

DC 20591; or by telephone at (202) 267-5411; email: natee.wongsangpaiboon@faa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a) (2) of the Federal Advisory Committee Act: (Pub. L No. 92-463, 5 U.S.C. App.) notice is hereby given for an Industry Day meeting to introduce the Four Dimensional Trajectory Demonstration (4DT) project to the aviation community.

Background:

- The 4D Trajectory Demonstration Project will conduct a demonstration of the key 4DT Trajectory Based Operations (TBO) services, including Dynamic Required Navigational Performance (DRNP), Advanced Interval Management (AIM), and Air Traffic Control (ATC) Winds. It will also demonstrate the use of Aeronautical Telecommunication Network (ATN) Baseline 2 data link for the exchange of 4D Trajectories between ground automation systems and aircraft to exercise TBO concepts.

- The purpose of the project is to demonstrate the technical feasibility and evaluate benefits of the advanced TBO services enabled by modern data link technologies. The 4D Trajectory demonstration will leverage the availability of ATN baseline 2 data link standards, advanced Performance Based Navigation (PBN) and surveillance avionics suites, common flight object for trajectory exchange between Air Traffic Management (ATM) automation and Flight Operations Center (FOC) automation.

Registration:

- Attendance is open to the interested public but limited to space availability and is on a first come, first serve basis. A webcast will be provided for those who cannot attend in person. To attend the Industry Day (in person or via webcast), participants must register via the following link: <https://www.eventbrite.com/e/4dt-demonstration-industry-day-tickets-16997639397>

Issued in Washington, DC, on May 18, 2015.

Paul V. Fontaine,

Director, Portfolio Management and Technology Development Directorate, ANG-C, NextGen Office, Federal Aviation Administration.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA 2015-0007-N-11]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking an extension of the following currently approved information collection activities. On April 27, 2015, FRA published in the **Federal Register** its Safety Advisory titled *Mechanical Inspections and Wheel Impact Load Detector Standards for Trains Transporting Large Amounts of Class 3 Flammable Liquids (FRA Safety Advisory 2015-01)*. See 80 FR 23318. The information collection activities associated with FRA Safety Advisory 2015-01 received a six-month emergency approval from OMB on April 30, 2015. FRA seeks a regular clearance (extension of the current approval for three years) to continue this effort to enhance the mechanical safety of tank cars in high hazard flammable trains transporting large quantities of Class 3 flammable liquids. Before submitting these information collection requirements for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Comments must be received no later than July 27, 2015.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590, or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, "Comments on OMB control number 2130-0607." Alternatively, comments may be transmitted via facsimile to (202) 493-6216 or (202) 493-6497, or via email to Mr. Brogan at Robert.Brogan@dot.gov, or

to Ms. Toone at Kim.Toone@dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, sec. 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding: (i) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)-(iv); 5 CFR 1320.8(d)(1)(i)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it

organizes information collection requirements in a “user friendly” format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of the currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: FRA Safety Advisory 2015–01, Mechanical Inspections and Wheel Impact Detector Standards for Trains

Transporting Large Amounts of Class 3 Flammable Liquids.

OMB Control Number: 2130–0607.

Abstract: Recent derailments have occurred involving trains transporting large quantities of petroleum crude oil and ethanol. Preliminary investigation of one of these recent derailments involving a crude oil train indicates that a mechanical defect involving a broken tank car wheel may have caused or contributed to the incident. FRA is issuing this Safety Advisory to make recommendations to enhance the mechanical safety of the cars in trains

transporting large quantities of flammable liquids. This Safety Advisory recommends that railroads use highly qualified individuals to conduct the brake and mechanical inspections and recommends a reduction to the impact threshold levels the industry currently uses for wayside detectors that measure wheel impacts to ensure the wheel integrity of tank cars in those trains.

Affected Public: Businesses.

Frequency of Submission: One-time; on occasion.

Respondent Universe: 70 Railroads.

Reporting Burden:

Safety Advisory 2015–01	Respondent universe (railroads)	Total annual responses	Average time per response (minutes)	Total annual burden hours
(1) Maintenance Advisories from Railroads to Car Owners after Wheel Impact Load Detector (WILD) Automatic Notification that Detects an Impact Above Threshold of 60kips.	70	350,000 Advisories	1	5,833
(2) Records of Initial Terminal Brake Inspection by Qualified Mechanical Inspector and Records of Freight Car Inspections at Initial Terminals with Designated Inspectors.	70	1,000 Inspections/Records	30	500

Form Number(s): N/A.

Total Estimated Responses: 351,000.

Total Estimated Annual Burden:

6,333 hours.

Status: Regular Review.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501–3520.

Erin McCartney,

Acting Chief Financial Officer.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA–2015–0007–N–14]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking renewal of the following currently approved information collection

activities. Before submitting the information collection request (ICR) below for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Comments must be received no later than July 27, 2015.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS–21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590, or Ms. Kimberly Toone, Office of Information Technology, RAD–20, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, “Comments on OMB control number 2130–0006.” Alternatively, comments may be transmitted via facsimile to (202) 493–6216 or (202) 493–6497, or via email to Mr. Brogan at *Robert.Brogan@dot.gov*, or to Ms. Toone at *Kim.Toone@dot.gov*. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS–21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493–6292) or Ms. Kimberly Toone, Office of Information Technology, RAD–20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493–6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104–13, sec. 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501–3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA’s estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being
