NATIONAL SCIENCE FOUNDATION

Proposal Review; Notice of Meetings

In accordance with the Federal Advisory Committee Act (Pub., L. 92-463, as amended), the National Science Foundation (NSF) announces its intent to hold proposal review meetings throughout the year. The purpose of these meetings is to provide advice and recommendations concerning proposals submitted to the NSF for financial support. The agenda for each of these meetings is to review and evaluate proposals as part of the selection process for awards. The review and evaluation may also include assessment of the progress of awarded proposals. The majority of these meetings will take place at NSF, 4201 Wilson Blvd., Arlington, Virginia 22230.

These meetings will be closed to the public. The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act. NSF will continue to review the agenda and merits of each meeting for overall compliance of the Federal Advisory Committee Act.

These closed proposal review meetings will not be announced on an individual basis in the **Federal Register**. NSF intends to publish a notice similar to this on a quarterly basis. For an advance listing of the closed proposal review meetings that include the names of the proposal review panel and the

time, date, place, and any information on changes, corrections, or cancellations, please visit the NSF Web site: <http://www.nsf.gov/events/>. This information may also be requested by telephoning, 703/292-8687.

Dated: May 26, 2015.

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Grantees of SEES and Comparable Non-SEES Programs.

OMB Number: 3145-NEW.

Type of request: Intent to seek approval for ICR.

Abstract

In 2010, NSF established the SEES Portfolio as a multi-year effort to coordinate Agency research and education activities related to the environment, energy and sustainability. The overarching goals of the SEES portfolio are to (1) support interdisciplinary research and education that can facilitate the move towards global sustainability; (2) build linkages among existing projects and partners and add new participants in the sustainability research enterprise; and (3) develop a workforce trained in the interdisciplinary scholarship needed to understand and address the complex issues of sustainability.

NSF is supporting an evaluation of the SEES portfolio to determine the extent to which it has achieved its program- and portfolio-level goals. Specifically, the evaluation seeks to measure the output and outcomes of SEES in terms of the development of new knowledge and concepts that advance the overarching goal of a sustainable human future, new and productive connections made between researchers in a range of disciplines, and the development of a workforce capable of meeting sustainability challenges.

This comment request relates to a proposed *survey of NSF grant recipients*. The survey respondents are principal investigators (PIs) in NSF-funded SEES and comparable non-SEES projects. The survey will collect information on respondents' career pathways, NSF grant activities, and the development of interdisciplinary networks of scholars among researchers.

I. Review Focus

NSF is interested in comments on the practical utility of the survey in view of the project goals and the study approach, the burden on respondents and potential ways to minimize it.
