regulatory impact analysis. Because no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act, 5 U.S.C. 601–612, do not apply.

The regulation will not have a substantial direct effect on the States, on the relationship between the Federal Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this proposed rule does not have federalism implications under Executive Order 13132.

Pursuant to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601–612, it is hereby certified that these regulations will not significantly affect a substantial number of small entities. The proposed rule imposes no duties or obligations on small entities.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Promulgation of Air Quality Implementation Plans; Michigan; Part 3 Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving revisions to the Part 3 rules into the Michigan State Implementation Plan (SIP). On December 13, 2013, the Michigan Department of Environmental Quality (MDEQ) submitted to EPA for approval revisions to Part 3, Emission Limitations and Prohibitions—Particulate Matter (PM), for open burning and electro-static precipitators (ESP). The revisions for open burning eliminate specific provisions to allow household waste burning, and add a provision to allow for burning of fruit and vegetable storage bins for pest or disease control with specific location limitations. The SIP request also removes rule 330 dealing with operation parameters for electrostatic precipitators because of redundancy, and rule 349 dealing with compliance dates for coke ovens because it is now obsolete. EPA is approving this SIP revision because it will not interfere with attainment or maintenance of the fine particulate matter (PM2.5) National Ambient Air Quality Standard (NAAQS).
