

Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and in the Central Records Unit (CRU), Room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the Internet at <http://trade.gov/enforcement>. The signed Issues and Decision Memorandum and the electronic versions of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on our analysis of the comments received, we corrected two programming errors in the weighted-average dumping margin calculation. A detailed discussion of the corrections made is included in the Calculation Memorandum for Final Results.⁴

Final Results of Review

As a result of this review, we determine that the following margin exists for the period October 1, 2012, through September 30, 2013:

Manufacturer/exporter	Weighted-average dumping margin (percent)
Deacero S.A.P.I. de C.V. and Deacero USA, Inc. (collectively, Deacero)	* 2.13

* *ad valorem*.

Assessment Rate

Pursuant to section 751(a)(2)(A) of the Act, and 19 CFR 351.212(b), the Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

For assessment purposes, the Department applied the assessment rate calculation method adopted in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain*

Antidumping Proceedings: Final Modification, 77 FR 8101 (February 14, 2012).

We calculated such rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales for which entered value was reported. If an importer-specific assessment rate is zero or *de minimis* (i.e., less than 0.50 percent) or the exporter has a weighted-average dumping margin that is zero or *de minimis*, the Department will instruct CBP to assess that importer's entries of subject merchandise without regard to antidumping duties, in accordance with 19 CFR 351.106(c)(2).

For entries of subject merchandise during the POR produced by each respondent for which they did not know that their merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. For a full discussion of this assessment practice, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication of the final results of this administrative review, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for Deacero will be the rate established in the final results of this administrative review; (2) for merchandise exported by manufacturers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 20.11 percent, the all-others rate established in the investigation.⁵ These cash deposit

⁵ See *Notice of Antidumping Duty Orders: Carbon and Certain Alloy Steel Wire Rod from Brazil, Indonesia, Mexico, Moldova, Trinidad and Tobago, and Ukraine*, 67 FR 65945 (October 29, 2002).

requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent increase in antidumping duties by the amount of antidumping duties reimbursed.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(h).

Dated: May 6, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

United States Patent and Trademark Office

Patents for Humanity Program

ACTION: Proposed collection; comment request.

SUMMARY: The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 13, 2015.

ADDRESSES: Written comments may be submitted by any of the following methods:

- *Email:* InformationCollection@uspto.gov. Include “0651–0066 comment” in the subject line of the message.

- *Federal Rulemaking Portal:* <http://www.regulations.gov>.

- *Mail:* Marcie Lovett, Records Management Division Director, Office of the Chief Information Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be directed to Edward Elliott, Attorney Advisor, Office of Policy and International Affairs, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450; by telephone at 571–272–9300; or by email to Edward.Elliott@uspto.gov with “0651–0066 comment” in the subject line. Additional information about this collection is also available at <http://www.reginfo.gov> under “Information Collection Review.”

SUPPLEMENTARY INFORMATION:

I. Abstract

In 2012, the United States Patent and Trademark Office (USPTO) conducted a voluntary pilot program to incentivize the distribution of patented technologies or products for the purpose of addressing humanitarian needs. The pilot program, notice of which was published in the **Federal Register** (77 FRN 6544) in February 2012, was a follow-up to the responses received from the agency’s “Request for Comments on Incentivizing Humanitarian Technologies and Licensing Through the Intellectual Property System”—published September 20, 2010—and was open to any patent owners or patent licensees, including inventors who had not assigned their ownership rights to others, assignees, and exclusive or non-exclusive licensees. The USPTO collected information from applicants

that described what actions they had taken with their patented technology to address humanitarian needs among impoverished populations, or how they furthered research by others on technologies for humanitarian purposes. After reviewing the results of the pilot, the program was renewed as an annual program in April 2014. Currently, there are five categories in which applications can be categorized: Medicine, Nutrition, Sanitation, Household Energy, and Living Standards.

To participate in this program, applicants must submit an application describing how their actions satisfy the competition criteria to address humanitarian issues. The USPTO has developed two application forms that applicants can use to apply for participation in the Patents for Humanity Program—one application covers the humanitarian uses of technologies or products and the other application covers humanitarian research. Applicants may optionally provide contact information for the public to reach them with any inquiries. Additionally, applicants may provide non-public contact information by email to the USPTO in order to be notified about their award status. Applications must be submitted electronically as described at <http://www.uspto.gov/patentsforhumanity>. Complete submitted applications will be available on the public Web site after being screened for inappropriate material.

The applications are reviewed by independent judges. A selection committee composed of representatives from other federal agencies and laboratories will make recommendations for the awards based on the judges’ reviews. Those applicants who are selected for an award will receive a certificate redeemable to accelerate select matters before the USPTO and public recognition of their efforts, including an awards ceremony at the USPTO. The certificates can be redeemed to accelerate one of the following matters: An *ex parte* reexamination proceeding, including one appeal to the Patent Trial and Appeal Board (PTAB) from that proceeding; a patent application, including one appeal to the PTAB from that application; or an appeal to the PTAB of a claim twice rejected in a patent application or reissue application or finally rejected in an *ex parte* reexamination, without accelerating the underlying matter which generated the appeal. The certificates cannot be transferred to other parties.

