

release of threatened and endangered marine mammals under NMFS jurisdiction (Cetacea and Pinnipedia [excluding walrus]), and disentanglement of all marine mammals under NMFS jurisdiction, pursuant to sections 109(h), 112(c), and Title IV of the MMPA; and, carry out such activities as enhancement pursuant to section 10(a)(1)(A) of the ESA; (2) Conduct health-related, bona fide scientific research studies on marine mammals and marine mammal parts under NMFS jurisdiction pursuant to sections 104(c) and Title IV of the MMPA and section 10(a)(1)(A) of the ESA, including research related to emergency response that may involve compromised animals, and research on healthy animals that have not been subject to emergency response (*e.g.*, baseline health studies); (3) Conduct Level B harassment on all marine mammal species under NMFS jurisdiction incidental to MMH SRP activities in the U.S.; and (4) Collect, salvage, receive, possess, transfer, import, export, analyze, and curate marine mammal specimens under NMFS jurisdiction for purposes delineated in numbers (1) and (2) above.

Procedures proposed to carry out the activities include but are not limited to: Close approach via ground, vessel, and aerial surveys (manned and unmanned); hazing and attractants; capture, restraint, and handling; administration of drugs including anesthesia, medical treatments, vaccinations; attachment of scientific instruments; marking (temporary and permanent including freeze- and hot-branding); disentanglement and de-hooking; rehabilitation, transport, and release; biological sampling and analyses; auditory brainstem response/auditory evoked potential; active acoustic playbacks; unintentional mortality and euthanasia; and import and export activities. The permit is requested for a 5-year period.

In compliance with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*), an initial determination has been made that the majority of activities proposed are consistent with the Preferred Alternative in the 2009 Final Programmatic Environmental Impact Statement (PEIS) for the Marine Mammal Health and Stranding Response Program. Also, a draft environmental assessment (EA) has been prepared in compliance with NEPA to examine whether significant environmental impacts could result from permitting new activities (hot branding, UAS, and vaccinations), which were not considered in the Final

PEIS. The draft EA is available for review and comment simultaneously with the permit application.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: April 28, 2015.
