

also when either its SSA or NCUA assigns such a rating. Prior definitions of troubled credit unions did not include FISCUs rated a code 4 or 5 only by NCUA.

The FCU Act requires notice from the insured credit union to include certain personal information about the individual to determine the individual's fitness for the position. NCUA regulation at 12 CFR 701.14 implements Section 212. Section 701.14 requires that within 10 calendar days of receiving the notice, the Regional Director must inform the credit union either that the notice is complete or that additional specified information is required to be submitted within 30 calendar days. Additionally, this section requires the Regional Director or Director of Office of National Examinations and Supervision to issue a written decision of approval or disapproval to the individual and the credit union within 30 calendar days of receipt of the notice. Otherwise, the individual is approved. NCUA's regulation at 12 CFR 741.205 requires federally insured state-chartered credit unions to follow section 701.14.

NCUA's regulations at 12 CFR part 747 (subpart J) sets forth the rights an individual or a credit union may exercise and procedures to be followed in responding to a notice of disapproval by NCUA.

NCUA's forms 4063 and 4063a provide a uniform method for credit unions and individuals to submit information to NCUA regarding changes to officials and senior executive officers. NCUA uses the information to determine an individual's fitness for the position.

In the **Federal Register** of January 22, 2015 (80 FR 3255), NCUA published a 60-day notice requesting public comment on the proposed collection of information. NCUA received no comments.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NCUA requests that you send your comments on the information collection requirements outlined by 12 CFR 701.14 to the locations listed in the addresses section. Your comments should address:

- (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility;
- (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used;
- (c) ways we could enhance the quality,

utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as through the use of automated collection techniques or other forms of information technology. It is NCUA's policy to make all comments available to the public for review.

SUPPLEMENTARY INFORMATION:

I. Abstract and Request for Comments

NCUA is reinstating a previously approved collection of information for 3133-0143 (12 CFR part 760, Loans in Areas Having Special Flood Hazards). The Flood Acts made the purchase of flood insurance mandatory in connection with loans made by

¹ These statutes are codified at 42 U.S.C. 4001-4129.

² Title V of the Riegle Community Development and Regulatory Improvement Act of 1994, also known as the National Flood Insurance Reform Act of 1994, comprehensively amended the Federal flood insurance statutes. See Public Law 103-325, 108 Stat. 2255 (1994).

regulated lending institutions (such as credit unions) when the loans are secured by improved real estate or mobile homes located in a special flood hazard area in a participating community. NCUA, along with other financial institution regulators, issued regulations governing the lending institutions they supervise. Therefore, under part 760 of NCUA's regulations, a federally insured credit union shall not make, increase, extend, or renew any designated loan unless the building or mobile home and any personal property securing the loan is covered by flood insurance for the term of the loan. A designated loan means a loan secured by a building or mobile home that is located or to be located in a special flood hazard area in which flood insurance is available under the Flood Acts. The credit union must also provide certain disclosures to borrowers and abide by recordkeeping requirements.

Specifically, a federally insured credit union is required to:

- Retain a completed copy of the Standard Flood Hazard Determination Form developed by the Federal Emergency Management Agency (FEMA). This form is used by lenders, such as credit unions, to document their determination of whether a building or mobile home offered as collateral security for a loan is or will be located in a special flood hazard area in which flood insurance is available.

- Notify a borrower and the servicer when a building or mobile home offered as collateral security for a loan is determined to be in a special flood hazard area and notify them whether flood insurance is available.

- Notify a borrower and the servicer if the secured property becomes newly located in a special flood hazard area due to remapping of flood hazard areas by FEMA, which would obligate the borrower to obtain flood insurance. In addition, the credit union or its servicer must purchase flood insurance on the borrower's behalf if the borrower, after notification, fails to obtain mandated flood insurance due to remapping, and charge the borrower for the cost.

- Notify a borrower whose mandated flood insurance policy has expired or if the policy covers an amount less than the required amount, of the borrower's obligation to obtain a flood insurance policy for the required amount. If the borrower fails to obtain a flood insurance policy for the required amount following this notification, the credit union or its servicer must purchase flood insurance on the borrower's behalf and charge the borrower for the cost.

- Notify FEMA of the identity of, and any change in, the servicer of a loan secured by a building or mobile home located or to be located in a special flood hazard area.

On August 12, 2013, NCUA published a notice in the **Federal Register** (78 FR 48912) requesting public comments for 60 days on the reinstatement of 3133–0143, a previously approved information collection for 12 CFR part 760 (Loans in Areas Having Special Flood Hazards). NCUA received no comments.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. NCUA requests that you send your comments on this collection to the locations listed in the addresses section. Your comments should address: (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as the use of automated collection techniques or other forms of information technology. It is NCUA's policy to make all comments available to the public for review.

II. Discussion

By letter dated June 30, 2009, FPL submitted the application for COLs for Turkey Point Units 6 and 7, in which it proposed to construct and operate two new nuclear power units at its Turkey Point site near Homestead, Florida. Among other items, the application included an environmental report (ER), which documented FPL's assessment of
