

Additionally, the rules adopted by the *Second Report and Order* include other information collections for third party notifications that need to be effective in order to implement text-to-911, including necessary notifications to consumers, covered text providers, and the Commission. These notifications are essential to ensure that all of the affected parties are aware of the limitations, capabilities, and status of text-to-911 services. These information collections will enable the Commission to meet the objectives for the implementation of text-to-911 service as of December 31, 2014 and for compliance by covered text providers with the six-month implementation period in furtherance of the Commission's core mission to ensure the public's safety.
