14 CFR Part 71

[Docket No. FAA–2014–0724; Airspace Docket No. 14–AGL–12]

Establishment of Class E Airspace; Clark, SD

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Clark, SD. Controlled airspace is necessary to accommodate new Standard Instrument Approach Procedures (SIAPs) at Clark County

Airport. The FAA is taking this action to enhance the safety and management of Instrument Flight Rules (IFR) operations for SIAPs at the airport. This action also corrects the state to SD under the airport designation, and amends the geographic coordinates of the airport.

DATES: Effective 0901 UTC, August 20, 2015. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.9Y, Airspace Designations and Reporting Points, and subsequent amendments can be viewed on line at <http://www.faa.gov/airtraffic/publications/>. SUPPLEMENTARY INFORMATION:

History

On December 2, 2014, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to establish Class E airspace extending upward from 700 feet above the surface at Clark County Airport, Clark, SD (79 FR 71365). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Subsequent to publication, the FAA found that the state identifier for the airport was incorrectly written as ND, instead of SD under the airport designation. This action corrects the error, and also makes a minor adjustment to the geographic coordinates of the airport.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9Y dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the **ADDRESSES** section of this final rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by establishing Class E airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Clark County Airport, Clark, SD, to accommodate new Standard Instrument Approach Procedures at the airport. This action enhances the safety and management of IFR operations for SIAPs at the airport. Additionally, this action amends the state identifier from ND to SD, and adjusts the geographical coordinates from lat. 48°28'48" N., long. 99°14'11" W., to lat. 44°53'42" N., long. 097°42'38" W., to be in concert with the FAA aeronautical database.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more

detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes controlled airspace at Clark County Airport, Clark, SD.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Amendment to the International Traffic in Arms Regulations: Policy on Exports to the Republic of Fiji

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: The Department of State is revising the International Traffic in Arms Regulations (ITAR) to rescind the previous policy of denying the export of defense articles and defense services to Fiji.

DATES: This rule is effective on May 29, 2015.

FOR FURTHER INFORMATION CONTACT: Mr. C. Edward Peartree, Director, Office of Defense Trade Controls Policy, Department of State, telephone (202) 663–2792; email DDTCPublicComments@state.gov. ATTN: Regulatory Change, Exports to Fiji.

SUPPLEMENTARY INFORMATION: The Department of State is amending the International Traffic in Arms Regulations (ITAR) to update the defense trade policy regarding Fiji. On September 17, 2014, Fiji's acting government followed through on its longstanding commitment to hold democratic elections. A Multinational Observer Group of over 90 international observers, representing 14 countries including the United States, characterized the election as credible and having represented the will of the people of Fiji. The Department has determined that is in the best interests of U.S. foreign policy, national security, and human rights concerns to rescind the previous policy of denying the export of defense articles and defense services to Fiji.