II. Method of Collection

Electronically through the <http://www.uspto.gov/patentsforhumanity> Web site. In the past, USPTO has used challenge.gov and skild.com as platforms to host the applications.

III. Data

OMB Number: 0651–0066.

IC Instruments: The individual instruments in this collection, as well as their associated forms, are listed in the table below.

Type of Review: Revision of an existing collection.

Affected Public: Businesses or other for-profits, non-profit institutions, and individuals.

Estimated Number of Respondents: 110 responses per year, with an estimated 33 percent (36) submitted by small entities. Of this total, the USPTO expects that 100 percent of responses will be submitted electronically through the Patents for Humanity Web site.

Estimated Time per Response: The USPTO estimates that it will take the public approximately four hours to complete the humanitarian program application and one hour to complete the petition to extend the acceleration certificate redemption period beyond 12 months, if needed, depending on the nature of the information. These estimated times include gathering the necessary information, preparing the application and any supplemental supporting materials, and submitting the completed request to the USPTO.

The time per response, estimated annual responses, and estimated annual hour burden associated with each instrument in this information collection is shown in the table below.

Estimated Total Annual Respondent Burden Hours: 410 hours.

Estimated Total Annual Respondent (Hourly) Cost Burden: \$80,290. The USPTO expects that attorneys will complete the Petition to Extend the Redemption Period of the Humanitarian Awards Certificate, and that both attorneys and paralegals will complete the Humanitarian Program Application forms. Using the professional hourly rate of \$389 for attorneys in private firms and a paraprofessional hourly rate of \$125 for the paralegals, the USPTO estimates \$80,290 per year for the respondent cost burden for this collection. However, it should be noted that attorneys are not necessary to fill out the form, and many applicants—including previous winners—have filled out the application themselves.

IC No.	Information collection instrument	Estimated time for response (minutes) (a)	Estimated annual responses (b)	Estimated annual burden hours (a) × (b)/60 = (c)	Rate (\$/hr)
1	Humanitarian Program Application (Humanitarian Use); PTO/PFH/001.	60 minutes (attorney) 180 minutes (paralegal)	85	340	* 191
1	Humanitarian Program Application (Humanitarian Research); PTO/PFH/002.	60 minutes (attorney) 180 minutes (paralegal)	15	60	* 191
2	Petition to Extend the Redemption Period of the Humanitarian Awards Certificate; PTO/SB/431.	60 minutes	10	10	389
Total	110	410

*(Blended).

Estimated Total Annual (Non-hour) Respondent Cost Burden: \$0. This collection has no annual (non-hour) postage, operation or maintenance, or fee costs.

IV. Request for Comments

Comments are invited on:

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility;

(b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they will also become a matter of public record.

Dated: May 4, 2015.

Marcie Lovett,

Records Management Division Director, USPTO, Office of the Chief Information Officer.

Additional information about this collection is also available at <http://www.reginfo.gov> under “Information Collection Review.”

SUPPLEMENTARY INFORMATION:

I. Abstract

The Leahy-Smith America Invents Act (AIA), Public Law 112-29 § 32 (2011) directs the USPTO to work with and support intellectual property law associations across the country in the establishment of pro bono programs

designed to assist financially under-resourced independent inventors and small businesses. In February 2014, President Obama issued an Executive Action calling on the USPTO to expand the existing patent pro bono programs to all 50 states in the country. In support of this Executive Action, the USPTO—in collaboration with various non-profit organizations—has established a series of autonomous regional hubs that act as matchmakers to help connect low-income inventors with volunteer patent attorneys across the United States. The regional hubs comprise law school IP clinics, bar associations, innovation/entrepreneurial organizations, and arts-focused lawyer referral services that are strategically located to provide access to patent pro bono services across all fifty states. This information will help the USPTO determine which regional hubs are operating efficiently and which programs need additional support.

This information collection will ascertain the effectiveness of each individual regional hub with respect to their matchmaking efforts. The USPTO has worked with the Pro Bono Advisory Council (PBAC) to determine what information is necessary to ascertain the effectiveness of each regional pro bono hub’s matchmaking operations. PBAC is a well-established group of patent practitioners and patent pro bono regional hub administrators who have committed to provide support and guidance to patent pro bono programs across the country. PBAC is responsible for the collection of this information, which is collected on a quarterly basis. The information, at its highest level, will allow PBAC and the USPTO to ascertain whether the regional hubs are matching qualified low income inventors with volunteer patent attorneys. It will also help establish the total economic benefit derived by low-income inventors in the form of donated legal services.
