#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

NASA promotes activities to demonstrate innovative uses and practical benefits of NASA Earth science data, scientific knowledge, and technology. NASA's Applied Sciences Program established the DEVELOP National Program to research environmental management and public policy issues at the state and local level. Under the guidance of NASA and partner organization science advisors, DEVELOP enables participants to lead research projects that utilize NASA Earth observations to address community concerns and public policy issues. Through teams, DEVELOP participants gain experience by (1) utilizing NASA's Earth Science satellite and airborne resources, to include remote sensing and geographic information systems (GIS), and (2) communicating research results. DEVELOP projects serve the global community and extend NASA Earth Science research and technology to benefit society. A focus on both professional and personal development is central to DEVELOP's ten week sessions, which are conducted annually during the spring, summer, and fall.

The DEVELOP research opportunity is available to individuals 18 years and older and includes transitioning career professionals (including veterans of the Armed Forces), recent college/university graduates, and currently enrolled students. Information is collected through an online process from individuals interested in participating in the NASA DEVELOP Program for a ten week session. Information collected from individuals includes a completed application, academic transcript, resume, and two letters of recommendation references per applicant.

With the growing societal role of science and technology in today's global workplace, DEVELOP is fostering an adept corps of tomorrow's scientists and leaders.

##### II. Method of Collection

Electronic.

##### III. Data

Title: DEVELOP National Program Application.

OMB Number: 2700-XXXX.

Type of review: Existing collection in use without an OMB Control Number.

Affected Public: Individuals.

Estimated Number of Respondents: 2,850.

Estimated Time per Response: Variable.

Estimated Total Annual Burden Hours: 2,100.

Estimated Total Annual Cost to Respondents: \$37,275.

##### IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Fran Teel,

NASA PRA Clearance Officer.
