Paperwork Reduction Act of 1995 (PRA)

This proposed rule contains new information collection requirements for which Office of Management and Budget approval is required under the PRA (44 U.S.C. 3501 *et seq.*). We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

OMB has reviewed and approved the collections of information for (1) applications for abatement and depredation permits, (2) annual reporting for depredation permits, and (3) reporting of acquisition and disposition of migratory birds. These information collections are covered by existing OMB Control No. 1018–0022, which expires on May 31, 2017. OMB has also approved the recordkeeping and reporting associated with the depredation order for blackbirds, grackles, cowbirds, magpies, and crows and assigned OMB Control Number 1018–0146, which expires December 31, 2017.

We are requesting that OMB assign a new OMB control number for the proposed new requirements below. After we issue final regulations, we will incorporate the burden for the new information collection requirements into OMB Control Number 1018–0022 and discontinue the new number.

- Application—FWS Form 3–200–79. We are revising the application form to reflect the increase in the application fee from \$100 to \$150.

- Abatement permittees must provide each of their subpermittees with a legible copy of their permit and an original signed and dated letter designating the person as a subpermittee for part or all of the authorized activities. (§ 21.32(e)(2)(ii)).

- Subpermittees must report take under a depredation order to the permit holder. (§ 21.32(e)(3)(iii)(A)).

- Permittees must immediately report any unauthorized take of federally protected wildlife, disturbance of bald eagles or golden eagles, or harassment of endangered species. (§ 21.32(e)(3)(iii)(C)).

- Permittees must maintain complete and accurate records of the activities conducted under the abatement permit. (§§ 21.32(e)(2)(iv), 21.32(e)(8)(ii) and (iii), 21.32(e)(11), and 21.32(g)).
- Permittees must submit an annual report to their migratory bird permit issuing office. The report must include

the information required on FWS Form 3–202–22–2133. (§ 21.32(e)(12)).

Listing Endangered or Threatened Species; 90-Day Finding on a Petition To Delist the Snake River Fall-Run Chinook Salmon Evolutionarily Significant Unit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: 90-Day petition finding, request for information, and initiation of status review.

SUMMARY: We, the National Marine Fisheries Service (NMFS), announce a 90-day finding on a petition to delist the Snake River fall-run Chinook salmon (*Oncorhynchus tshawytscha*) (Snake River fall-run Chinook) Evolutionarily Significant Unit (ESU) under the Endangered Species Act (ESA). The Snake River fall-run Chinook ESU was listed as threatened under the ESA in 1992. We reviewed the status of the ESU in 2005 and again in 2011 and concluded that the ESU's classification as a threatened species remained appropriate. We find that the petition presents substantial scientific information indicating that the petitioned action may be warranted. We hereby initiate a status review of the Snake River fall-run Chinook ESU to determine whether the petitioned action is warranted. To ensure that the status review is comprehensive, we are

soliciting scientific and commercial information pertaining to this species.
