CMS-10488—Health Insurance Marketplace Consumer Experience Surveys: Qualified Health Plan Enrollee Experience Survey

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. Type of Information Collection

Request: Revision of a currently approved collection. **Title of Information Collection:** Health Insurance Marketplace Consumer Experience Surveys: Qualified Health Plan Enrollee Experience Survey; **Use:** Section 1311(c)(4) of the Affordable Care Act (ACA) requires the Department of Health and Human Services (HHS) to develop an enrollee satisfaction survey system that assesses consumer experience with qualified health plans (QHPs) offered through an Exchange. It also requires public display of enrollee satisfaction information by the Exchange to allow individuals to easily compare enrollee satisfaction levels between comparable plans. HHS established the Marketplace Survey and the QHP Enrollee Experience Survey (QHP Enrollee Survey) to assess consumer experience with the Marketplaces and the QHPs offered through the Marketplaces. The surveys include topics to assess consumer experience with the Marketplace such as enrollment and customer service, as well as experience with the health care system such as communication skills of providers and ease of access to health care services. CMS developed the surveys using the Consumer Assessment of Health Providers and Systems (CAHPS®) principles (<http://www.cahps.ahrq.gov/about.htm>) and established an application and approval process for survey vendors who want to participate in collecting QHP enrollee experience data.

The Marketplace Survey will provide (1) actionable information that the Marketplaces can use to improve performance, (2) information that CMS and state regulatory organizations can use for oversight, and (3) a longitudinal database for future Marketplace research. The CAHPS® family of instruments does not have a survey that assesses entities similar to Marketplaces, so the Marketplace Survey items were generated by the project team. The QHP Enrollee Survey, which is based on the CAHPS® Health Plan Survey, will (1) help consumers choose among competing health plans, (2) provide actionable information that the QHPs can use to improve performance, (3) provide information that regulatory and accreditation organizations can use to regulate and accredit plans, and (4) provide a longitudinal database for consumer research.

CMS is completing two rounds of developmental testing for the surveys. The 2014 survey psychometric tests

helped determine psychometric properties and provided an initial measure of performance for Marketplaces and QHPs to use for quality improvement. Based on psychometric test results, CMS further refined the questionnaires and sampling designs to conduct the 2015 beta test of each survey. CMS requests clearance for the national implementation of the QHP Enrollee Survey, beginning in 2016. The total estimated annual burden hours of national implementation of the QHP Enrollee Survey is 39,623 hours with 120,015 responses. The total annualized burden over three years for this requested information collection is 118,869 hours and the total average annualized number of responses is 360,045 responses. **Form Number:** CMS-10488 (0938-1221); **Frequency:** Annually; **Affected Public:** Individuals and Households, Private sector (Business or other for-profits and Not-for-profit institutions); **Number of Respondents:** 120,015; **Total Annual Responses:** 120,015; **Total Annual Hours:** 39,623 hours.
