

on Alcohol Abuse and Alcoholism, NIH, 5635 Fishers Lane, Room 2081, Rockville, MD 20852, (301) 443-0800, *bbuzas@mail.nih.gov*.

Name of Committee: National Institute on Alcohol Abuse and Alcoholism Initial Review Group; Biomedical Research Review Subcommittee.

Date: June 16, 2015.

Time: 8:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: NIH, Neuroscience Building, 6001 Executive Boulevard, B1/B2 Executive Room, Rockville, MD 20852.

Contact Person: Philippe Marmillot, Ph.D., Scientific Review Officer, National Institute on Alcohol Abuse and Alcoholism, NIH, 5635 Fishers Lane, Room 2017, Rockville, MD 20852, (301) 443-2861, *marmillotp@mail.nih.gov*.

(Catalogue of Federal Domestic Assistance Program Nos. 93.271, Alcohol Research Career Development Awards for Scientists and Clinicians; 93.272, Alcohol National Research Service Awards for Research Training; 92.273, Alcohol Research Programs; 93.891, Alcohol Research Center Grants; 93.701, ARRA Related Biomedical Research and Research Supports Awards, National Institutes of Health, HHS)

Dated: April 16, 2015.

Melanie J. Gray,

Program Analyst, Office of Federal Advisory Committee Policy.

BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; 60-Day Comment Request; Generic Clearance To Conduct Voluntary Customer/Partner Surveys (NLM)

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Library of Medicine (NLM), National Institutes of Health (NIH), will publish periodic summaries of proposed

projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

To Submit Comments and for Further Information: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request more information on the proposed project, contact: David Sharlip, Office of Administrative and Management Analysis Services, National Library of Medicine, Building 38A, Room B2N12, 8600 Rockville Pike, Bethesda, MD 20894, or call non-toll-free number (301) 402-9680, or Email your request, including your address to: *sharlipd@mail.nih.gov* Formal requests for additional plans and instruments must be requested in writing.

Comment Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Proposed Collection: Generic Clearance to Conduct Voluntary Customer/Partner Surveys (NLM), 0925-0476, Expiration Date 07/31/2015, EXTENSION, National Library of Medicine (NLM), National Institutes of Health (NIH).

Need and Use of Information Collection: In 1994, the NLM was designated a "Federal Reinvention Laboratory" with a major objective of improving its methods of delivering information to the public. At a minimum, necessary elements in improving the delivery of information include: (1) Development of easy-to-use access and delivery mechanisms that promote the public's understanding of health information, drawing on research in lay terminology, graphical and multimedia presentations; (2) assisting those providing health information to the public to make effective use of electronic services through Internet connections, training, and other means, with an emphasis on those serving minority groups, low income populations, and seniors; (3) promoting integrations of NLM services with other electronic services covering regional, state, or local health information; and (4) conducting and supporting research, development, and evaluation of the public's health information needs, information seeking behavior and learning styles, information systems that meet the public's needs, and the impact of access to information.

NLM has become an international leader in health informatics research and development, especially in consumer health informatics. As a result, NLM needs to remain contemporary in consumer health informatics research by utilizing research methods that yield a better understanding of the predictors of consumer satisfaction. Without ongoing insights into the predictors of consumer satisfaction, NLM will lack the research findings to make evidence-based changes in the content, design and editorial management of its consumer Web sites and will not optimally serve the public.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 750.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Number of respondents	Frequency of response	Average time per response (minutes/hour)	Total burden hours
General Public	1,000	1	20/60	333
Health Professionals	500	1	15/60	125
Librarians	500	1	20/60	167
Health Educators	500	1	15/60	125

Dated: April 16, 2015.

David Sharlip,

Project Clearance Liaison, NLM, NIH.

BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; 60-Day Comment Request: National Children’s Study (NCS) Data Archive and Repository (NICHD)

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Written comments and/or suggestions from the public and affected agencies are invited to address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the

methodology and assumptions used; (3) the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

To Submit Comments and for Further Information: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request more information on the proposed project, contact: Dr. Jack Moye, 6100 Executive Boulevard, Rockville Pike, MD 20891 or call 301-594-8624 or Email your request, including your address to: moyej@mail.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

DATES: Comment Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Proposed Collection: National Children’s Study (NCS) Data Archive and Repository, 0925-NEW, National Institute of Child Health and Human Development (NICHD), National Institutes of Health (NIH).

Need and Use of Information Collection: The primary use of this data archive and repository is to facilitate, document, track, monitor, and evaluate the access of NCS Vanguard Study data previously collected. There are two planned levels of data access associated

with NCS Vanguard Study data: (1) Through a de-identified dataset containing key variables. Access requirements for the de-identified dataset would be modest, requiring that the investigators, promise not to attempt to re-identify participants, agree to cite the NCS as the source of the data, and submit a copy of any paper submitted or published using the data; (2) through a secure, virtual data enclave wherein users could access and analyze data, provided that they describe their research plan, submit IRB approval documentation, complete a Data User Agreement (DUA) DUA, and agree to submit a copy of any paper submitted or published using the data. In the planned virtual data enclave, the investigator cannot download any participant-level data for use outside of the protected analytic environment. Upon approval of the research project the data files specified in the DUA would be placed in the investigator’s project space within the data enclave by the enclave staff. Final analytic results would be screened by the enclave staff for identifiable information prior to release back to the investigator.

There is no plan to publish the data collected under this request. These data are for internal monitoring purposes to assess the enclave resource requirements.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 154.

ESTIMATED ANNUALIZED BURDEN HOURS

Form	Number of respondents	Frequency of response	Average time per response (in hours)	Total annual burden hour
De-identified data access	300	1	10/60	50
Enclave data access	100	1	1	100
Additional data access	50	1	5/60	4

Dated: April 10, 2015.

Sarah L. Glavin,

Project Clearance Officer, Eunice Kennedy Shriver National Institute of Child Health and Human Development, Deputy Director, Office of Science Policy, Analysis, and Communications, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institutes of Health.

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Quarterly IRS Interest Rates Used in Calculating Interest on Overdue Accounts and Refunds on Customs Duties

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This notice advises the public of the quarterly Internal Revenue Service interest rates used to calculate interest on overdue accounts (underpayments) and refunds (overpayments) of customs duties. For the calendar quarter beginning April 1, 2015, the interest rates for overpayments will be 2 percent for corporations and 3 percent for non-corporations, and the interest rate for underpayments will be 3 percent for both corporations and non-corporations. This notice is published for the convenience of the importing
