### SUPPLEMENTARY INFORMATION:

**Title of Collection:** Survey of Grantees of SEES and Comparable Non-SEES Programs.

**OMB Number:** 3145-NEW.

**Type of request:** Intent to seek approval for ICR.

### Abstract

In 2010, NSF established the SEES Portfolio as a multi-year effort to coordinate Agency research and education activities related to the environment, energy and sustainability. The overarching goals of the SEES portfolio are to (1) support interdisciplinary research and education that can facilitate the move towards global sustainability; (2) build linkages among existing projects and partners and add new participants in the sustainability research enterprise; and (3) develop a workforce trained in the interdisciplinary scholarship needed to understand and address the complex issues of sustainability.

NSF is supporting an evaluation of the SEES portfolio to determine the extent to which it has achieved its program- and portfolio-level goals. Specifically, the evaluation seeks to measure the output and outcomes of SEES in terms of the development of new knowledge and concepts that advance the overarching goal of a sustainable human future, new and productive connections made between researchers in a range of disciplines, and the development of a workforce capable of meeting sustainability challenges.

This comment request relates to a proposed *survey of NSF grant recipients*. The survey respondents are principal investigators (PIs) in NSF-funded SEES and comparable non-SEES projects. The survey will collect information on respondents' career pathways, NSF grant activities, and the development of interdisciplinary networks of scholars among researchers.

### I. Review Focus

NSF is interested in comments on the practical utility of the survey in view of the project goals and the study approach, the burden on respondents and potential ways to minimize it.

Comments submitted in response to this Notice will be summarized and included in the request for Office of Management and Budget approval of the ICR; they will also become a matter of public record.

*Total Respondents:* 950.

*Frequency:* One-time collection.

*Total responses:* 760.

## NUCLEAR REGULATORY COMMISSION

[FEMA-2012-0026, NRC-2015-0133]

### Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Draft NUREG; request for comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft NUREG-0654/FEMA-REP-1, Revision 2, "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants." This guidance document was originally issued in December 1980 by the NRC in conjunction with the Federal Emergency Management Agency (FEMA). Both agencies use the document to evaluate the adequacy of the emergency plans and preparedness of commercial nuclear power plant (NPP) licensees and applicants, as well as those of State, local, and Tribal governments within the emergency planning zones (EPZs) surrounding commercial NPPs. This revision reflects changes to the NRC's and FEMA's regulations, guidance, and policies, as well as advances in technology and methods for responding to radiological incidents that have occurred since the document was originally issued. It also incorporates the four supplemental documents and addenda to NUREG-0654/FEMA-REP-1, Revision 1, that

have been issued in the intervening years, and is intended to modernize the guidance while lessening administrative burden on users.

**DATES:** Submit comments by August 27, 2015. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

**ADDRESSES:** In order to avoid the receipt and review of duplicate submissions, please submit your comments and any supporting material by only one of the following means:

## II. Discussion

In December 1980, the NRC issued NUREG-0654/FEMA-REP-1, Revision 1, "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants," in conjunction with FEMA (45 FR 85862; December 30, 1980).

Revision 1 of NUREG-0654/FEMA-REP-1 provides guidance on meeting the 16 planning standards for NPP emergency response plans found in the NRC's regulations in paragraph 50.47(b) of Title 10 of the *Code of Federal Regulations* (10 CFR) and FEMA's regulations set forth in 44 CFR 350.5(a). Both agencies use the guidance in determining compliance with these planning standards and evaluating the overall adequacy of the emergency plans and preparedness of commercial NPP licensees and applicants, as well as State, local, and Tribal governments within the EPZs surrounding commercial NPPs, for responding to a radiological incident at an NPP.
