SUPPLEMENTARY INFORMATION:

Background

The Convention on International Trade in Endangered Species of Wild Fauna and Flora, hereinafter referred to as CITES or the Convention, is an international treaty designed to regulate international trade in certain animal and plant species that are now, or potentially may become, threatened with extinction. These species are listed in the Appendices to CITES, which are available on the CITES Secretariat's Web site at <http://www.cites.org/eng/app/appendices.php>.

Currently, 180 countries, including the United States, are Parties to CITES. The Convention calls for regular biennial meetings of the Conference of the Parties, unless the Conference decides otherwise. At these meetings, the Parties review the implementation of CITES, make provisions enabling the CITES Secretariat in Switzerland to carry out its functions, consider amendments to the list of species in Appendices I and II, consider reports presented by the Secretariat, and make recommendations for the improved effectiveness of CITES. Any country that is a Party to CITES may propose amendments to Appendices I and II, resolutions, decisions, and agenda items for consideration by all the Parties at the meeting.

This is our second in a series of **Federal Register** notices that, together with an announced public meeting (time and place to be announced), provide you with an opportunity to participate in the development of the U.S. submissions to, and negotiating positions for, the seventeenth regular meeting of the Conference of the Parties to CITES (CoP17), which is tentatively scheduled to be held in September 2016 in South Africa. We published our first CoP17-related **Federal Register** notice on June 27, 2014 (79 FR 36550), in which we requested information and recommendations on species proposals for the United States to consider submitting for discussion at CoP17. In that notice, we also described the U.S. approach to preparations for CoP17. We intend to announce tentative species proposals that the United States is considering submitting for CoP17 and solicit further information and comments on them when we publish our next CoP17-related **Federal Register** notice. You may obtain information on species proposals by contacting the Division of Scientific Authority at the telephone number or email address provided in **FOR FURTHER INFORMATION CONTACT** above. Our regulations governing this public process are found at 50 CFR 23.87.

Request for Information and Recommendations on Resolutions, Decisions, and Agenda Items

Although we have not yet received formal notice of the provisional agenda for CoP17, we invite your input on possible agenda items that the United States could recommend for inclusion, or on possible resolutions and decisions of the Conference of the Parties that the United States could submit for consideration. Copies of the agenda and the results of the last meeting of the Conference of the Parties (CoP16) in Bangkok, Thailand, in March 2013, as well as copies of all resolutions and decisions of the Conference of the Parties currently in effect, are available on the CITES Secretariat's Web site (<http://www.cites.org/>) or from the Division of Management Authority at the address provided in the **ADDRESSES** section above.

Observers

Article XI, paragraph 7 of CITES provides: "Any body or agency technically qualified in protection, conservation or management of wild fauna and flora, in the following categories, which has informed the Secretariat of its desire to be represented at meetings of the Conference by observers, shall be admitted unless at least one-third of the Parties present object:

- (a) international agencies or bodies, either governmental or nongovernmental, and national governmental agencies and bodies; and
- (b) national nongovernmental agencies or bodies which have been approved for this purpose by the State in which they are located.

Once admitted, these observers shall have the right to participate but not to vote."

National agencies or organizations within the United States must obtain our approval to participate in CoP17, whereas international agencies or organizations must obtain approval directly from the CITES Secretariat. We will publish information in a future **Federal Register** notice on how to request approved observer status. A factsheet on the process is posted on our Web site at: <http://www.fws.gov/international/pdf/factsheet-become-observer-to-cites-meeting-2013.pdf>.

Future Actions

As stated above, the next regular meeting of the Conference of the Parties (CoP17) is tentatively scheduled to be held in South Africa in September 2016. The United States must submit any proposals to amend Appendix I or II, or

any draft resolutions, decisions, or agenda items for discussion at CoP17, to the CITES Secretariat no later than 150 days (tentatively April 2016) prior to the start of the meeting. In order to meet this deadline and to prepare for CoP17, we have developed a tentative U.S. schedule. Approximately 14 months prior to CoP17, we plan to publish our next CoP17-related **Federal Register** notice announcing tentative species proposals that the United States is considering submitting for CoP17 and soliciting further information and comments on them. Following publication of that **Federal Register** notice and approximately 12 months prior to CoP17, we plan to publish a **Federal Register** notice announcing draft resolutions, draft decisions, and agenda items the United States is considering submitting for CoP17 and soliciting further information and comments on them. Approximately 4 months prior to CoP17, we will post on our Web site an announcement of the species proposals, draft resolutions, draft decisions, and agenda items submitted by the United States to the CITES Secretariat for consideration at CoP17.

Through a series of additional notices and Web site postings in advance of CoP17, we will inform you about preliminary negotiating positions on resolutions, decisions, and amendments to the Appendices proposed by other Parties for consideration at CoP17, and about how to obtain observer status from us. We will also publish an announcement of a public meeting tentatively to be held approximately 3 months prior to CoP17. That meeting will enable us to receive public input on our positions regarding CoP17 issues. The procedures for developing U.S. documents and negotiating positions for a meeting of the Conference of the Parties to CITES are outlined in 50 CFR 23.87. As noted in paragraph (c) of that section, we may modify or suspend the procedures outlined there if they would interfere with the timely or appropriate development of documents for submission to the CoP and of U.S. negotiating positions.

The company plans to mine the Federal coal as an extension from its existing underground mine if the lease is obtained. The proposed mine would recover coal from the Middle Kittanning seam at the base of the Pennsylvanian aged Lower Freeport Sandstone. As required under 43 CFR 3425.4, the public is invited to the hearing to give public oral and/or written comments on the EA, the FMV, and MER of the Federal tract. Written comments must be received within 30 days following the date of the public hearing. The meeting is being advertised in the *Athens News*, *Athens Messenger* and the *Logan Daily* area newspapers.

The EA addresses the cultural, socioeconomic, environmental and cumulative impacts that would likely result from leasing these coal lands. Two alternatives are addressed in the EA:

Alternative 1 (Proposed Action) The tract would be leased, as applied for.

Alternative 2 (No Action) The application would be rejected or denied. The Federal coal would therefore be bypassed.

Proprietary data marked as confidential may be submitted to the BLM in response to the solicitation of public comments. Data so marked shall be treated in accordance with the laws and the regulations governing the confidentiality of such information. A copy of the comments submitted by the public on FMV and MER, except those portions identified as proprietary by the author and meeting exemptions stated in the Freedom of Information Act, will be available for public inspection at the Eastern States Office, 20 M Street SE., Suite 950, Washington, DC 20003, 9th Floor, during regular business hours (9 a.m. to 4 p.m.), Monday through Friday. Written comments on the FMV and MER should address, but need not be limited to the following:

1. The quality and quantity of the coal resource;

2. The mining methods or methods which would achieve MER of the coal, including specifications of seams to be mined and the most desirable timing and rate of production;

3. Restrictions to mining that may affect coal recovery;

4. The price that the mined coal would bring when sold;

5. Costs, including mining and reclamation, of producing the coal and the time of production;

6. The percentage rate at which anticipated income streams should be discounted, either with inflation or in the absence of inflation, in which case the anticipated rate of inflation should be given;
