enforcing occupational safety and health standards in the private sector with respect to any issue for which Federal OSHA has promulgated a standard. Once approved and operational, the state adopts standards and provides most occupational safety and health enforcement and compliance assistance in the state, under the authority of its plan, instead of Federal OSHA. States also must extend their jurisdiction to cover state and local government employees and may obtain approval of State Plans limited in scope to these workers. To obtain and maintain State Plan approval, a state must submit various documents to OSHA describing its program structure and operation, including any modifications thereto as they occur, in accordance with the identified regulations. OSHA funds 50 percent of the costs required to be incurred by an approved State Plan with the state at least matching and providing additional funding at its discretion.

##### **II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on participating states who must comply;

for example, by using automated or other technological information collection and transmission techniques.

### III. Proposed Actions

OSHA is requesting that OMB extend its approval of the collection of information requirements associated with its State Plan regulations. The Agency is requesting an adjustment increase of 173 burden hours, from 11,196 to 11,369 hours. This burden hour increase is the result of the anticipated increase in the submission of state plan changes associated with one state (Maine) actively implementing a new State Plan. The burden hour increase was partially offset by the decrease in the estimated number of state-initiated state plan changes. The Agency will summarize the comments submitted in response to this notice and will include this summary in its request to OMB.

*Type of Review:* Extension of a currently approved collection.

*Title:* Occupational Safety and Health State Plans.

*OMB Control Number:* 1218-0247.

*Affected Public:* Designated state government agencies that are seeking or have submitted and obtained approval for State Plans for the development and enforcement of occupational safety and health standards.

*Number of Respondents:* 28.

*Frequency:* On occasion; quarterly; annually.

*Total Responses:* 1,279.

*Average Time per Response:* Varies from 30 minutes (.5 hour) to respond to an information inquiry to 80 hours to document state annual performance goals.

*Estimated Total Burden Hours:* 11,369.

*Estimated Cost (Operation and Maintenance):* \$0.
