SUPPLEMENTARY INFORMATION:

Title of Collection: Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST), State Coordinator (SC) Survey.

OMB Number: 3145–NEW.

Expiration Date of Approval: Not Applicable.

Type of request: NEW.

Abstract: The PAEMST is a White House program established by Congress in 1983 authorizing the President to bestow up to 108 awards each year to teachers of mathematics and science at the elementary and secondary levels. The NSF is the designated federal agency for administration of this Presidential program. Awards are given to mathematics and science (including computer science) teachers from each of the 50 states and four U.S. jurisdictions. The jurisdictions are Washington DC; Puerto Rico; Department of Defense Education Activity schools; and the U.S. territories as a group (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). The award recognizes those teachers who develop and implement a high-quality instructional program that is informed by content knowledge and enhances student learning. Since the program's inception, more than 4,300 teachers have been recognized for their contributions in the classroom and to their profession. Awardees serve as models for their colleagues, inspiration to their communities, and leaders in the improvement of mathematics and science (including computer science) education.

The State Coordinator (SC) manages the PAEMST program within his or her state or jurisdiction. SCs recruit eligible nominees, select and assign mentors to nominees, coordinate the selection committee, and plan local recognition events within their State. They also carry out the responsibilities as noted in the "Operational Handbook for State-Level Science and Mathematics Coordinators."

The purpose of this survey is to seek feedback from the 120 SCs regarding PAEMST management within their state or jurisdiction. The NSF, PAEMST support team will ask directed questions using the survey to gather information that may specifically address the methods and recruitment efforts that SCs use to support the attracting of
