DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2015-0017]

Notice of Workshop Meeting Regarding Information Sharing and Analysis Organizations

AGENCY: Office of Cybersecurity and Communications, National Protection and Programs Directorate, Department of Homeland Security.

ACTION: Notice of meeting.

SUMMARY: This notice announces a public workshop on June 9, 2015 to discuss Information Sharing and Analysis Organizations, Automated Indicator Sharing, and Analysis, as related to E.O. 13691, "Promoting Private Sector Cybersecurity Information Sharing" of February 13, 2015.

DATES: The workshop will be held on June 9, 2015, from 8:00 a.m. to 5:00 p.m. The meeting may conclude before the allotted time if all matters for discussion have been addressed.

ADDRESSES: The meeting location is the Cambridge Massachusetts Volpe Center—55 Broadway, Cambridge, MA 02142. See *Supplementary Information section for the address to submit written or electronic comments.*

FOR FURTHER INFORMATION CONTACT: If you have questions concerning the meeting, please contact *ISAO@hq.dhs.gov* or Michael A. Echols, Director, JPMO, Department of Homeland Security, *michael.echols@dhs.gov*.

SUPPLEMENTARY INFORMATION:

Background and Purpose

On February 13, 2015, President Obama signed E.O. 13691 intended to enable and facilitate "private companies, nonprofit organizations, and executive departments and agencies . . . to share information related to cybersecurity risks and incidents and collaborate to respond in as close to real time as possible." The order addresses two concerns the private sector has raised:

- How can companies share information if they do not fit neatly into the sector-based structure of the existing Information Sharing and Analysis Centers (ISACs)?

- If a group of companies wants to start an information sharing organization, what model should they follow? What are the best practices for such an organization?

ISAOs may allow organizations to robustly participate in DHS information sharing programs even if they do not fit into an existing critical infrastructure sector, seek to collaborate with other companies in different ways (regionally, for example), or lack sufficient resources to share directly with the government. ISAOs may participate in existing DHS cybersecurity information sharing programs and contribute to near-real-time sharing of cyber threat indicators.

Information on Service for Individuals With Disabilities

For information on facilities or services for individuals with disabilities or to request special assistance at the public meeting, contact *ISAO@hq.dhs.gov* and write "Special Assistance" in the subject box or contact the meeting coordinator the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Meeting Details

Members of the public may attend this workshop by RSVP only up to the seating capacity of the room. DHS will audio record the Workshop Panels that take place in the VOLPE Center Auditorium and make the audio recording publicly available on the ISAO Web page *DHS.gov/ISAO*. Each individual will be scanned, and valid government-issued photo identification (for example, a driver's license) will be required for entrance to the building and meeting space. To facilitate the building security process, and to request reasonable accommodation, those who plan to attend should RSVP through the link provided on the ISAO Web page *DHS.gov/ISAO* no later than 14 days prior to the meeting. Requests made after May 26, 2015 might not be able to be accommodated.

Draft Environmental Assessment and Draft Habitat Conservation Plan for the Fender's Blue Butterfly on Private Lands in Yamhill County, Oregon; Reopening of Comment Period

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; reopening of comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are reopening the comment period for an application from the Yamhill Soil and Water Conservation District (SWCD) for an incidental take permit (permit) under the Endangered Species Act of 1973, as

amended (ESA). The permit application includes a draft Habitat Conservation Plan (HCP) addressing private land management activities within upland prairie in Yamhill County, Oregon, that may result in the incidental take of the endangered Fender's blue butterfly. The Service also announces the availability of a draft environmental assessment (EA) addressing the proposed HCP and issuance of a permit that was prepared in accordance with the National Environmental Policy Act of 1969, as amended (NEPA). We invite comments from all interested parties on the permit application, including the HCP and the EA. We are reopening the comment period to correct a technical error with the electronic email box associated with the email address provided in our original **Federal Register** notice. The public could send comments to the Service's email address but we were not able to retrieve the comments for review; therefore, the comments could not be considered and recognized as part of the record.
