

may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Section 43.43 establishes the reporting requirements for depreciation prescription purposes. Communication common carriers with annual operating revenues of \$150.2 million or more that the Commission has found to be dominant must file information specified in Section 43.43 before making any change in depreciation rates applicable to their operating plant. Section 220 of the Communications Act of 1934, as amended, also allows the Commission, in its discretion, to prescribe the form of any and all accounts, records, and memoranda to be kept by carriers subject to the Act, including the accounts, records and memoranda of the movement of traffic, as well as receipts and expenditures of moneys. Carriers are required to file four summary exhibits along with the underlying data used to generate them, and must provide the depreciation factors (*i.e.*, life, salvage, curve shape, depreciation reserve) required to verify the calculation of the carrier's depreciation expenses and rates. Mid-sized carriers are no longer required to file theoretical reserve studies. Certain price cap incumbent LECs in certain instances may request a waiver of the depreciation rates.
