Moreover, there is no indication of how much of this 45 percent content is U.S.-manufactured (from initial melting and mixing) iron and steel content.

In accordance with Division K, section 122 of the “Consolidated and Further Continuing Appropriations Act, 2015” (P.L. 113–235), FHWA published a notice of intent to issue a waiver on its Web site at <http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=106> on March 25, 2015. The FHWA received six comments in response to the publication. Four commenters expressed support for granting the waiver. Two commenters opposed the waiver. One commenter opposed granting the waiver indicating that granting large quantity blanket waivers was not the intent of Congress. Another commenter argued for establishing a reduced share or a penalty program instead of granting the waiver. The commenter questioned the grant applicants’ decisions to request funding for new vehicles instead of converting existing vehicles to Compressed Natural Gas (CNG) vehicles and to request funding for CNG school buses. The commenter also indicated the lack of connection between congestion and air quality mitigation with recreational trail snow grooming equipment. The FHWA notes that this equipment would be funded with funds made available under the Recreational Trails Program. None of the commenters objecting to the waiver identified a manufacturer that meets the Buy America requirements for the vehicles and equipment listed in the March 25, 2015 notice.

Based on FHWA’s conclusion that there are no domestic manufacturers that can produce the vehicles and equipment identified in this notice in such a way that steel and iron materials are manufactured domestically, and after consideration of the comments received, FHWA finds that application of FHWA’s Buy America requirements to these products is inconsistent with the public interest (23 U.S.C. 313(b)(1) and 23 CFR 635.410(c)(2)(i)). However, FHWA believes that it is in the public interest and consistent with the Buy America requirements to impose the condition that the vehicles and the vehicle components be assembled in the U.S. Requiring final assembly to be performed in the U.S. is consistent with past guidance to FHWA Division Offices on manufactured products (see Memorandum on Buy America Policy Response, Dec. 22, 1997, <http://>

www.fhwa.dot.gov/programadmin/contracts/122297.cfm). A waiver of the Buy America requirement without any regard to where the vehicle is assembled would diminish the purpose of the Buy America requirement. Moreover, in today’s economic environment, the Buy America requirement is especially significant in that it will ensure that Federal Highway Trust Fund dollars are used to support and create jobs in the U.S. This approach is similar to the conditional waivers previously given for various vehicle projects. Thus, so long as the final assembly of the 21 State projects occurs in the U.S., applicants to this waiver request may proceed to purchase these vehicles and equipment consistent with the Buy America requirement.

In accordance with the provisions of section 117 of the “Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, Technical Corrections Act of 2008” (Pub. L. 110–244), FHWA is providing this notice of its finding that a public interest waiver of Buy America requirements is appropriate on the condition that the vehicles and equipment identified in the notice be assembled in the U.S. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to FHWA’s Web site via the link provided to the waiver page noted above.
