

identified in our partial disapproval of the December 17, 2007 and March 28, 2008 Arkansas SIP submittals for the 1997 8-hour ozone NAAQS were addressed by our approval of Arkansas PSD program revisions which provide the authority to regulate and permit emissions of GHGs on April 2, 2013 (78 FR 19596). We are also proposing a ministerial change to 40 CFR 52.181(a) to reflect that the EPA approved a revision to the PSD program for the authority to regulate and permit emissions of GHGs on April 2, 2013 (78 FR 19596).

The EPA is proposing these actions under section 110 and part C of the Act, and for the reasons stated above.

IV. Incorporation by Reference

In this rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the revisions to the Arkansas PSD Program at Regulation 19.904 discussed in section II of this preamble. The EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or in hard copy at the appropriate EPA office (see the ADDRESSES section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule is not proposed to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that tribe has jurisdiction. In those areas of Indian country, the proposed rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

List of Subjects in 40 CFR Part 52

SUPPLEMENTARY INFORMATION: This is a summary of the Bureau's public notice, WC Docket No. 05–25, RM–10593, DA 15–382, released March 27, 2015. This document does not contain information collection(s) subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. In addition, therefore, it does not contain any new or modified “information collection burden[s] for small business concerns with fewer than 25 employees,” pursuant to the Small Business Paperwork Relief Act of 2002. The complete text of this document is available for public inspection and copying from 8:00 a.m. to 4:30 p.m. ET Monday through Thursday or from 8:00 a.m. to 11:30 a.m. ET on Fridays in the FCC Reference Information Center, 445 12th Street SW., Room CY–A257, Washington, DC 20554. SUMMARY: On March 27, 2015, the Commission released a public notice extending the deadlines for filing comments and reply comments in response to Section IV.B of the *Special Access FNPRM* in the Commission's special access rulemaking proceeding until July 1, 2015 and July 22, 2015, respectively. On December 11, 2012, the Commission adopted an order requiring providers and purchasers of special access and certain entities providing “best efforts” service to submit data and information for a comprehensive evaluation of the special access market and, in Section IV.B of the accompanying *Special Access FNPRM*, sought comment on changes to its rules for special access services provided by incumbent local exchange carriers in price cap areas. The process for facilitating public access to the data consistent with the protective order released on October 1, 2014 is ongoing but the data is not yet available, and there is insufficient time for the public to access and review this information before filing comment and reply comments. The Bureau therefore extends the deadline for filing comments until July 1, 2015 and reply comments until July 22, 2015.

SUPPLEMENTARY INFORMATION:

Background

The Atlantic bluefish fishery is jointly managed by the Mid-Atlantic Fishery Management Council (Council) and the Atlantic States Marine Fisheries Commission (Commission). The management unit for bluefish specified in the Atlantic Bluefish Fishery Management Plan (FMP) is U.S. waters of the western Atlantic Ocean. Regulations implementing the FMP appear at 50 CFR part 648, subparts A and J. The regulations requiring annual specifications are found at § 648.162.

The annual specifications process requires that the Council's Bluefish Monitoring Committee and its Scientific and Statistical Committee (SSC) review the best available scientific information and make specification recommendations to the Council. These groups have reviewed the 2014 updated bluefish stock assessment, which is summarized in the Environmental Assessment and supporting documents. Based on the recommendations of the Monitoring Committee and SSC, the Council makes its specification recommendations to the NMFS Greater Atlantic Regional Administrator. Because this FMP is a joint plan, the Commission also meets during the annual specification process to adopt complementary measures.

The Council's recommendations must include supporting documentation concerning the environmental, economic, and social impacts of the recommendations. NMFS is responsible for reviewing these recommendations to ensure that they achieve the FMP objectives and are consistent with applicable law. NMFS then conducts rulemaking through the **Federal Register** to propose measures, solicit public comment and publish final measures.
