Proposed Information Collection; Comment Request; Socioeconomic Survey—Manell-Geus (Guam)

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection. The purpose of this

information collection is to obtain information from individuals in Merizo, Guam. Specifically, NOAA is seeking information on the knowledge, attitudes and perceptions of watershed and coral reef conditions, as well as information on knowledge and attitudes related to specific reef protection activities in the Manell-Geus watershed and adjacent waters. In addition, this survey will provide for the ongoing collection of social and economic data related to the communities affected by coral reef conservation programs.

Manell-Geus is one of ten sites in the nation selected as a focus area for NOAA's Habitat Blueprint initiative. Community support and engagement are key elements towards successfully building resilience. We intend to use the information collected through this instrument for research purposes as well as measuring and improving the results of our coral reef protection programs. Because many of our efforts to protect reefs rely on education and changing attitudes toward reef protection, the information collected will allow NOAA staff to ensure programs are designed appropriately at the start, future program evaluation efforts are as successful as possible, and outreach efforts are targeting the intended recipients with useful information.

II. Method of Collection

Information will be collected using a combination of approaches namely household surveys, focus groups, and key informant interviews. The combination of these approaches is the most efficient and effective way to collect this kind of information at the village level for this U.S. jurisdiction.

III. Data

Form Number: NA.

Type of Review: Regular submission (request for a new information collection).

practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
