B. Regulatory History and Information

On February 18, 2015, the Coast Guard published a Final Rule entitled *Safety Zones; Annual Events Requiring Safety zones in the Captain of the Port Lake Michigan Zone in the Federal*

Register (80 FR 8536). This final rule included a safety zone for the daytime operation of the Milwaukee Air and Water Show in the vicinity of McKinley Park in Table 165.929(f)(2).

C. Basis and Purpose

The legal basis for the rule is the Coast Guard’s authority to establish safety zones: 33 U.S.C. 1231; 33 CFR 1.05–1, 160.5; Department of Homeland Security Delegation No. 0170.1.

In May of 2015 the Coast Guard confirmed through the sponsors of the Milwaukee Air and Water Show that an additional air show will be added to the show this year. This additional show, expected to consist of maneuvering aircraft and parachuters, is scheduled to occur over a different location and at a differing time than the daytime air show. This night show is expected to occur over the waters of Milwaukee Harbor in the vicinity of Lakeshore State Park. The night show is expected to occur between 6 p.m. and 10 p.m. on July 25, 2015. This nighttime air show is expected to draw a large group of waterborne spectators. The Captain of the Port Lake Michigan has determined that the likelihood of transiting vessels in the waters over which the nighttime air show participants will fly presents a significant risk of serious injuries or fatalities. Such hazards include flaming debris from dropped flares, and falling aircraft.

D. Discussion of Proposed Rule

The Captain of the Port Lake Michigan has determined that a safety zone is necessary to mitigate the aforementioned safety risks. Thus, this proposed rule establishes a safety zone that encompasses all waters of Milwaukee Harbor in the vicinity of Lakeshore State Park within an area bounded by the following coordinates, beginning at 43°02.547’N., 087°53.478’W., then southeast to 43°02.478’N., 087°52.877’W., then southwest to 43°01.493’N., 087°53.104’W., then northwest to 43°01.564’N., 087°53.697’W., then northwest returning to the point of origin (NAD 83).

This proposed rule will be effective from July 23, 2015 until July 26, 2015. This proposed rule would be enforced from 6 p.m. until 10 p.m. on each day from July 24, 2015 until July 26, 2015.

The Captain of the Port Lake Michigan will notify the public that the zone in this proposed rule is or will be enforced in accordance with 33 CFR 165.7(a). Such means of notification may also include, but are not limited to Broadcast Notice to Mariners or Local Notice to Mariners.

All persons and vessels shall comply with the instructions of the Captain of the Port Lake Michigan or her designated on-scene representative. Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port Lake Michigan or her designated on-scene representative. The Captain of the Port Lake Michigan or her designated on-scene representative may be contacted via VHF Channel 16.

E. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS). We conclude that this proposed rule is not a significant regulatory action because we anticipate that it will have minimal impact on the economy, will not interfere with other agencies, will not adversely alter the budget of any grant or loan recipients, and will not raise any novel legal or policy issues. Overall, we expect the economic impact of this proposed rule to be minimal and that a full Regulatory Evaluation is unnecessary.

2. Impact on Small Entities

Under The Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule will affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor within the waters of Milwaukee Harbor in Milwaukee,

Wisconsin during the times in which the safety zone is enforced in July of 2015.

This proposed safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons: This proposed rule will be enforced for a limited time during the month of July; this proposed safety zone has been designed to allow traffic to pass safely around the zone whenever possible, and vessels will be allowed to pass through the zone with the permission of the Captain of the Port. If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Petty Officer Joseph McCollum, Prevention Department, Coast Guard Sector Lake Michigan, Milwaukee, WI at (414)747–7148. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the “For Further

Information Contact” section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such expenditure, we do discuss the effects of this proposed rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This proposed rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That

Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. An environmental analysis checklist supporting this determination is available in the docket where indicated under **ADDRESSES**. This proposed rule involves the establishment of a safety zone and is therefore categorically excluded under figure 2–1, paragraph 34(g) of the Instruction. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
